ROCK HALL NOTES.

Swat the flies because of disease germs which they contain and distribute? Bah, says Capt. C. R. Kerr who arrived home on Saturday from the fishing grounds near the Chesapeake Capes where he has been employed for some time and enjoying the best of health. Notwithstanding his diet was bread and meat for breakfast, meat and bread for dinner and back to bread and meat for supper and constantly surrounded with the odor of decaying fish and millions of flies. As soon as he reached Baltimore where an extra bill of fare with no flies could be enjoyed his health became impaired. Capt. Kerr reports a strenuous season with no let-up, day or night. As many as 48 steamers all at work at the same time was no unusual sight but the business financially was a failure. The company Capt. Kerr was with was compelled to lay off 5 steamers beeause of the unprofitableness of the work.

Charley Smith says Charley Porter had better cease his blowing about his prolific crops for he is going to show him some big productions from a small plat of land, in size 16x150 feet from which he sold 800 fine heads of cabbage, besides generously supplying his family from the same. He has planted the land in potatoes and expects to raise 50 bushels. He wants Porter to come up or shut up.

All roads in the 5th District led to Tolchester on the 4th, and the beach was the mecca for hundreds of the Fifth's residents.

More than 100 of the city folks spent the 4th here. Among them were Messrs. J. W. and Leroy Boyer.

The Organization and Urie combine we see so much about doesn't scare down here worth a cent.

The Bank That Pays

FOUR PER CENT

On Time Deposits

One-Third More Income

FOR DEPOSITORS

WHEN The People's Bank first announced its purpose to pay

Four Per Cent Interest

on its Certificates of Deposit accounts, a great protest was heard from those banks and bankers who were paying three per cent. on time deposits.

"It can't be done" was the cry from those who had waxed fat and wealthy from the net earnings of depositors savings.

Because of this biased, unfair and unreasonable critizism, many of the skeptical and more timid continued to accept three per cent. on their idle rather than place their money with a new institution that offered a better rate of interest.

Many others, however, were not deterred by the false cry of "wolf" and deposited their savings funds in The Peoples Bank under its Certificate of Deposit system. These have regularly received their interest earnings at the rate of Four per cent. and are the gainers thereby, as FOUR PER CENT. is just one third more than three per cent.

The Peoples Bank has been in operation now nearly three years and not only has it been able to pay Four per cent. on its certificates of Deposit, but in the mean time a surplus fund, amounting to twenty per cent of its capital stock has been accumulated.

The moral: Place your money where it will earn you the most and where it is absolutely safe.
