THE KENT NEWS Is The Best and Largest Circulated Paper In Kent County

"Bosh" Said Anty Drudge.

Mrs. Thinkless—"Goodness! I wish I could send these children to school at daylight on Monday morning and not see them again till dark so I could have the whole day free for washing."

Anty Drudge—"Bosh! Mrs. Thinkless. Just you get a cake of Fels-Naptha and wash with it in lukewarm water, without boiling. Then you can get the children ready for school at 9 o'clock, do your whole washing and be through within time to get their lunch at noon."

Do you dread the coming of washday in winter?

Do you hate to stoke up a red hot fire, boil the clothes, fill the house with nauseous odors and bend over a tub of steaming suds half the day?

Then don't. It's worse than unnecessary. Wash your clothes with Fels-Naptha in lukewarm water without boiling.

Surprising how easy it is.

And how comfortable. And how much cleaner and brighter and sweeter it makes the clothes—flannels, woolens, colored goods as well as the white things.

Instead of a whole day, your washing with Fels-Naptha takes only a couple of hours and doesn't leave you with a tired back, a steamed face or bruised knuckles.

All that's necessary is to use lukewarm water—never hot—and follow directions on the back of the red and green Fels-Naptha wrapper. Try it next washday.

KENNEDYVILLE NOTES.

In the quarterly meeting of our Grange on Saturday afternoon, we had with us, besides a large number of its members, Mrs Acca Crew, Maryland State Worthy Ceres, who spoke in a most interesting and entertaining manner to her large audience, on the three offices of the Grange, titled, Ceres, Pomona and Flora. Following the address by the Worthy State Ceres, was that of Mr. Wm G. Smyth, Worthy State Lecturer, who talked to the Patrons of Husbandry on the best way to get most out of their produce. The Worthy Lecturer of the local Grange, Miss Emma Shafer, had a most intetesting programme, and all present very much enjoyed the quarterly gathering. A most sumptuous banquet was served, of oysters chicken, ham, salads and other dishes too numerous to mention, all extremely tempting to the appetite, with hot coffee and cake. The young people had a most delightful time in their innocent plays and all present seemed to be in the best of spirits.

Quite a number of persons in and around Kennedyville are indisposed, suffering from colds, lagrippe or otherwise.

Mrs. Crossley, mother of Mrs. Dr. J. W. Urie, is still very sick. Mrs. Hayes, of Galena, mother of Mrs. Jos. H. Weer, is sick in the heme of her daughter, with cold bordering on lagrippe

Miss Jennie Bowers spent Sunday with Dr. and Mrs. J. W. Urie.

At the regular meeting of the Mt. Vernon Literary Society of Washington College last Saturday evening the following subjects were discussed in parliamentary debate: Resolved, that, there should be educational and property qualifications for every voter. After the question had been thoroughly discussed by both sides it was put and lost. Resolved, that, the automobile will do more good to mankind than the horse. After this subject had been discussed the majority of the house seemed to think that the horse would predominate in the future.

Buick Motor Cars

Every Buick is a Buick

Through and Through

Much has been said by automobile manufacturers about the greatness of their factories, but few people realize that the greatest of them all is the BUICK PLANT.

The reason it has not been necessary to exploit it, has been the ever-increasing quality-value of Buick Cars. For seven years they have been known as the "un-advertised" Cars—the Cars which have sold on merit alone. Now that the Buick organization and constructive facilities have been so vastly strengthened, it seems only right that all who are interested in automobiles should know all about Buick Cars, the Buick Plant and the Buick Organization.

Every Buick is a Buick through and through. Practically every part is made at this great Buick plant, in fact, everything excepting lamps, carburetors, coils and magnetos. The Buick organization is a unit which represents the highest degree of efficiency in Motor Car production. That is why the Buick not only maintains its reputation for great power, but has the stability of every part to support this power. And so perfect is the harmony of all operating parts, that the Buick is one of the most silent-running cars made.

The position of honor at the Madison Square Garden Show, allotted according to the value of the annual output, has been awarded this year, as in previous years, to the Buick—Space 14.

5 Models, at prices fixed according to power and size—$850, $1000, $1075, $1250, $1800. One-ton Buick Truck, $1000.
