# THE STORE WHERE YOUR MONEY BUYS THE BEST VALUES

There are two ways in which merchants attempt to increase the purchasing power of their customers' money. One is the "catchpenny" method of clipping a cent or two from the price of a more or less standard article. The other—the Hochschild, Kohn & Co. way—is to pay the very top price for each article to be sold at a given price, thereby insuring the utmost value in that article.

In other words, the Hochschild, Kohn & Co. policy is to sell the best 25c stockings, the best 25c handkerchiefs, the best $1.00 gowns, the best $10.00 trimmed hats, the best $25.00 tailored suits that can be sold at these prices.

So, while on individual purchases, our prices may seem a penny or two higher, the woman with $1.00 or $5.00 or $10.00 or $25.00 or $100.00 to spend will get more real value for the amount expended than she can possibly get in any other store.

Spring is here—and the Hochschild, Kohn & Co. stocks of merchandise for spring are wonderfully attractive. See them when you come to Baltimore.

## The Lowest Priced 35 H. P. 5 Passenger Touring Car on the Market

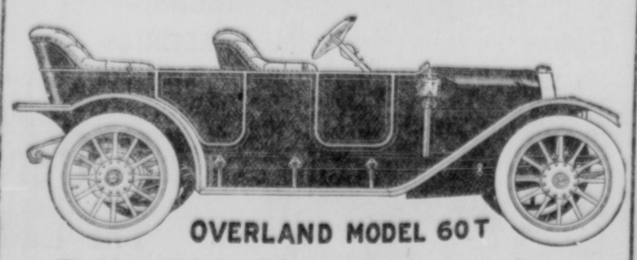

THINK OF IT! A thirty-five horsepower five-passenger touring car for $1200. *This is the lowest priced thirty-five horsepower touring car in the world.* Part for part—point for point—it is the equal of any $1500 car made. It has the power—the speed—the comfort—the appearance—and the construction. Take the powerful motor—the strong and rugged rear system—the Vanadium steel gears—the fine bearings—the pressed steel frame—the dropped forged axles—the big tires—the superb body work—the high grade upholstery; in fact, take every item that goes into the makeup of this automobile *and you will find that the duplicate of this car cannot be had below the fifteen hundred dollar mark.*

Here is a car with a powerful, silent, smooth-running thirty-five horsepower motor. Here is a car that seats five large passengers comfortably. The upholstery is of good leather, hand stuffed with hair. The body is finished in our famous dark Overland blue and the wheels in battleship gray. The transmission is of the selective type, three speeds and reverse—fitted with the fine F. & S. annular bearings which are used on the most expensive cars in the world. The frame is of pressed steel and has a single drop. The crank and gear casings are of aluminum. The front axle is a one piece, drop forged I section fitted with the famous Timken bearings. The tires are 34x4—quick detachable. The handsome massive lamps are finished in solid black with brilliant heavy brass trimmings. Self starter $20.00 extra.

The Overland center control is the one proven and practical location for both operating levers. The method enables you to operate the levers with the left hand and gives you free use of your right hand for driving. It give you the use of your right hand fore door, as well as the left hand fore door, which is impossible if a lever is placed one side or the other. you can get in or out on either side. It is easy to handle—no stretching out or reaching. Any one can manipulate the levers without a particle of effort.

Take the specifications of this $1200 car—compare them with any $1500 car you know of and the only difference you will be able to find is the difference in price.

Why pay an additional $300 for a purely imaginary value?

## ON THE DIAMOND

Centreville High School walked away with the Chestertown boys last Saturday by score of 13 to 4. Sparks and Robinson were home battery; Tucker and Whiteley, Centreville.

Washington lost the game to Virginia Military Academy at Lexington, Va., last Friday, score 4 to 3. The locals had them 3 to 0 in the ninth inning, but the Cadets hit the ball hard in their half and scored four runs. Batteries—W. C., Biddle, Lewis and Long; V. M. I., Throckmorton and Reed.

Washington College will play Baltimore City College, on Washington Field Saturday.

Pitcher Frank M. Jarman, of Washington College fame, who has signed up with the Reading base ball team, of the Tri-State League, left Monday for that town.

A meeting was held at the Chestertown High School on Wednesday, April 10, for the purpose of forming a baseball league.

The teams represented were Kennedyville, Millington, Lynch-Worton, Black's and Chestertown.

Kennedyville was represented by Mr. Redmile; Black's by Mr. Wheatley; Millington by Prof. Robinson and Norman Wallen; Chestertown by Prof. Smyth and Lee Robinson, and Lynch-Worton by Stewart Price and Philip Jones.

Prof. Smyth was made chairman and Mr. Wheatley secretary, pro. tem.

The following officers were elected: Owen C. Blades, president; Norman Wallen, vice-president; L. C. Robinson, secretary.

The league was named the Kent County Base Ball League.

As some of the teams were not represented another meeting was caused to be held at Kennedyville on April 15. Still Pond, Betterton and Galena were requested to be present.

At this meeting Still Pond and Betterton were represented and a six-club league was organized as follows: Kennedyville, Millington, Chestertown, Lynch-Worton, Betterton-Still Pond.

Rules and regulations governing the grounds, the umpires and the players were adopted.

The league opens on Saturday, April 20. As Millington has not yet organized and since Black's plays Double Creek these two teams will not play on the 20th but will start on the 27th. The schedule for the opening games is as follows: Betterton-Still Pond at Kennedyville; Lynch-Worton at Chestertown. The games to begin at 3.30

The rules have been made with a purpose to give a good, clean game of ball and if the league is given support by the fans we are quite sure it will be a success.

## FRANK BROWN URGES WILSON

Roosevelt's Recent Successes, He Says, Makes This Necessary.

"Believing as I do that the recent primaries in Illinois and Pennsylvania indicate that Colonel Roosevelt will be the nominee of the Republican party for President, I call upon the Democrats of the State to lay aside personal preference and get behind Governor Wilson, the candidate in my opinion who can more easily meet Roosevelt on the hustings."

This advice was offered to the Democratic party by former Governor Frank Brown last night. He reiterated that he would personally be satisfied with any of the four candidates prominently mentioned.

"I have been made a Wilson supporter by the recent Roosevelt victories," the former Governor continued. "We know what kind of campaign Roosevelt will conduct if nominated, which I believe he will be. He will visit every section of the country and almost every hamlet. He will appeal to the prejudices of the people, seeking to array the masses against the classes.

"I take it that the Democratic party wants to win. I believe that there is no candidate before the voters who would not honestly say that victory was the first consideration and personal advantage the second. To be certain of victory we must have a candidate who is not only mentally able to compete with Roosevelt on the stump, but one who has the physical vigor to do so and who is willing to make such a campaign. Governor Wilson has demonstrated that he both can and will make such a campaign. He will appeal to the reason of the voters and, in a moment's notice, answer logically and convincingly any charge Roosevelt may make.

"I therefore call upon the voters of my party to turn a deaf ear to the orders of advice of party leaders. They have not shown in the past that they are safe guides. They have led our party into a ditch. If regardless of personal preference the Democrats of this State stop and ask themselves who will make the most available candidate, I am sure they will support Wilson."

"Take it from me," the ex-Governor concluded with emphasis, "with Governor Wilson as the candidate for President and a strong running mate, the Democratic party will sweep this country. Maryland will be redeemed with an old-fashioned majority. Frank Brown is not a bad political prophet, as many doubtless remember, and I make this prediction with all sincerity."

## LET PEOPLE RULE, SAYS ROOSEVELT

to redress social and industrial evils. Again and again earnest workers for social justice have said to me that the most serious obstacles that they have encountered during the many years that they have been trying to save American women and children from destruction in American industry have been the courts. That is the judgment of almost all the social workers I know and of dozens of parish priests and clergymen and of every executive and legislator who has been seriously attempting to use government as an agency for social and industrial betterment. What is the result of this system of judicial nullification? It was accurately stated by the court of appeals of New York in the employers' liability case, where it was calmly and judicially declared that the people under our republican government are less free to correct the evils that oppress them than are the people of the monarchies of Europe. To any man with rision, to any man with broad and real social sympathies, to any man who believes with all his heart in this great democratic republic of ours, such a condition is intolerable. It is not government by the people, but mere sham government in which the will of the people is constantly defeated. It is out of this experience that my remedy has come, and let it be tried in this field. When as the result of years of education and debate a majority of the people have decided upon a remedy for an evil from which they suffer and have chosen a legislature and executive pledged to embody that remedy in law and the law has been finally passed and approved I regard it as monstrous that a bench of judges shall then say to the people: "*You must begin all over again.* First, amend your constitution [which will take four years]; second, secure the passage of a new law [which will take two years more]; third, carry that new law over the weary course of litigation [which will take no human being knows how long]; fourth, submit the whole matter over again to the very same judges who have rendered the decision to which you object. Then, if your patience holds out and you finally prevail, the will of the majority of the people may have its way." Such a system is not popular government, but a mere mockery of popular government.

**People Will Define "Liberty."**

The decisions of which we complain are, as a rule, based upon the constitutional provision that no person shall be deprived of life, liberty or property without due process of law. The terms "life, liberty and property" have been used in the constitutions of the English speaking peoples since Magna Charta. Until within the last sixty years they were treated as having specific meanings—"property" meant tangible property; "liberty" meant freedom from personal restraint, or, in other words, from imprisonment in its largest definition. About 1870 our court began to attach to these terms new meanings. Now "property" has come to mean every right of value which a person could enjoy, and "liberty" has been made to include the right to make contracts. As a result, when the state limits the hours for which women may labor, it is told by the courts that this law deprives them of their "liberty," and when it restricts the manufacture of tobacco in a tenement it is told that the law deprives the landlord of his "property." Now, I do not believe that any people, and especially our free American people, will long consent that the term "liberty" shall be defined for them by a bench of judges. Every people has defined that term for itself in the course of its development.

**Task Is to Strive For Justice.**

Friends, our task as Americans is to strive for social and industrial justice, achieved through the genuine rule of the people. This is our end, our purpose. The methods for achieving the end are merely expedients to be finally accepted or rejected according as actual experience shows that they work well or ill. But in our hearts we must have this lofty purpose, and we must strive for it in all earnestness and sincerity or our work will come to nothing. In order to succeed we need leaders of inspired idealism, leaders to whom are granted great visions, who dream greatly and strive to make their dreams come true; who can kindle the people with the fire from their own burning souls. The leader for the time being, whoever he may be, is but an instrument to be used until broken and then to be cast aside, and if he is worth his salt he will care no more when he is broken than a soldier cares when he is sent where his life is forfeit in order that the victory may be won. In the long fight for righteousness the watchword for all of us is spend and be spent. It is of little matter whether any one man fails or succeeds, but the cause shall not fail, for it is the cause of mankind. We, here in America, hold in our hands the hope of the world, the fate of the coming years, and shame and disgrace will be ours if in our eyes the light of high resolve is dimmed, if we trail in the dust the golden hopes of men. If on this new continent we merely build another country of great but unjustly divided material prosperity we shall have done nothing, and we shall do as little if we merely set the greed of envy against the greed of arrogance and thereby destroy the material well being of all of us. To turn this government either into government by plutocracy or government by a mob would be to repeat on a larger scale the lamentable failures of the world that
