NERVOUS DESPONDENT WOMEN

Find Relief in Lydia E. Pinkham's Vegetable Compound —Their Own Statements So Testify.

Platea, Pa.—"When I wrote to you first I was troubled with female weakness and backache, and was so nervous that I would cry at the least noise, it would startle me so. I began to take Lydia E. Pinkham's remedies, and I don't have any more crying spells. I sleep sound and my nervousness is better. I will recommend your medicines to all suffering women." —Mrs. MARY HALSTEAD, Platea, Pa., Box 98.

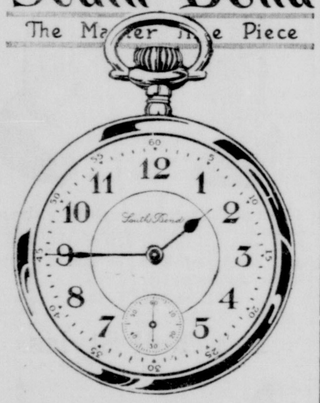

Here is the report of another genuine case, which still further shows that Lydia E. Pinkham's Vegetable Compound may be relied upon.

Walcott, N. Dakota.—"I had inflammation which caused pain in my side, and my back ached all the time. I was so blue that I felt like crying if any one even spoke to me. I took Lydia E. Pinkham's Vegetable Compound, and I began to gain right away. I continued its use and now I am a well woman." —Mrs. AMELIA DAHL, Walcott, N. Dakota.

If you want special advice write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

South Bend

The Master Time Piece

THE South Bend Watch Company might use garnet jewels in their watches instead of ruby and sapphire jewels as many other watch companies do and thus greatly reduce the cost of production.

You would not notice the difference in buying.

But, if garnet jewels were used, the watch would not have any such lasting qualities—

and the South Bend Watch Company believes it is better to have smaller profits and satisfied customers than large profits and dissatisfied customers.

That's the way we feel about it too, which accounts for our giving *South Bend* watches the preference.

ALFALFA CULTURE

BY JAMES T. ANTHONY

(In Centreville Record)

In answer to numerous inquiries as to what crop alfalfa follows best, will say:

The white potato, furnishing thorough cultivation during part of the season when weeds make their greatest efforts to get possession of the land, so far as cleansing the ground is concerned, is the best. It insures a well-cleansed and firmed condition, assuming, of course, that the potato crop has had proper treatment, such as liberal manuring and persistent cultivation to the end of potato growing or time of ripening.

The potatoes coming out in July gives a beautiful opportunity to get land in the best of tilth, to add any necessary elements of plant food inoculation or lime. The potato profits by the absence of lime, while the alfalfa revels in its presence. There being no obstacles in the way of seed sowing, the planting can be done in good time, (about middle of August) for the young plants to become well rooted and to make enough top growth to be of some service in holding snow and thus protecting roots from the severe winter weather

If this cannot be done, one of the following schemes might be tried:

Supposing the plat selected be now in corn, crimson clover should be sown among the corn ahead of last cultivation, the early part of July, adding about five pounds of alfalfa to every bushel of clover. The latter merely to determine the matter of inoculaton. The following spring just before clover comes into bloom, turn it under and prepare ground for cow peas, which should be sown the latter part of May, or early part of June. This crop can be saved for hay if a heavy growth is present and the stubble at once prepared for alfalfa sowing the middle of August. But if the growth be not heavy, let it be treated as was the crimson clover, plowed under deep, rolled down firm and prepared for alfalfa.

The above method would obviate the necessity of heavy application of manures, since the clover and peas have furnished this already.

A third and very easy plan is to sow the alfalfa seed in the corn at last working as we do crimson clover, choosing only the right kind of land and not laying corn by too early.

There are other ways to do the job, but the first and second appeal to the writer.

If soil and other conditions are right, it is no harder to grow alfalfa than clover.

Now when we consider that for general use Alfalfa furnishes the best hay in the world and when once established it can be depended on to do business at the same stand for from one to one hundred years, isn't it worth while to try it?

KENNEDYVILLE NOTES.

The oil spreader has returned to Kennedyville, and for the past few days has continued the distribution of oil over the state road between Goose Hill and Locust Grove.

Quite a good deal of plowing is yet to be done in this neighborhood for wheat, but the ground is too dry to work.

The many kind friends of Mrs. Elias T. Othoson are happy to know that she is doing nicely under the skillful treatment at the Maryland University, Baltimore, with Mrs. Grace Eareckson as nurse.

The infant daughter of Mr. and Mrs. Elwood Baker, of Chestertown, Catharine Hessner, was baptized Sunday week in the home of Mrs. Hessner, mother of Mrs. Baker, in Kennedyville, by Rev. F. H. Mullineaux, assisted by Rev. Mr. Paynter, of the Presbyterian Church. Little Catharine has been very delicate for several weeks, but seems now to be in improved health.

Master Ronwell Dukes, of our village, who has spent a great part of his vacation in a position ot Chester, Pa., left on Sunday for Denton, where he will continue his course in the Denton school.

Last week and this are the rush weeks of the tomato crop, and the stock has been crowding the canneries to their utmost capacity for the past few days, and will continue to do so for about a week to come. Good pealers are in demand.

Services in the M. P. Church, Kennedyville, for Sunday, the 15th instant, as follows: Sunday-school at 9.30 a. m., and Supt. Medders and the pastor urge a full attendance, with a warm, hearty welcome; sermon at 10.30 by the pastor, topic, 'The Withered Hand Healed, or Sleeping Giants and How to Awaken Them." Service of song and brief sermon in the evening, beginning at 7.30 o'clock; topic, "Lessons from the Life of Moses, or How to Help the Leader." Come and add blessings to the service.

Mr. Paul Boggs, railroad agent at Ellendale, Del., spent Sunday last with his parents in Kennedyville.

Mr. Hartley C. Weer, of Sparrow's Point, spent Sunday with his parents, Mr. and Mrs. James E. Weer.

A Distinction With a Difference

YOU may not always get what you pay for. It takes a good judge of values to do that, but if there is one sure rule in business it is—you pay for all you get. You may not be able to see the difference between engines of similar appearance at different prices, but if you buy from a reputable firm you may be sure the difference in quality is there.

I H C Oil and Gasoline Engines

cost more than some others because they are more carefully made, and more thoroughly tested. Skillful designing, better material, better workmanship, more careful assembling, and more thorough testing, tell in the long run. Given equal care an I H C engine costs less per year of service than any other engine you can buy. If an I H C engine is given all the work it will do, pumping, sawing wood, running the grindstone, feed grinder, hay press, silage cutter, repair shop machines, cream separator, churn, washing machine, etc., etc., it will pay for itself in a very short time in money and labor saved.

I H C engines are made in every style—horizontal, vertical, air and water-cooled, stationary, portable and mounted on skids, to operate on gas, gasoline, kerosene, naphtha, distillate or alcohol, in sizes from 1 to 50 H. P. Kerosene-gasoline tractors, 12, 15, 20, 25 and 45-H P.

The I H C local dealer will give you catalogues and full information, or write

The International Auto Wagon

Or Commercial Car

In use throughout the United States by Farmers, Merchants, Millers, Contractors, Manufacturers, Liverymen and others.

A feature of the International Commercial Car that will appeal to a great many people is the fact that this car can be converted into a vehicle for carrying people. A rear seat and a double top can be added, making a very comfortable vehicle. The space behind the back of the front seat is sufficient so that two seats can be added, making a three-seated rig for liverymen who have traffic of this kind.

The International in the strictest sense of the word is a commercial car—one that can be used every day of the year, through snow and mud, cold weather and hot. The great success this car has attained in the past and the present is the greatest commendation of its usefulness.

The snow storm which tied up traffic in Chicago in February, 1911, did not interfere with the International Commercial Car service. This car was one of the few commercial cars in service in Chicago that was not delayed by the snow. The drivers were not afraid to turn out of street car tracks and into the side streets and places where the snow was deep, for fear they would stall. The car is as efficient in negotiating mud as it is in plowing through snow.

Capacity 1500 to 2000 pounds depending upon conditions of the haul. Speed 15 miles per hour. 20 H. P. Two-Cylinder Engine. Factory output 20 cars per day, which does not meet the present demand. Easily operated and as nearly fool-proof as possible. Solid tires—eliminating tire trouble.

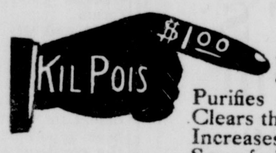

This car will be driven throughout every part of Kent county and will stop at Still Pond, Kennedyville, Locust Grove, Galena, Georgetown, Massey, Millington, Crumpton, Chesterville, Chestertown, Rock Hall, Fairlee, Melitota, Worton, Lynch and Betterton, affording everybody an opportunity to see the car in operation.

Try a Want Adv. in the "News"

Antoine Deloria, Postmaster at Garden, Mich., knows the exact facts when he speaks of the curative value of Foley Kidney Pills. He says: "From my own experience I recommend Foley Kidney Pills, as a great remedy for kidney trouble. My father was cured of kidney disease and a good many of my neighbors were cured by Foley Kidney Pills." Sold by M. A. Toulson.

T. L. Parks, Murrayville, Ga., Route 1, is in 73rd year, and was recently cured of a bad kidney and bladder trouble. He says himself: "I have suffered with my kidneys. My back ached and I was annoyed with bladder irregularities. I can truthfully say, one 50c bottle of Foley Kidney Pills cured me entirely." They contain no habit forming drugs. Sold by M. A. Toulson.
