Modern HOTEL at GREENSBORO FOR RENT.

The new Riverside Hotel at Greensboro, Maryland, very pleasantly situated on the Choptank river, close to the business centre of this growing town, may be leased for the present year or a term of years on reasonable terms. It is the most modern-equipped hotel on the Peninsula. It is heated by hot water, the temperature of the rooms thus being easily made to accord to comfort requirements, either in coldest or mildest days of winter; lighted by electricignition acetylene; running water, hot and cold, telephone in all rooms; private baths, etc. The office, salesroom, and dining room are modern and up-to-date. The house is furnished throughout with modern furniture. The business will very easily respond to energetic and capable management, and a large patronage will be developed. The fine situation will enable the hotel management to secure every summer, in addition to a large regular patronage, a profitable number of summer guests, who will appreciate the boating and fishing and pleasant surroundings. Apply at once to C. B. JARMAN Greensboro, Md. j25 4t

SASSAFRAS NOTES

Mr. Shep Morris has gone to Florida. He says it is very warm and pleasant there, and the people are gardening and trucking, and the flowers are blooming. Now we almost envy him his position during this cold freezing weather!

Mr. James Merritt, of Golts, is quite ill. A number of his relatives visited him this week.

The Ladies' Mite Society, of Sassafras M. E. Church, met at the home of Mr. Fred Robertson's last week. There was a large attendance and the evening was spent very pleasantly. After the business meeting refreshments were served, music rendered, and all had a general good time.

DR. KELLY "RADIUM KING"

Receives $23,000 Worth of Mineral From Austria—Big as Half a Split Pea.

Guarding jealously a hand satchel tucked away in the remotest corner of which was $23,000 worth of radium, Dr. Curtis F. Burnam, associate in gynecology at Johns Hopkins Medical School assistant to Dr. Howard A. Kelley, swung off a train in Baltimore late Sunday night.

No wonder if Dr. Burnam wore a furtive look and kept his eyes on the satchel, for it was his duty to deliver over his precious burden to Dr. Kelly, for whom he had brought the radium from Vienna. To tell the truth, the mineral could hardly be called a burden in view of the fact that it is about the size of a half a split pea. It could easily have been placed on the end of the blade of a pocket knife. If a foot-pad had attacked Dr. Burnam, he probably never would have realized what a haul he had made and would undoubtedly have left the mineral.

Still Dr. Burnam was omitting no precautions. From the time he left Hamburg on the steamship Amerika, until the vessel landed in New York, the radium was stored away in the safe of the ship. Then the physician transferred the mineral to his satchel and kept that satchel by his side.

The bringing of the radium to Dr. Kelley means that the physician now possesses the largest amount of the mineral of any individual in the world. He had already about $27,000 worth of the precious stuff. His possessions in this respect mount up to the half-century mark in thousands. The London Radium Institute has about $75,000 worth of radium. This is supposed to be the greatest amount owned outside of Austria, which may be called the birthplace of the mineral.

While Dr. Kelley's wealth in this respect will be apparently infinitesimal as far as bulk is concerned, it will last him a life-time and will doubtless be doing duty for his followers in the medical profession thousand of years distant. The real merit of radium consists in the utilization of its rays. The use of these rays occasions no diminution of the mineral itself. Up until a short time ago the mineral was used almost exclusively in the treatment of cancer and kindred diseases. In fact, it was confined almost solely in its use to surgical cases.

Recently the emanations from the mineral were availed or in the treatment of chronic rheumatism, neuralgia, facial paralysis and many diseases of the joint. So successful was it that the authorities of Johns Hopkins Hospital announced a few days ago that the new method would be followed here by the establishment of an emanatorium at the hospital. In this department the patient will breathe the emanations of the radium. This is known as the inhalation method.

Dr. Burnam, who is Dr. Kelley's assistant has been deeply interested in the study of the uses of radium for a long time. He went to Austria about six weeks ago to buy the mineral. The sale of the radium is controlled by the Austrian Government, and the physician first had to go through a lot of red tape before he could procure it. Two weeks ago he telegraphed from Vienna to Dr. Kelley for $23,000. Dr. Kelley cabled back the money.

Washington College Is Keen For State Games

Irwin O. Ridgely, manager of the Washington College baseball team says: The Washington College baseball schedule for the season of 1913 has been completed with the exception of two trips, one for the week of April 5 and the other for the week of April 12.

Practically all of the arrangements for these trips have been made, but as these games have not been ratified they cannot be announced as part of the adopted schedule. The list of games closed to date follows:

March 29—Johns Hopkins, at Baltimore.
April 5—Richmond College (pending) at Richmond.
April 12—Open.
April 17—Richmond College, at Chestertown.
April 19—Baltimore Polytechnic Institute, at Chestertown.
April 24—Lebanon Valley College, at Chestertown.
April 26—Mount St Joseph's, at Irvington.
May 3—Western Md. College, at Chestertown.
May 10—St. John's College, at Annapolis
May 10—Baltimore City College, at Chestertown.
May 23—Rock Hill College, at Hillcott City.
May 24—Mount St. Mary's College at Emmitsburg.
May 31—St. John's College at Chestertown.
June 4—Mount St. Mary's College at Chestertown
June 7—Rock Hill College at Chestertown.
June 14—Mount St. Joseph's College at Chestertown.
June 16—All-Stars, at Chestertown.
June 18—Alumni, at Chestertown.

Heretofore it has been the policy at our institution to schedule several games each year with the large out-of-state college. This policy has its advantages but all things considered it is better to schedule as many State games as possible, as they are appreciated both by the student body and the general public. In view of this fact, every effort was exerted toward scheduling games with Maryland schools.

The schedule shows the success of this effort. A total of 12 games is to be played with State teams, one or more contests being booked with eight Maryland institutions.

All of the State colleges are found on our list except Maryland Agricultural College. For some time one game each season has been played with the Aggies and we are sorry we have not a game scheduled with them for this year. It was impossible to make satisfactory arrangements with the Farmers' manager, so negotiations had to be called off.

Although we have not as many games with the larger colleges this season as were on our schedule last year, we feel that the schedule as arranged for 1913 is stronger than that of 1912, for this year almost every game is a State game, the outcome of which has a bearing on the State championship.

A Good Kidney Remedy Is Like a Good Friend

I wish to tell of the wonderful results I have received from your noted Swamp-Root. I am fifty-eight years of age, well and healthy to-day, but there has been a time in my life that I was all run down and worn out. My kidneys were in a very bad condition and I suffered from lame back. I have tried other remedies but never got the results that I have received from Swamp-Root and I honestly believe that I owe my life to Dr. Kilmer's Swamp-Root. I tell others that I could not live without Swamp-Root in the house, for when I feel tired and worn out and my back not feeling right, I take Swamp-Root and I am feeling fine in a few days. I heartily recommend Swamp-Root the world over.

Very truly yours,
MRS. W. A. GRIFFIN,
308 No. Spring St., Tyler, Texas.
Sworn to and subscribed before me, this the 20th day of April, 1912.
J. W. BEAIRD,
