PECULIAR WHITEWASH

When traveling through the rural districts of Uruguay, says the American consul at Montevideo, one's attention is attracted to the fine white color of the farm buildings, even during the wet season. To obtain this neat effect a whitewash is used which is made with the sliced leaves of the common cactus, macerated in water for 24 hours, producing a solution of creamy consistence. To this lime is added and well mixed. When applied to any surface, be it wood, brick, iron, or other material, a beautiful pearly white appearance is produced which will endure through storms and frosts for many years. It is suggested that in sections of the United States where the cactus is a nuisance the plant might be utilized in this manner.

TOMB OF HAROUN'S FAVORITE

Very little remains to mark the golden age of Bagdad, though one constantly comes across the yet more ancient bricks bearing the stamp of Nebuchadnezzar that have been brought from the ruins of Babylon and are used in modern buildings. We do not know even where the famous palace of Haroun-al-Rashid stood. From this epoch remain only the tomb of Zobeida, Haroun-al-Rashid's favorite wife, here pictured, and Khan Ortma, a handsome and extensive caravanserai.

CHINA HAS NO TYPEWRITERS

Typewriters are now made for use in nearly a hundred different languages, and they are sold all over the world; but there is still one great nation which, for a very simple reason, has no typewriters that write its tongue. That nation is China.

The English alphabet has 26 letters, the Russian 36. The typewriter produced for the Russian market is the largest made; but no typewriter could be made that would begin to be big enough for the Chinese language, which has no alphabet but is represented by sign characters, of which there are about 50,000. Of the great number of words found in the English language only a small proportion are used for the ordinary purposes of speech, and the same is true of the characters used in the Chinese language; but the number of Chinese characters commenly employed is still far greater than could be put on any typewriter. So this nation of 400,000,000 people has no typewriter in its own tongue.

But that doesn't mean that no typewriters are sold in China. More and more Chinese are learning other languages besides their own, and Chinese merchants and resident foreign merchants use typewriters, and they are used in legations and in consular offices and in banks and shipping offices and colleges, and by missionaries, by various people. Altogether there are sold in China a good many typewriters.

VIOLIN MADE OF MATCHES

A violin made of matches is an unique conception. This is what W. M. Finstad, of Bay City, Wis., has accomplished. He has actually made a violin from matches, using 5,450 of the inflammable sticks and a year's time in its construction. It has a full, sweet, mellow tone, and undoubtedly there is not another one like it in existence. It was exhibited at the Minnesota state fair and attracted a great deal of attention.

"CATS' EYES" OF AMOY

Vice-Consul Charles F. Brissel states that "cats' eyes" are abundant in Amoy, and cost about $1 a bushel. It is reported that these are imported into Amoy from Shanghai and Canton and are made from mother-of-pearl and dyed

FOLEY KIDNEY PILLS

W. T. Silly, a prominent dealer in Pennington Gap, Va., was so bothered with kidney and bladder trouble that he could not attend to business. He says, "I had severe pains in my back and kidneys and had to get up ten to fifteen minutes each night. Saw Foley Kidney Pills advertised and bought two bottles, and soon felt great relief, and was entirely cured. No longer disturbed at night, but sleep till morning." Sold by M. A. Toulson.
