American Fence

Is the heaviest fence made today. It is 60 to 80 lbs. heavier to the hundred rods than other fences, because we use heavier wires which hold more galvanizing which makes longer life.

The upright stays on some field fences are 14 in. apart while on American they are only 12 in.

The hinge joint makes it easy to take down and move American from one place to another.

The tension curve allows for all expansion and contraction.

All our stock of fencing is kept in our large warehouse where it is protected from the weather, and when we send out a roll of fence it is just as clean and bright as when it first came from the machine that made it. Isn't it better to buy fence under these conditions than it is to buy fence that has been piled out in the weather for 3 months to 2 or 3 years?

We have all sizes from 20 in. high to 5 ft.

American Poultry Fence is the acme of perfection in poultry tight fences.

Let us figure on your needs.

Yours to serve,

Davis & Satterfield

FLOOD AND FIRE!

A National Disaster in Dayton, Ohio, and Other Large and Small Places in the West—Relief Trains Arriving by the Score.

3,000 LIVES LOST—MILLIONS OF DOLLARS IN PROPERTY.

The full information as regards the great flood and fire in the West will not be known for ten days. More than 3,000 lives have been lost by the deluge which swept the northern half of the Ohio river valley this week. Probably half a million persons were made homeless by the flood in Indiana and Ohio and property damage in both States will be at least $100,000,000.

An additional horror was reported Thursday evening from Dayton. Fire there seemed widespread and probably uncontrollable, in view of the paralysis of the water plant, brought a horrible death to many who sought to escape drowning by climbing to upper floors of buildings.

It is still impossible to give reliable estimates about the number of lives lost and the destruction caused in Indiana and Ohio by the flood, the efforts of the people in the stricken towns being devoted to rescuing survivors rather than to recovering and identifying the dead.

Following are revised figures of the dead:

OHIO.

Dayton	300
Piqua	450
Delaware	100
Middletown	100
Sidney	50
Hamilton	12
Tippecanoe	3
Tiffin	50
Fremont	11
Scattering	205
Total	1,066

INDIANA.

Peru	150
Newcastle	3
Lafayette	2
Indianapolis	14
Noblesville	2
Scattering	25
Total	196

The destruction in Dayton is being increased by fires in the flooded district, which cannot be reached and continue until they burn themselves out.

Thousands of people have been rescued in Dayton and conveyed to places of safety, and similar work is going on in all the stricken towns.

Local Interest.

This is a big country but not so large but what we all have an interest in any city or town which is afflicted. In Omaha where the cyclone destroyed 553 houses and killed scores of persons there lives Dr. D. A. Medders, brother of Mr. Wm. Medders, of Still Pond. He has been practicing medicine there for six years and lived on 40th street right in the path of the tornado. A telegram from him Wednesday says, "All safe, were two blocks from main tornado."

In the flood area a number of Kent countians were located and no news has been received from them at this writing. Mrs. Flesh, nee Miss Katie Shuster, lived at Piqua where 500 lives were lost.

Mr. Gaylord Hurlock was traveling in Ohio with the "Spring Maid" Opera Co. and was due in the flood district this week.

Mr. John Hudson, of Chestertown, a brother to Miss Minnie Hudson, was in the West and when last heard from was at South Bend, Indiana, suffering from pneumonia. Other Kent countians have friends for whose safety there is much concern.

Mrs. Victor, sister of Mr. I. R. Leaverton, is also in the flood district, but it is believed she was above the high waters, her home being on quite an elevation.

LOST.

A CARRIAGE CUSHION on Swamp road between Betterton and Still Pond Neck. Return to Betterton Livery. m29-tf

PIE BAKE.
