IN MARYLAND.

Col. W. J. Vannort says the following poem expresses his view of good old Maryland:

The moonlight falls the softest
In Maryland;
The summer days come oftenest
In Maryland;
Friendship is the strongest
Love's light glows the longest,
Yet, wrong is always wrongest
In Maryland.

Life's burdens bear the lightest
In Maryland;
The home fires burn the brightest
In Maryland;
While players are the keenest,
Cards come out the meanest,
The pocket empties cleanest
In Maryland.

The sun shines ever brightest
In Maryland;
The breezes whisper lightest
In Maryland;
Plain girls are the fewest,
Their little hearts are truest,
Maiden's eyes the bluest,
In Maryland.

Orators are the grandest
In Maryland;
Officials are the blandest
In Maryland;
Boys are all the liest,
Danger ever highest,
Taxes are the highest
In Maryland.

The song birds are the sweetest
In Maryland;
The thoroughbreds are fleetest
In Maryland;
Mountains tower proudest,
Thunder peals the loudest,
The landscape is the grandest—
And politics—the ———
In Maryland.

ODD FELLOWS AT GALENA.

Kent Lodge no. 74, Independent Order of Odd Fellows which meets at Galena are arranging for a big time on Tuesday November 26th when they will confer the first, second and third Degrees of the Order upon a class of 25 candidates. The work will be done by the Degree Staff of Monumental Lodge 14 of Baltimore under the direction of Captain A. J. Abrams, Jr., besides the Degree Staff the following Grand Officers will be present. Grand Master Fred A Groom, Grand Secretary Wm. A. Sones, Grand Treasurer J. F Plummer, Grand Guardian A. J. Abram, Jr. Maj. George Horisberge, Assistant Adjutant General of the Patriache Militants of Maryland, Special District Deputy Grand Master S. Carl Cooling and District Deputy Grand Master, Edgar B. Pohlman. The Baltimoreans will make the trip from Baltimore by the Tolchester Steamboat Co., landing at Fredericktown. Kent Lodge was instituted Feb. 5th, 1851, but they have not been very active in recent years until recently when in September they took in a class of 8 candidates at which time they were visited by the Grand Officers. This is the second class since that time and the members are elated over the prospects of making a large increase during the next few months. They expect a large attendance next Tuesday evening and a number of visitors from other lodges will be in attendance. The Odd Fellows is one of the largest fraternal organizations in the world, having been started in Baltimore April 26th, 1819, with 5 members, now having 2,100,000. The Order has been started in 28 different counties, the record for the past year in Maryland has been most satisfactory, now numbering over 12,000 members. The following is the statistical record of the Order to December 31, 1912, as found in the reports of the last meeting of the Sovereign Grand Lodge held at Winnipeg, Canada, September 16 to 23rd.:

Subordinate Lodges	17 985
Subordinate Encampments	3,697
Rebekah Lodges	9,643
Lodge Members	1,624 608
Encampments Members	227 306
Rebekah Lodge Members	687,039
Total number of persons belonging to the Order	2,080,894

More and Better Industries

"More farmers, better farmers, more industries and better industries are represented in the goal for which the Pennsylvania Railroad system is striving," according to a statement issued by that company to-day.

To attract more farmers to the thirteen States through which it runs, the Pennsylvania Railroad says, is why more than a year ago the Traffic Department appointed a committee of men high in its councils to prepare an exhibit for the American Land and Irrigation Exposition which would show, to some extent, the wonderful resources of Pennsylvania, New Jersey, Delaware, Maryland, New York and other Pennsylvania Railroad States.

The railroad's exhibit consists of specimens of various crops, including practically all vegetables and fruits. The design of the exhibit is unique and was intended to convey the idea of bountifulness, indicative of the richness in opportunities of the country from which the Pennsylvania Railroad derives its traffic. The "bountifulness" is typified by a mammoth pumpkin, some ten or twelve feet in diameter.

In the railroad's booklet, copies of which have been sent throughout the country, it says: "What does it all mean to the Railroad? It means there will be more fertilizers to haul, more farm implements, more raw material from which these tools are made, more crops to haul, and more passengers to carry; it means that the Railroad will be doing its duty to the public and to its stockholders in the intelligent exercise of its initiative, and, when reduced to a finality, that the Railroad is performing its share of the work which must be done by the newly-formed partnership—Railroad and Farmer—if agricultural communities are to progress and prosper.

THE NEW VEGETABLE.

A news dispatch from Oregon reports a large crop of the new vegetable, the "beetatoe", a combination of the beet and potato. This latest addition to human foods is said to be very prolific and of delicious flavor.

It is not long since Burbank found a way to make the cactusedible. The cactus is a desert plant. It need not surprise us if in some such way man should discover the kind of food of which he was deprived when Adam and Eve were expelled from the garden. The record is (Gen. 3:22) that if man could have had access to those foods he would have been able to "put forth his hand and eat and live forever". If disfavor with God it has been a blessing that man could not do this, for he was created to live in harmony with his Creator and could not be truly happy under any other condition.

These wonderful food discoveries together with modern irrigation works, remind us of the prophesy of Joel 2:21,22, "Fear not, O land, be glad and rejoice, for the Lord will do great things. Be not afraid, ye beasts of the field, for the pastures of the wilderness do spring, for the tree beareth her fruit, the fig-tree and the vine do yield their strength".

They also remind us of the great Messianic prophesy of Isa. 35, "The desert shall rejoice and blossom as the rose. The glory of (the forests of) Lebanon shall be given unto it, the excellency of (the fruitful hillsides of) Carmel and (of the vale of) Sharon. Say to them that are of a fearful heart (those losing faith in God and thus losing all hope in life) be strong, fear not. Behold your God will come . . . and save you (out of your troubles, even including poverty and death.) Then the eyes of the blind shall be opened and the ears of the deaf shall be unstopped. Then shall the lame man leap as an hart and the tongue of the dumb sing."

Why the Butcher Had the Cleanest Market Stall.

Mrs. Smith—"Really, Mr. Slaughter, I think you have the most inviting and appetizing stall in the market—always so clean and white. You must use a brand new set of cloths and aprons every morning."

Mr. Slaughter—"Oh, no ma'am—at least not any more. Anty Drudge showed my wife how she could wash all the blood stains out with cool or lukewarm water and Fels-Naptha soap."

Anty Drudge—"Yes, Mr. Slaughter, and if you ask your wife, she will tell you that washing clothes with Fels-Naptha in the Fels-Naptha way is easier and better than any other way."

If you do your wash the Fels-Naptha way, you won't have to set the alarm two hours ahead for Monday morning.

Get up the same as other mornings and put the Fels-Naptha to work.

You'll get the wash out of the way in just about half the time.

That's not the best part of it either. With Fels-Naptha, there's no boiling and no hard rubbing.

You won't have to spend hours over a hot stove poking and stirring a boiler full of clothes with a broomstick.

That's all been done away with—completely wiped out as though it never existed.

Think what a fine thing it is to have nice, clean, snow-white clothes, without ugly streaks and yellow spots.

Almost too good to be true.

But Fels-Naptha is doing it in myriads of homes every week.

And it does it with cool or lukewarm water.

Follow the easy directions on the red and green wrapper. Use any time of year.
