Costs You Nothing When Idle— Almost Nothing When It Runs

WHEN an I H C engine is at work, it is the cheapest dependable power you can use; when not working it costs you nothing. It will work just as hard at the close of the day as at the start—will work overtime or all night just as readily. It is ready to work whenever you need it; always reliable and satisfactory. You can use an

I H C Oil and Gas Engine

to pump water, to run the wood saw, cream separator, churn, grindstone, washing machine, feed grinder, corn husker and shredder, ensilage cutter, or any other farm machine to which power can be applied.

I H C oil and gas engines are constructed of the best materials; built by men who know what a good engine must do; thoroughly tested before leaving the factory.

They are made in all sizes from 1 to 50-horse power; in all styles—vertical and horizontal, air and water cooled, portable, stationary and mounted on skids, to operate on gas, gasoline, naphtha, kerosene, distillate or alcohol. Kerosene-gasoline tractors, 12 to 45-horse power.

Ask the I H C local dealer to show you an I H C engine and explain each part, or write for catalogue and full information.

HOG CHOLERA SERUM.

President Harry P. Skipper of The State Live Stock Board Relieving Farmers of Kent And Queen Anne's And of The Whole State—State Appropriation Insufficient.

In fulfillment of the notice published exclusively in the NEWS last week the treatment of diseased hogs in Kent and Queen Anne's was begun Monday. Through the efforts of President Harry P. Skipper, of the State Live Stock Sanitary Board, $500 was appropriated to the immediate relief of hog cholera in Kent, Queen Anne's and Talbot counties.

He received Monday a small box costing $250 and containing 10,000 cubic centimeters of hog cholera serum. Mr. Skipper accompanied by former State Veterinarian G. Allen Jarman went to the farms near town including Messrs. Jesse R. Copper, Milton Melvin and others. Commissioner Fletcher Melvin, Harry White and others in that neighborhood have lost nearly all their hogs, as have others near Betterton, Still Pond, Tolchester and elsewhere. The cost to the farmer is the fee to Dr. Jarman for administering the serum, and the fee, the doctor states, he will make 25 cents which is as low as is consistent with the labor involved in administering the dose.

President Skipper says he is determined to stamp out the disease, which is costing the farmers of this section from $20,000 to $30,000 every year. He has divided Kent and Queen Anne's counties into districts, to which will be assigned different veterinarians, and just as soon as enough serum can be supplied the work will be pushed in all infected districts simultaneously. The cost to the farmer of this immunizing process has heretofore been so great as practically to prevent its adoption, but since the last Legislature passed a law providing for the manufacture of the serum and for its sale to the farmers at cost of production, the expense attached to the immunization of a head of swine will be greatly reduced. It costs 40 cents to immunize a 100-pound hog, and figuring the high price of grain in the feeding of hogs, the farmer's margin of profit is extremely small per hog if he has to stand the added expense of immunizing them. However, Mr. Skipper, who has made a close study of the disease, believes that only by immunizing the hogs can the disease be prevented, thus saving the farmer not only the loss of his own hogs, but the expense of buying meat for the farm in the event of the loss of his herd. Mr. Skipper says the serum is a sure preventative.

Fined $1,200. — John Bartrick was fined $1,200 by Justice John W. Heck for selling milk in Cumberland when 5 of his children were ill with typhoid fever. It is a criminal offense for a dairyman to sell milk when there is typhoid fever in his home or when cows are quartered near a house where there is an infectious disease.

WOMEN TAKE NOTICE!

A man cannot understand the torture and suffering many women endure uncomplainingly. If the majority of men suffered as much pain and endured with patience the weakening sicknesses that most women do, they would ask for immediate sympathy and look for a quick cure.

Many women have been saved from a life of misery and suffering by turning to the right remedy—Dr. Pierce's Favorite Prescription—a remedy which is safe to take because containing no narcotics, alcohol or injurious ingredients. It is an alterative extract of roots, made with pure glycerin, and first given to the public by that famous specialist in the diseases of women—Dr. R. V. Pierce, of the Invalids' Hotel and Surgical Institute of Buffalo, N. Y.

MRS. HESSHEIMER.

Mrs. Lizzie M. Hesshemer of Lincoln, Neb., 820 "C" St., says: "I send a testimonial in the hope that some suffering woman may know the true worth of your remedies. I was a great sufferer from female troubles but after taking one bottle of Dr. Pierce's Favorite Prescription, which a friend advised me to take, I found myself very much improved. After taking three more bottles, and using two boxes of Dr. Pierce's Lotion Tablets, I found myself on the road to recovery. I was in poor health for five years but now I am cured.

"I hope all women suffering from female weakness will give Dr. Pierce's Favorite Prescription a fair trial.

Doctor Pierce's Pleasant Pellets regulate and invigorate stomach, liver and bowels. Sugar-coated, tiny granules.
