KENNEDYVILLE, - - MARYLAND

Try a Want Adv. in the "News"

The Cause of Many Sudden Deaths.

There is a disease prevailing in this country most dangerous because so deceptive. Many sudden deaths are caused by it—heart disease, pneumonia, heart failure or apoplexy are often the result of kidney disease. If kidney trouble is allowed to advance the kidney-poisoned blood will attack the vital organs, causing catarrh of the bladder, brick-dust or sediment in the urine, head ache, back ache, lame back, dizziness, sleeplessness, nervousness, or the kidneys themselves break down and waste away cell by cell.

Bladder troubles almost always result from a derangement of the kidneys and better health in that organ is obtained quickest by a proper treatment of the kidneys. **Swamp-Root** corrects inability to hold urine and scalding pain in passing it, and overcomes that unpleasant necessity of being compelled to go often through the day, and to get up many times during the night. The mild and immediate effect of Swamp-Root, the great kidney remedy is soon realized. It stands the highest because of its remarkable health restoring properties. A trial will convince anyone.

Swamp-Root is pleasant to take and is sold by all druggists in fifty-cent and one-dollar size bottles. You may have a sample bottle and a book that tells all about it, both sent free by mail. Address, Dr. Kilmer & Co., Binghamton, N. Y. When writing mention reading this generous offer in this paper. Don't make any mistake, but remember the name, Swamp-Root, and don't let a dealer sell you something in place of Swamp-Root—if you do you will be disappointed.

Rejoice! Good News

The landlord has given us possession of the Stam's Hall Building for TWO MORE WEEKS. We must positively vacate the building SATURDAY, JUNE 29th, 1912.

THE MARYLAND AUTO LAW

The Motor Vehicle Commissioner is sending copies of the Maryland Automobile Law to owners of cars and motor cycles throughout the State, and it might be well for those who have not yet received a copy to drop a line to the Commissioner, who will gladly forward one for the asking. The new law is arranged in booklet form of twenty-eight pages, and is convenient at all times.

It will be remembered that only last summer the then Commissioner "Johnny" George swooped down on many Eastern Shore automobilists and brought them before a Justice of the Peace. While they had violated the law it was done through ignorance rather than a disregard for it. Some of them were supplied with copies of the law while others were not, and those who had them did not take the time and trouble to acquaint themselves with the more important provisions contained therein. There will be absolutely no excuse for any violation of the law from this time on, as the present Motor Vehicle Commissioner is trying his utmost to reach every automobile owner in the state, to whom he may send a copy of the law, and if there are any whom he has overlooked, he will consider it a favor if they will call his attention to the fact.

In the use of warning signals the law specifically states that any person operating a motor vehicle or motor-cycle shall not make or cause to be made any unnecessary noise by a prolonged blast or otherwise with any such bell, horn or other signalling device, or to use same except as a warning of danger. Furthermore, such signalling device shall not be sounded while passing a horse or other animal in the open country. It is also unlawful to operate a motor vehicle without an adequate muffler or to cut out the muffler at any hour of the day or night within the limits of any city, town or village of this State.

Another practice common in this section is that of allowing automobiles to stand unattended on the streets and highways without securing or locking the lever or other device by which the machine is started, or taking other reasonable precautions to prevent such vehicle being started by unauthorized persons. The law says that it shall be the duty of the person operating a motor vehicle to stop the motor and cut off the electric current where there is no one in charge. The law further says that no person shall, without the authority of the owner or person in charge thereof, climb upon or into any automobile, whether the same is in motion or at rest, or while such automobile is at rest and unattended, sound any horn or other signal device, or attempt to manipulate any of the levers, the starting crank, brakes or machinery thereof, or set said automobile in motion, or otherwise damage, tamper or intetfere with the same. The throwing of tacks, nails, glass, etc., upon the highways is also in violation of the automobile law. This is a practice that is quite common among children and parents should see to it that their children thoroughly understand this provision.

The penalties for violations of the automobile law are quite severe—ranging all the way from fifty to five hundred dollars, with a ninety-day jail sentence thrown in as "good measure." It is to be hoped that those of our people in Chestertown and Kent county who are so fortunate to own a motor vehicle will not run amuck and be called upon to pay one of these fines. They should send to the Commissioner for a copy of the law.

GALENA ITEMS.

Mr. Eugene Mitchell, our rural mail carrier, is spending a few days with his parents, Rev. and Mrs. Jas. M. Mitchell of Laurel, Del.

Mr. Wm. Steele lost his valuable bay horse last Sunday. Mr. Steele was at church when one of his friends told him his horse was sick. He hurried home and sent for Dr. McDowell but the horse died in a short time. It is supposed he had lockjaw.

Galena crossed bats with Blacks on the latter's grounds, last Thursday, the score being 4 to 2 in favor of Galena.

Galena school closed on Friday last. The following prizes were awarded:—by Miss Rose Duyer, a new silver dollar to Francis McCauley for the highest average; by Prof. F. M. Maddox, a library book to Anna Vansant for highest average; also books to Elsie Dixon and Edgar Moffett for regular attendance.

Miss Rose Duyer returned to her home in Chestertown, and Miss Marian Lockerman to her home in Millington on Friday.

The remains of Mr. John Blackway, of near Middletown, were brought on Sunday afternoon to Olivet M E Church yard and interred; Rev. R. H. Lewis officiating.

Mrs. Sophia Hurtt and daughters, Misses Anita and Elizabeth visited Mr. and Mrs. James Davis on Sunday.

The stork has been kept pretty busy here for the past two weeks, leaving to Mr. and Mrs. Keith Cochran a little son; to Mr. and Mrs. Wm. Fogwell a little son; and to Dr. and Mrs. Geo. R. Jones a little daughter.

CONVICTS TO BUILD ROADS.

Gov. Goldsborough is of the opinion that our road construction has been too costly and the Roads Commission is trying to find a way to reduce the cost per mile. Convict labor in the penitentiary, experts say, is not yielding as high a return as in other States.

One move will go far toward solving at once both the road and penitentiary problems. By using the convicts in road construction the State can build highways for much less than private contractors can, and at the same time get a high return from the labor of its convicts. Major W. W. Crosby, former chief road engineer, believes road work would improve the health and morals of prisoners and guarding and housing them would not cost as much as factories, light, heat and power furnished in the penitentiary.

In accordance with Governor Crothers' recommendation, the Legislature of 1910 passed a bill giving the State Roads Commission the right to employ convicts in road construction. Governor Goldsborough and the commission can do the State a service by exercising the right, instituting a system that will benefit the prisoners and give Maryland good roads at less cost. Centreville has been working their prisoners on the town streets.
