Anty Drudge on Washing in a Flat.

Mrs. Apartment—"It's the hardest thing to get hot water here; you're not supposed to do any washing in the rooms. And when I do get hot water, it takes so long to wash that the rooms get awful smelly."

Anty Drudge—"Why don't you use Fels-Naptha? Then you won't have to use hot water. You will get through with your wash in a jiffy and there'll be no steam to make your rooms offensive."

To women who live in apartments the washing of clothes is a problem. The solution is Fels-Naptha soap.

No need of hot water; no boiler, no washboard. For light washing you don't even need a washtub, because the bathtub or basin will do quite well.

All you require is Fels-Naptha, cool or lukewarm water and a place to dry the clothes.

Say you have a shirtwaist or two, napkins, lingerie and other small things, that you don't have time or don't want to send out to be washed. You can do much better at home in this way:

Wet the clothes, soap well with Fels-Naptha, roll and leave to soak in cool or lukewarm water for a short time. Then rub lightly, rinse and hang up to dry.

Takes but one-fourth the time and one-tenth the work of the old way. Also saves the clothes.

Follow directions on the red and green wrapper.

What Shall I do, Doctor?

What would you do—you who have no telephone?

It isn't pleasant to think of sickness or accidents, but they *do* come, often when you're least prepared.

A Bell Telephone would be invaluable then — to get the doctor, QUICK, or to have the druggist rush over with a "first aid."

If you're still without this never-sleeping "watch-dog," call the Business Office and arrange for service, to-day.
