GALENA ITEMS.

Mr. Harry Todd, who is spending the summer at Tolchester, visited his home for a few days last week.

Mr. Wm. Dempsey and sister, Miss Carrie, spent part of last week with their sister, Mrs. Olie H. Connelly, of Piney Neck.

Norma, the little 10-year-old daughter of Mr. and Mrs. Jerome McCauley, of near town, who has been in a hospital in Baltimore for several weeks, returned home the first of the week. The little girl had a needle removed from her knee and after the operation she recovered rapidly. On Wednesday afternoon she gave a party to her little classmates and all had a very pleasant time. One of the pleasant features of the afternoon was a "peanut hunt." The prizes—a box of Lowney's and a base ball—were won by Genevieve Cochran and Richard Woodall. Among those present were: Misses Lavelle Dempsey, Hilda Boyd, Emma Boyd, Genevieve Cochran, Margaret, Alice and Theresa Burns, Helen Bolton, Theresa Scott, Mary and Eva McCauley; Masters John and Richard Haggerty, Richard and Andrew Woodall, Francis McCauley and Keith Cochran, Jr.

Mr. and Mrs. Charles McKensie and little son, of North Carolina, visited their parents, Mr. and Mrs. Thos. McIntyre.

Miss Lillian Ford, of Earleville, visited her aunt, Mrs. John Ford, on Friday and Saturday of last week.

The Epworth League Cabinet met at the parsonage Monday evening and decided to hold a "Lawn Fete" on the lawn of Mr. Otha Fogwell, near town, during the last week of July. Proceeds for "Our Student Fund" and general expenses of the League work. There will be a short program, after which refreshments will be sold.

Wednesday evening, at the meeting of Stewards and Trustees of Olivet M. E. Church, it was voted that the pastor, Rev. R. H. Lewis, should take a month of entire rest so he may be more able to regain his strength. He and Mrs. Lewis are spending a few days in Cambridge and expect to go to the home of the pastor's parents in a short time. It is hoped that the change will prove just the tonic needed.

Miss Grace Merchant, who has been quite ill with typhoid fever, is reported better at this writing.

Mr. Bradford Pierce has been confined to his home for several days with a return of his old trouble. We hope he may soon be quite well and strong again. We miss him from his place of business.

Mrs. Charles Dixon and little daughter have been visiting her parents, Mr. and Mrs. William Holding.

Mr. Harry Brockson and his bride, of Philadelphia, visited their mother, Mrs. Walter Hadley, a few days last week. We wish the happy couple a long and prosperous life.

INJURY FROM HESSIAN FLY

Dates For Sowing Wheat in Different Parts of State.

The Hessian Fly has caused more or less severe injury in all parts of the State during the past season. In some cases it has reduced the crop of wheat from 25 to 50 per cent.

The general increase of the pest makes it necessary for farmers to exercise every care in preventing, as far as possible, severe injury another year.

The insect passes the summer in the wheat stuble. When not interfering with clover the stubble should be burnt over. No volunteer wheat should be allowed to grow during the summer. Rotation of crops is very beneficial.

On farms where the pest has been serious, narrow plats of wheat should be sowed in late summer, about September 1st to 10th, depending on locality, as baits for the Fly. Later, this can be plowed down.

From observation and records, considering the latitude and altitude at the various points, wheat should not be sowed in the surrounding country of the following cities and towns of the State before the dates given:

Oakland	September 12th 19th
Hagerstown	October 1st-7th
Frederick	October 3rd-10th
Westminster	Sept. 28th, Oct. 5th
Rockville	October 2nd 8th
Germantown	October 2nd-8th
Ellicott City	October 2nd-9th
La Plata	October 9th-16th
Cockeysville	October 3rd-10th
Bel Air	October 2nd-9th
Elkton	October 2nd 9th
Chestertown	October 8th-15th
Easton	October 9th-16th
Salisbury	October 10th-17th

Dates of sowing for the adjoining sections to the above can be figured by moving forward the date of sowing one day for each one-quarter degree latitude North, and one day for each 100 feet gain in altitude from a given point.

A wet August and September may cause an early disappearance of the Fly, while a protracted fall drouth and warm weather may cause a later disappearance.

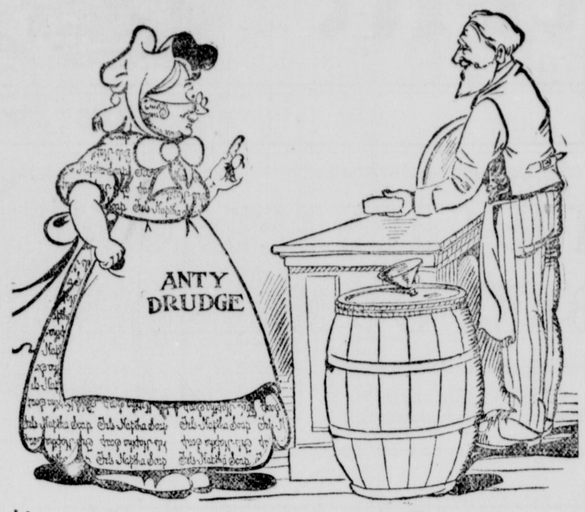

The adoption of a uniform, safe period for sowing wheat in each locality by all the farmers is of the greatest importance.

This subject should be discussed at farmers' meetings and united effort secured to reduce the injury from this pest of our most important staple crop.

What Cholera Costs.—If statistics were prepared showing the loss annually caused by the deatns of hogs and poultry by cholera, the results would be appalling, and in the United States alone would run into millions of dollars. An effective remedy against the ravages of this disease has been found in Cal-Sino powders. Cal-Sino is put up in two forms, one for poultry and one for hogs. A small portion mixed with the food will keep the swine or fowl strong and healthy. The manufacturers, the Royal Distributing Co., Baltimore, Md., will send to live owners, free on request, a copy of their 60-page illustrated book, "How To Tell," showing how to know and how to cure diseases in horses, cattle, sheep, hogs and poultry. It contains much valuable information.

Anty Drudge Changes Grocers.

Grocer Shortsight—"Madam, the whole secret is in the naphtha. Now here's a new naphtha soap—try it."

Anty Drudge—"Naphtha nothin'! Couldn't I get a little naphtha of my own, if it was only naphtha did it. I tell you these imitations don't have the combination that's in Fels-Naptha soap, and won't wash clothes the Fels-Naptha way. Here's where I quit trading with you."

We are sometimes asked by housewives if Fels-Naptha soap is as good for washing clothes in winter as in summer. Better, if that is possible.

The best thing about Fels-Naptha is that you don't have to boil the clothes either winter or summer. And because boiling is more disagreeable in winter, Fels-Naptha is a greater blessing then. In the winter doors and windows are closed, and the nauseous odor of boiling clothes cannot escape to the open air; then, too, steam loosens and wrinkles wall paper. And chapped hands are caused by dipping them in hot water and then exposing to the cold.

You don't need hot water in washing with Fels-Naptha. But be sure and use it the Fels-Naptha way. Follow the directions on the red and green wrapper.
