IN MEMORIAM.

Inasmuch as one of our highly esteemed members has been removed from our midst since our last meeting, we, the members of the Quarterly Conference of Kent charge, assembled for the quarterly conference of 1912-13, desire to record the following resolutions:

1. In the removal of Brother Alday Clements we have lost a most faithful and efficient member and one whose place in our ranks will be hard to fill. While we would not question the wisdom of God in taking our co-laborer from us, we do desire that the memory of his faithful service may inspire us to emulate his example. His death is not alone the loss of a valuable official, but the church with which he for many years was connected has lost a loyal member. He was interested in all the activities of his church and honored her by living a consistent Christian life.

2. We extend to his sorrowing family our heartfelt sympathy in this hour of trial, and may the Good Shepherd, who has called one of the flock unto Himself, comfort and shield those who are left behind and bring them all safely within the heavenly fold.

3. That these resolutions be spread upon our minutes and that a copy be sent to the family and to the county papers for publication.

Facts in Nature

FOR centuries it has been known that Nature's most valuable health giving agents for the cure of disease are found in our American forests. Over forty years ago Dr. R. V. Pierce, chief consulting physician to the Invalids' Hotel and Surgical Institute at Buffalo, N.Y., used the powdered extracts as well as the liquid extracts of native medicinal plants, such as Bloodroot and Queen's root, Golden Seal and Stone root, Cherry bark and Mandrake, for the cure of blood diseases. This prescription as put up in liquid form was called

DR. PIERCE'S

Golden Medical Discovery

and has enjoyed a large sale for all these years in every drug store in the land. You can now obtain the powdered extract in sugar-coated tablet form of your medicine dealer, or send 50c in one-cent postage stamps for trial box to Dr. Pierce's Invalids' Hotel, Buffalo, N.Y., and tablets will be mailed, postage prepaid.

The "Golden Medical Discovery" makes rich, red blood, invigorates the stomach, liver and bowels and through them the whole system. Skin affections, blotches, boils, pimples and eruptions—result of bad blood—are eradicated by this alterative extract—as thousands have testified.

Send 31 one-cent stamps to pay cost of mailing only on a free copy of Dr. Pierce's Common Sense Medical Adviser, 1008 pages, clothbound

What Three Bushels More to the Acre Means

EIGHT years ago the farmers in a central state averaged crops that ran three bushels less to the acre than they now get. Suppose each acre of farm land in the country were so tended that it produced an increase equal to that of this state. How much more money would you have with which to buy the luxuries of life that you earn and deserve? Your share in this prosperity depends entirely upon yourself. The first step is to fertilize your land properly with manure spread by an

I H C Manure Spreader

The spreader that does its work as it should must have many excellent mechanical features. The apron should move without jerking; the beater should meet the load at exactly the right point to pulverize the manure without too greatly increasing the draft of the machine; the speed changes of the apron should be positive. All these features are provided for in the construction of I H C spreaders.

I H C spreaders are made in low styles which are not too low for use in deep mud or snow, narrow and wide, with both reverse and endless aprons, for use under all conditions. The rear axle is located well under the box, instead of at the rear. Placed in that position (under the box) it carries over 70 per cent of the load and insures ample tractive power.

See the I H C local dealers for catalogues and full information, or, write
