GREATEST OF CANAL LOCKS

It will be interesting enough from a topical point of view for the average reader who may have occasion to express himself upon the Panama canal to read up on canal locks, says the Chicago Tribune. Don't make the mistake of committing yourself to canal greatness as wholly within the "Canal Zone," for the longest canal lock in the world has just been built by the federal government at St. Mary's falls at Sault Ste Marie, Mich. This longest lock in the world measures 1,350 by 80 feet, with low water clearance of 25 feet.

This new canal, which parallels the old "Soo" canal from Lake Superior, lies to the north of the old St. Mary's falls canal, which had its origin when the state of Michigan dug the first "Soo" canal in 1855. In the early 70's traffic through the Michigan built canal had increased to such an extent that the federal government took it over and in 1881 had completed its enlargement to 160 feet width and constructing the Wenzell lock—still in use—515 feet long and 80 feet wide, with depth of 16 feet at low water. On the Canadian side are the Dominion government's canal and lock, but by far the greater tonnage has been using the American side, where the later Poe lock has had a length of 800 feet, width of 100 feet, and depth of 20 feet.

Now the greatest lock on the globe has been completed in the United States' new canal. Above the lock the new canal basin is 260 feet near the lock gates, widening away to a maximum of 500 feet, with uniform depth of 25 feet. The lock gates are 108 feet wide. The freight tonnage annually for the great lakes is 90,000,000, and is about one-sixth of the freight movement of the country. The significance of the canal lies in the statement that almost 70 per cent. of this great lake commerce passes through the several "Soo" canals, effecting a saving estimated at $250,000,000 over rail traffic.

SIR WALTER RALEIGH'S PIPE

It is said that this curious pipe belonged to Sir Walter Raleigh, who first introduced tobacco smoking in England, and that he smoked it on the scaffold just before his execution, handing it as a last gift to Bishop Andrewes. It was exhibited, with this account of its history, by the Archaeological society of England in the sixties, with the further statement that it is made of maple wood from Virginia, the colony which Sir Walter Raleigh founded. The bowl of the pipe has a cap, and a string of beads is attached to the stem, which is also furnished with a whistle. The pipe is carved with dogs' heads and the faces of Indians.

REAL FAMILY TREE

San Francisco has a complete genealogy of the Haida tribe of Indians of the Charlotte island, off the coast of British Columbia, as carved on a huge totem pole by the Indians themselves. This totem pole, a gift to the University of California by Mrs. Phebe Apperson Hearst, has been placed in position in front of the afflicted colleges overlooking Golden Gate park. The Haida totem pole is 40 feet high and 3½ feet through at the base. It is believed that the pole will last for ages. Many who were present at the ceremony admired the woodcarver's art as shown on the totem pole.

LUMINOSITY OF FIRE-FLY

Alfred C. Egerton points out in his physics notes in "Knowledge" that Coblentz and Ives have made an investigation of the light emitted by the fire-fly (Photinus pyralis). They find that the radiation controlled by the fly is all in the visible region of the spectrum—there appears to be very little ultra-violet radiation and no infra-red. The light is under control of the insect and does not appear to be stimulated by previous exposure to light, as with true phosphorescent substances. It is more probable that the light is due to oxidation of some complicated unstable fatty substance, the decomposition of which can be accelerated at will by the insect.

SWISS HAVE FEW HORSES

With only three horses to every one hundred persons, Switzerland has the smallest equine population of any country.

Overland

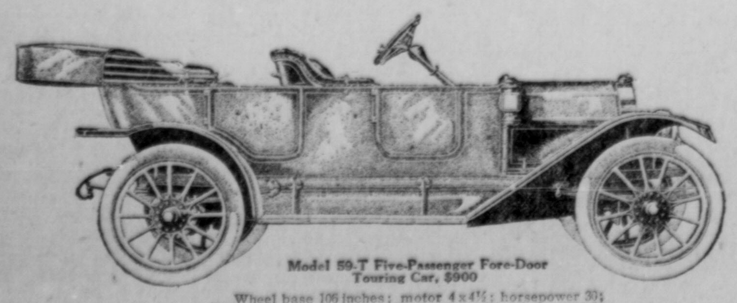

$900 Buys You All You Need in an Automobile

THIS Overland (Model 59) at $900 is absolutely all any one would want in a car. Compare it with any $1250 car on the market, and you'll find but little difference. You know that most of the $1250 cars are of the 30-horsepower type. This $900 car has a 30-horsepower motor. Seats five people comfortably. It is big and roomy. Has a staunch pressed steel frame, selective transmission with F & S annular bearings—the best made. Has strength, power and speed—more than you will ever care to use. The body design and finish is simple, graceful and beautiful. Upholstery is of good leather, hand stuffed with fine hair. In every respect it is a thoroughly high grade machine.

And it is a fact that no other maker in the business can build this car and sell it at this price without losing money. This is due to the enormous manufacturing facilities of the Overland Company—*the largest in the world.* The manufacturer who turns out but 5,000 cars *must* have greater production costs, for each car, than the Overland Company, who make over 20,000 cars.

They have published a very interesting and simply written book which explains why the largest automobile factory in the world can give more for less money than the small factory. Stop in and get a copy. It will show you how to save money when you buy your car. This also explains in detail the remarkable value of this $900 touring car and illustrates with handsomely colored plates the complete 1912 line. Better come in at once.

JOHN H. CLENDANIEL, JR., Agent,
KENNEDYVILLE, MARYLAND.

Model 59-T Five-Passenger Fore-Door Touring Car, $900

Wheel base 106 inches; motor 4 x 4½; horsepower 30; Splitdorf magneto; transmission selective, three speeds and reverse; F. & S. ball bearings; tires 32 x 3½ O. D.; 3 oil lamps, 2 gas lamps and generator. Complete set tools.

Also, Wood, Lime, Hay and Terra Cotta Piping.
Carey's Magnesia Roofing.
Paroid Roofing
Alpha Portland Cement

The Standard of Cements are bought in large quantities and sold exclusively by

J. D. BACCHUS, Chestertown, Md.

Charles Wright, 1512 French street, Wilmington, Del. recovered from a severe attack of rheumatism and says: "The rheumatic pains kept me awake at night, but after taking Foley Kidney Pills the pain lessened and soon I was able to sleep all night, and I am cured of all kidney trouble." Sold by M. A. Toulson.

C. H. Wildman, 1433 Redford street, Cumberland, Md. writes: "I have used Foley Kidney Pills and find them all O. K. I had tried other remedies, but Foley Kidney Pills are the best medicine I ever used." They are tonic in action and give quick and permanent benefit. Sold by M. A. Toulson.

The postmaster at Barnegat, N. J., R. G. Collins, had a severe lagrippe cough that was very exhausting, and says: "Half a bottle of Foley's Honey and Tar Compound cured that cough entirely. It can't be beat." Contains no opiates. Safe for children. Sold by M. A. Toulson.

Michael Powers, a member of the Major Dandy Post, No. 813, Perth Amboy, N. J., would like old comrades to know of the help Foley Kidney Pills were to him. He had terrible pains in his back and other painful and annoying symptoms of kidney trouble, and says: "Foley Kidney Pills have cured me in a remarkably short time." Write for particulars. Sold by M. A. Toulson.

There are people in this town who unthinkingly neglect a "mere cold," though they would not otherwise expose their children or themselves to danger. Yet a cold neglected may develop into contagious diptheria, bronchitis or pneumonia. Use Foley's Honey and Tar Compound promptly, for it stops coughs quickly and cures colds. It contains no opiates and is safe for children. Sold by M. A. Toulson.
