NEW RULE OF COURT.

Judges Pearce, Adkins, and Hopper have passed an important rule of court that will commend itself heartily to the taxpayers of Kent County. The rule is to lessen or end the delays and expenses incident to assignment of cases for trial for set dates and their non-trial or postponement after such assignment, compelling the attendance of jurors when their services are not needed, thus adding to the costs of the court's sessions. Judge Adkins, speaking for the court, said that hereafter jurors would not be kept in attendance from day to day, and that cases assigned for trial on fixed dates would be disposed of in some other way than postponement to other dates. Chief Judge Pearce read the following new rule of court, covering the assignment of cases:

"Hereafter motions for special assignments may be made at the conclusion of the first call of the trial docket, but no day for the trial of a case removed into this court from any other court shall be named until a reasonable estimated time has been allowed for the disposal of all local cases marked for trial and no preference shall be given in the trial of local cases to any such case because the parties or witnesses are non-residents, except by unanimous consent of the members of the bar appearing in local cases marked for trial and present in court at the time fixed for making special assignments. All assigned cases shall await the disposition of local cases on the peremptory call of the trial docket, except by the consent, during or at the close of the second call of the docket, of all members of the bar having local cases marked for trial and present in court at second call of the trial docket."
