WOMAN TOOK FRIEND'S ADVICE

And Found Health in Lydia E. Pinkham's Vegetable Compound.

Windom, Kansas.—"I had a displacement which caused bladder trouble and I was so miserable I didn't know what to do. I suffered from bearing down pains, my eyes hurt me, I was nervous, dizzy and irregular and had female weakness. I spent money on doctors but got worse all the time.

"A friend told me about the Pinkham remedies and I took Lydia E. Pinkham's Vegetable Compound and was cured. I cannot praise your remedies enough for I know I never would have been well if I had not taken it."—Miss Mary A. Horner, Route No. 2, Box 41, Windom, Kansas.

Consider Well This Advice.

No woman suffering from any form of female troubles should lose hope until she has given Lydia E. Pinkham's Vegetable Compound a fair trial.

This famous remedy, the medicinal ingredients of which are derived from native roots and herbs, has for nearly forty years proved to be a most valuable tonic and invigorator of the female organism. Women everywhere bear willing testimony to the wonderful virtue of Lydia E. Pinkham's Vegetable Compound.

If you want special advice write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

NOTICE TO THE PUBLIC.

The law is positive that persons must not leave trash in the ditches along the public roads. One-half of the washes on the roads are caused by farmer's leaving weeds in ditches and thereby preventing water to flow in natural channels. The law says:

167 L. "Any person, or corporation placing any obstructions of any kind whatsoever upon the public highways or bridges, roads, lanes, streets, avenues, or alleys, of Kent County, or interfering with or obstructing any of the ditches or drains thereof, or encroaching upon the same with fences or other obstructions or any person or corporation, its agents or employees, exercising the business of a common carrier, permitting his or its vehicles, steam or other engines or cars to obstruct any crossing for more than five minutes for any one time, shall be guilty of a misdemeanor, and shall be liable to prosecution at the instance of any taxpayer of said County and upon conviction by any Justice of the Peace exercising criminal jurisdiction in Kent County shall be fined in an amount no less than One Dollar nor more than Twenty five Dollars for each offense."

MRS. C. R. ROGERS ELOPES

Frederick Divorcee Surprises Family By Marrying L. S. Costello, Of Kent.

Mrs. Caroline Ross Rogers, daughter of the late Charles W. Ross, and Lawrence S. Costello, of New York, eloped Saturday and were married in Washington.

They left the home of the bride in Frederick on Court square in an automobile ostensibly for a drive to Emmitsburg. Several hours later a member of the family found a note signed by the bride in her room stating that she had gone with Mr. Costello to be married. The news was a surprise to the family and friends of Mrs. Rogers.

While it was known that Mr. Costello had been a visitor at the Ross home for more than a year, no intimation had been made of an engagement.

Mrs. Rogers is one of Frederick's most attractive young women and a member of one of the most prominent families in the State. She divorced her husband, George Rust Rogers, of Plainfield, N.J., one month ago.

They were married in that city in 1901 by the Rev. Arthur B. Kinsolving, of Baltimore, assisted by Rev. Osborn Ingle, late rector of All Saints' Episcopal Church. About six years ago she returned to the home of her mother in Frederick and lost April instituted vivorce proceedings upon statutory grounds

Mr. Costello, who is about 32 years old, is a journalist connected with the magazine department of the New York American. He was formerly associated with the Lippincott Magazine. He and his wife bought Worton Manor Beach and removed to Kent a few years ago. Mrs. Costello now lives there and has greatly improved the place. She recently sold a half of the farm to Mr. Merritt of New York for $16,000.

Mr. Costello's first wife was Miss Nannie Brooks, of near Baltimore, a granddaughter of the late Chauncey Brooks, from whom, it is said, he was recently divorced. He went to Frederick about 10 days ago and was marked in his attention to Mrs. Rogers, who is the mother of two children, Caroline Ross and Charles Rogers.

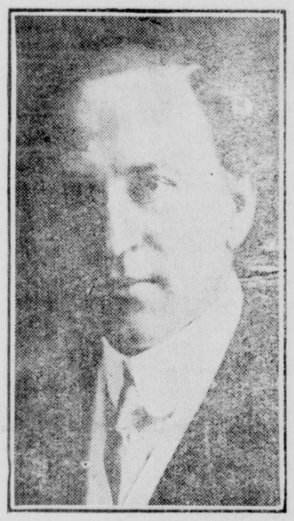

ROCK HALL'S INTERESTS.

Messrs. Editors Kent News:

The Anti Organization leaders and wire pullers from Chestertown were in Rock Hall last Saturday night in full force. Evidently, they have nothing with which they can appeal to the *people* for their votes. And because of this fact, they brought with them a perfect stranger, a Mr. Miller, who was induced by the said Anti-leaders to make a speech on the *State Road* problem and the purchasing of automobiles when the roads shall have been put in condition. Well, if that was'nt a Corker! But such attempts to tweedle our people won't work worth a cent, as we are not buying automobiles. If Mr. Barroll and all the fellows who jump to their feet at the crack of his whip desire to crank automobiles we will not object, but we are not engaged in that business at present. We are repairing and painting our boats, and seeing that the cranks on our motors are in good condition as we expect in the very near future to try the oyster grounds again for a livelihood. And that reminds all our people most forcefully that will soon be called on to choose those who must represent the oysterman's interest in the legislature next winter. And, as long as Senator Beck has been our friend in the past, we hope to have with him such men as Bob Shallcross and Howard Turner, men who will be in sympathy with Senator Beck and our livelihood.

Mr. Beck has proven to us with a great deal of satisfaction that he is not in league with Howard Haman, the tongers enemy, therefore it is plain, very plain to us what we should do in the selection of legislative candidates. No amount of the *roads* fizzle will lead us away from the real live issues.

Edward Russell Perry

Chautauqua Superintendent.

The towns where Edward Russell Perry served last year as Chautauqua Superintendent, were greatly pleased with his work. Naturally he was re-engaged for this year. At our Chautauqua he will remain the entire session presenting a series of six popular lectures on the general theme, "The Great Awakening." He will also act as Superintendent, in which capacity he will announce the program, introduce the speakers, and see that everything goes as it should.

WRONG AGAIN.

Messrs. Editors:

The letter signed "Democrat" in last week's issue of the Transcript illustrates very forcibly the old adage, "Fools rush in where angels fear to tread."

The writer shows his ignorance of English construction, even as he shows his ignorance of the political situation. He is no more able to prove faulty grammar than he is able to prove the justice of his other remarks.

He is just as near right in his linguistic criticism as he is in his estimate of Organization politics—and he is all wrong in both.

We are surprised that the junior editor should have allowed that part of the article relating to grammar to slip in. It is a reflection upon his own proficiency—the proficiency that should characterize a college graduate and a former High School Principal.

But its appearance is in keeping with the Barroll organ's politics; that is, to allow any impression, right or wrong, to prevail just so it has a chance to help the cause along.

We advise "Democrat" to brush up on sentence analysis before he ventures to pose before the public as a critic.

Typhoid Fever

How to Prevent Its Spread

—ISSUED BY THE—

State Board of Health

OF MARYLAND.

When Typhoid Fever appears in a family the source of the infection must be looked for in drinking water or food taken within the preceding twenty days. The patient may not have been infected at home, but if a second case occurs this second infection will in all probability be traceable to the first patient. In a majority of instances the drinking water has become infected. Your first business, therefore is to find out the quality of your drinking water.

You can do this by asking your local health officer for instruction about shipping us samples of your drinking water. *The daily supply of drinking water should be boi'ed.*

The infectious material of typhoid fever is produced in but one way. It grows always in the bowels and sometimes in the bladder. It therefore escapes from the sick person in the stools and urine. If we kill the germs in the stools and urine as soon as they are passed, there can be no spread of typhoid fever. These discharges should, therefore be disinfected as soon as possible. You will need a large quantity of a good disinfecting solution.

Receipt for a Good Disinfectant.

To four gallons of water add enough salt to make a strong brine. Put this in a five-gallon demijohn or jug and add a quart of crude carbolic acid. Shake it up well and you will have a good disinfectant for stools and urine.

The crude carbolic acid, known as U. S. P. 90 per cent. is very good and a quart will cost about 50 cents. There is a cheaper grade, known as a 36 per cent. acid, which is nearly as effective.

About a pint of this solution should be put in the chamber or bed pan before it is used, so that the discharges will begin to be disinfected as soon as they leave the body. There must always be at least as much of the disinfecting solution as there is of the discharges, so that more of the disinfecting solution may need to be added after the discharges are passed. If the stools are thin and watery their disinfection will be accomplished in half an hour or so, but if the stools are thick or formed very much more time will be required. On that account it is best to have a covered jar or bucket into which the bed pan can be emptied, and to empty this jar only once in 24 hours. If the discharges cannot be finally thrown into a sewer, they should be buried in the soil at a convenient spot where is no chance of their fouling a water supply. The discharges should never be thrown upon the surface of the ground, for you will hardly be successful in killing all the typhoid bacilli, and you must not place them where those not killed by the acid may be blown about in the dust or carried away by flies to infect other people.

In spite of every precaution those who wait on the sick person will get their hands infected, and it is therefore necessary to wash the hands every time one does any service about the patient's bed or body. Whoever waits on the patient must not prepare food or drink for other persons in the house, or if it is impossible to mind this rule one must most carefully and thoroughly cleanse the hands before performing any household duty outside the sick room. Good scrubbing with soap, water and a brush, and then rinsing well in fresh water will suffice for cleansing the hands.

If anyone else in the house falls sick within two weeks after the first patient, the probability is that the infection was lodged before the precautions were taken in regard to drinking water and the disposal of discharges. But if the second case occurs more than 20 days after the first case that will signify that we have made a mistake somewhere in our precautions.

Secretary Local Board of Health of Kent county, Galena, Md. a16-tf.

IN MEMORIAM.

COLISON.—In sad but loving remembrance of my dear mother, Martha H Colison, who departed this life one year ago to-day, August 18, 1912. "Gone, but not forgotten."

One year has passed, my heart still sore.
As time flies on I miss her more;
She sleeps; I leave her to rest,
The parting was painful, but God knoweth best
