Grand Mass Meeting!

AND DEMOCRATIC RALLY

FIREMEN'S HALL

IN CHESTERTOWN, MD.

Tuesday, October 22nd, 1912,

Afternoon and Evening.

HON. ISAAC LOBE STRAUS

HON. HENRY D. CLAYTON, Congressman from Alabama.

HON. J. HARRY COVINGTON, Candidate for Congress,

and other distinguished speakers will be present at each meeting and discuss the issues of the campaign.

GEORGE E. NOLAND,
JAMES E. MORRIS,
CHARLES L. DODD,
State Central Committee for Kent Co.

THE town of Centreville has taken over the control of the Electric Light Plant, the company making the transfer this week. The price was $9,250.

THE people of Kent join with the nation in sympathy for Col. Roosevelt whose attempted assassination is noted in another column. It is hoped that he may speedily recover.

It is certainly a deplorable condition when public men are not safe from such attacks. We think, however, that our public men expose themselves to much to such risks.

LAST MONTH OF CAMPAIGN

The campaign enters upon its last month with all the leading candidates apparently in a very happy frame of mind. President Taft upon whom we have become accustomed to look with some commiseration because of his prospective poor showing, says that he has "every reason to be satisfied with political conditions." Governor Wilson finds everything so promising in the West that he will probaby not extend his campaign tour beyond Denver, but will return to the East for more work. As for Teddy—why, of course, everything is bully with him. In the meantime the crops grow bigger daily, the railroads are overwhelmed with business, and all business seems to prosper abundantly. Happy October! But what an awakening there will be for two stout gentlemen in November!—Philadelphia Record.

A DOZEN REASONS WHY.

A dozen reasons why I should vote for next President Wilson, because:

1. He is the only candidate for President who represents the real, the vital and the effective progressive forces in this country.
2. He stands for tariff revision downward in the interest of lower prices and the elimination of monopoly.
3. He stands for trust legislation which will prevent the control of prices through any sort of Monopoly.
4. He stands for the income tax and believes wealth should share the burdens as well as the blessings of government.
5. He stands for the rights of labor and the protection of the man who earns his bread by the sweat of his brow, as shown by his record as Governor of New Jersey.
6. He stands for the revival of our merchant marine, and for Government encouragement of agriculture, industrial and vocational education.
7. He trusts the people and believes the governed should govern; and that Senators should be chosen by the people.
8. He faithfully performs in office the promises made out of office.
9. He will "CLEAN HOUSE" at Washington as he "CLEANED HOUSE" in New Jersey.
10. He preaches and practices clean politics, and practices it effectively. He unalterably opposes machine politics and the rule of the bosses.
11. He stands for legitimate big business every day, but for monoply never.
12. As Senator LaFollette says, "He approaches every problem with the solemn promise to be really, in the highest sense, a servant of SHO... MAN ... people."

CHESTE...

GOV. WILSON did a most commendable act when he decided to withdraw from the hustings until Col. Roosevelt is able to return to the conflict.

THE Republican National Committee claims that each citizen pays $3.46 a year for *Protection!*

It isn't what comes into the country that counts most. Its what doesn't come in.

The protective tariff is a high wall that bars out cheap commodities of all sorts.

You pay $20 or $25 for a suit of clothes that you would get for three-quarters that amount or less if no tariff was placed on woolen goods. By that one transaction you lose more than the $3.46 in question, and it is only an insignificant portion of the whole

Cut down the tariff duties and these goods will flow into the country. The total tariff luties will be as great as they are now, or greater, perhaps, for more goods will be coming in, but the cost to the consumer will go down.

The tariff receipts per capita have as much to do with the cost to the consumer as the pebbles in Kent have to do with the war in the Balkans.
