Women as Well as Men are Made Miserable by Kidney and Bladder Trouble.

Kidney trouble preys upon the mind, discourages and lessens ambition; beauty, vigor and cheerfulness soon disappear when the kidneys are out of order or diseased.

Kidney trouble has become so prevalent that it is not uncommon for a child to be born afflicted with weak kidneys. If the child urinates too often, if the urine scalds the flesh, or if, when the child reaches an age when it should be able to control the passage, it is yet afflicted with bed-wetting, depend upon it, the cause of the difficulty is kidney trouble, and the first step should be towards the treatment of these important organs. This unpleasant trouble is due to a diseased condition of the kidneys and bladder and not to a habit as most people suppose.

Women as well as men are made miserable with kidney and bladder trouble, and both need the same great remedy. The mild and the immediate effect of **Swamp-Root** is soon realized. It is sold by druggists, in fifty-cent and one-dollar size bottles. You may have a sample bottle by mail free, also a pamphlet telling all about Swamp-Root, including many of the thousands of testimonial letters received from sufferers who found Swamp-Root to be just the remedy needed. In writing Dr. Kilmer & Co., Binghamton, N. Y., be sure and mention this paper. Don't make any mistake, but remember the name, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

BIG MONEY IN BUTTER BEANS

Yields About Five Hundred Per Acre—Seems Strange That Our People Do Not Raise More of the Delicious Vegetables—Allen Folks Know How to Raise The Beans and How to Ship Them.

The section of country around Allen, Wicomico county, holds the record for raising butter beans and it is said that for the size of the place there are more butter beans raised around Allen than in any other section of the United States. For several years Allen has been the butter bean raising section of the Eastern Shore and just why the truckers of other sections of Wicomico county have not taken hold of producing this great crop is a wonder.

There is no special expertness in raising butter beans. The land has to be proper and it is some trouble to look after the young vines but the result from a monetary standpoint is far more alluring than any other crop which can be put in the ground. Some of the farmers object to the trouble of picking and packing the vegetables, but it is no more trouble than most any other fruit or vegetables which are shipped.

Mr. Beverly Hitch of Allen is said to be the champion butter bean raiser of the county and reports are to the effect that this year he realized over $1,500.00 from three acres of butter beans. These figures should be sufficient to open the eyes of many truckers to the possibilities of raising this crop another year. Five hundred dollars an acre is going some in trucking and we do not believe there is another fruit or vegetable in the county which will yield quite as much net profit as raising butter beans at these prices, and it is said that there is never any trouble about selling the product as the markets are never glutted and there is always a ready sale for all the butter beans which can be raised.

Another thing in favor of the vegetable is that there is no serious ill effects if the shipments are delayed for a day or so and then the canners are always anxious to get the beans for canning purposes and there is always a ready sale in the winter for dried butter beans, so there cannot be any loss in the crop from any standpoint.

There are thousand of acres of land in land in Wicomico county suitable for raising this vegetable which are not producing one-tenth per acre which could be produced by raising butter beans and our truckers should wake up to their opportunity and get into the butter bean business at once. Unlike many perishable crops which are raised the bean business is a staple one and can always be made profitable one way or another.—Wicomico News.

STRANGE POISONINGS OF HERMITAGE CATTLE.

Following a series of strange deaths among the cattle at "The Hermitage," near Queenstown, Queen Annes county, the stomachs of several of the dead animals have been forwarded to Baltimore, where they are undergoing special examination by chemists. The suspicion prevails that the animals were poisoned by some one who had a spite against the owner, although it is possible that their death might have been due to forage poisoning.

On July 17th the first death occurred. At that time one of the blooded heifers died in a mysterious manner after a short illness. Mr. F. T. English, resident manager of "The Hermitage," thought the death strange but did not connect it at that time with any systematic effort to kill the stock.

Several days later another death occured, until now three valuable heifers, one magnificent bull and boar have all died in an equally mystifying manner.

Mr. English determined to investigate the matter and sent for Veterinary Jarman, of Kent county.- Dr. Jarman after an examination pronounced death due to poisoning, but could not give further information without a more detailed examination. The stomach of one of the dead animals was accordingly forwarded to Baltimore where it is undergoing tests

The whole matter has been kept very quiet and many of the near neighbors of "The Hermitage" have not been aware of the strange deaths among the imported stock, for which this farm is famous all over the Eastern Shore. While officers have not been advanced on the case, should the deaths continue the county sheriff may investigate.

PRICE-ANDERSON DEBATE ASSURED

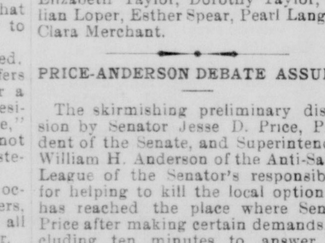

The skirmishing preliminary discussion by Senator Jesse D. Price, President of the Senate, and Superintendent William H. Anderson of the Anti-Saloon League of the Senator's responsibility for helping to kill the local option bill has reached the place where Senator Price after making certain demands, including ten minutes to answer Mr. Anderson's rebuttal speech, stated that even if his terms were not accepted he would be present anyhow and speak, thus assuring the meeting at Salisbury on Sept. 27.

Mr. Anderson refused to agree to the terms on the ground that so long as the Senator was trying to break into the management of the meeting he was not entitled to anything more than his rights under the ordinary rules of debate. On Monday, however, Mr. Anderson notified Senator Price that in view of the latter's recognition that it was a League meeting he would be given the ten minute rebuttal speech he wanted, "or three of them if he thought he needed so many."
