CORN.

According to chemical analyses, which vary considerable, corn contains in 100 pounds, from 18½ to 12½ pounds of nitrogen, called also gluten, albumen, and casein; it is the muscle-forming property, which supports men and animals under hard labor. Lean meat and cheese are composed mostly of this property.

Corn varies very much. Snapping corn contains a very large portion of oil or fat, and the Tuscarora and Calico corn, and some other varieties are composed almost wholly of starch. Most kinds of corn contain a large amount of oil, and are better for fattening animals than for sustaining them under hard labor. Wheat and oats contain more nitrogen, or muscle-forming properties than corn. When at hard labor a man must eat more Indian bread than wheat bread, to sustain him, or replenish the muscles as they are worn away by exercise.

We have no account of the per centage of nitrogen in cobs, but is evident that they contain nutriment, from an old lady's keeping her cow in good condition principally on boiled cobs, to say nothing of the production of alcohol from them.

Although corn does not contain as much nitrogen as wheat, yet for persons not laboring very hard, it contains enough.—Wheat or fine flour is too nutritious, or contains too much gluten for persons of sedentary habits, hence arises dyspepsia, constipation, and a host of evils follow in their train, among which is laziness, a mortal enemy to health and comfort.—*Boston Cultivator.*

PHILOSOPHY OF FARMING.

Here is the secret of good farming. You cannot take from the land more than you restore to it, in some shape or other, without ruining it, and so destroying your capital. Different soils may require different modes of treatment and cropping, but in every variety of soil these are the golden rules to attend to: Drain until you find that the water that falls from heaven does not stagnate in the soil, but runs through it and off it freely. Turn up and till the land until your foot sinks in to a loose, powdery loam, that the sun and air readily pass through. Let no weed occupy the place where a useful plain could possibly grow. Collect every particle of manure that you can, whether liquid or solid. Let nothing on the farm go to waste. Put in your crops of course which experience has shown to lead to success in their growth, and to an enrichment and not impoverishment of the land. Give every plant room to spread its roots in the soil, and its leaves in the air—*American Agriculturalist.*

CLEAN OUT YOUR CELLARS.

Almost the first thing the farmer should attend to, as soon the weather becomes sufficiently warm to permit the opening of his cellar doors and windows, is the careful removal of everything calculated to engender noxious and unwholesome gasses. Let everything be removed, or cleansed, and the walls coated with whitewash, and the bottom potatoes, cabbage stumps, beets, carrots, &c., should all be cleared out before the weather becomes warm.

"LICE ON CATTLE".

MR EDITOR,—Much has been said in regard to killing "Lice on Cattle." Among all the hostdeties of the day there is none so simple and efficient as *Mercurial Ointment* (unguentum); this is generally found at the apothecaries or stores and is easily made, viz. 1 lb. quicksilver, 7 lbs. lard: rub the quicksilver with a little soft turpentine in a mortar until the globules disappear, then mix it throughly with the lard; before applying it to your stock reduce this with an equal quantity of lard and rub a little between their horns on their boxs, &c,—a piece as large as a small walnut is sufficient for any bullock.

EXPERIMEMT WITH ASPARAGUS.

The London Gardeners' Chronicle gives the following method of growing asparagus at Nice. Take a quart wine bottle, invert it over an asparagus root just rising from the ground, and secure it to its place by three sticks. The asparagus will grow up into the interior of the bottle, and being stimulated by unusal heat and moisture, will speedily fill it. As soon as this has taken place, the bottle must be broken, when the asparagus will be found to have formed a thick head of tender, delicate shoots, all eatable, and as compact as a cauliflower.

VERY IMPORTANT INVENTION.

IT has long been a question among teachers and amateurs of music, as to the most suitable touch for a Piano Forte. Some at this time contend for a light touch, while others, with equal ability advocate the heavy. This question is now permanently settled. WISE & BROTHER have invented a contrivance by which the same Instrument may be instantly set to any required touch, by the turning of a single screw, varying, if necessary, three hundred and sixtyfive differences. The advantages of this are evident, both to teachers and amateurs, as lessons may be practiced on the heavy, and exhibited on the lighter touch, to suit exactly any physical capacity which is agreeable to fact and progressive lessons. The contrivance is simple, and may be applied to any common Piano. A patent is about to be taken for the improvement.

And consumption, pain in the side and night sweats, asthma, whooping cough, palpitation of the heart, liver complaint, bronchitis,

And all diseases of the throat, lungs and liver, cured by Sherman's All-Healing Balsam.

Raising Blood and Consumption.

Mr. Milne, Builder, in Brooklyn, was attacked with raising blood, followed by a cough, pain in the side, and all the usual symptons of consumption. Hearing of the wonderful cures performed by Sherman's Balsam, he sent and got a bottle; it operated like a charm, and stopped the bleeding and cough! Before he had taken one bottle he was able to be about his work; it had saved his life. His daughter can attest it.

14 years Mr. John O'Neil, 10th avenue and 21st street suffered with a cough, raising of phlegm, and pain in his side. He could get no relief till he tried the All-Healing Balsam, which drove the pain from his side, allayed the cough, and brought the disease upon the surface; and before he had taken three bottles, was entirely cured.

Read ! Read ! ! Read ! ! !

We, the undersined having visited Mr. Isaac Prooks, Jr., at the office of Messrs. Rowand & Watson, 376 Narket street, Philapelphia, consider his case the most remarkable on we haee ever witnessep or heard of. His disease was *scrofula*, and terrible must have been his twelve years' conflict with the destroyer.. His palate, the entire roof of his mouth, nose, upper lip, the lower lid of the right eye, have all been destroyed, his face *nearly eaten up* and part of the Jaw Bone carried away.—And yet we can give no description of his case. Mr. B. informe us that in January last the whole interior of his mouth, as well as most of his face, was a mass of deep and painful ulcers. On the 14th of January last, he commenced taking Dr. Cullen's Indian Vegetable Panacea, which checked the disease in a few days, and from that time the cure has progressed without intermission. New flesh has supplied the place of the deep ulcers, and though badly disfigured, his face is sound, and his general health is restored. We are assured that in the treatment of Mr. Brook's case, no Mercurials, Ointments, or Caustic Applications have been used—in fact, the Panacea alone, has wrought this wonderful change.

The veracious testimony attached to the Native Preparation of Capt. Brants Indian Remedies is a sufficient attestation to their merits. The soothing influence of the Pulmonary Balsam over the raging tortures of the CONSUMPTIVE'S COUGH, the cessation of their pains, the increase facility afforded to the expectoration, the absence of those debilitating night sweats altogether produce the consciousness of relief and permanent cure in the patient's mind. NATURE'S OWN REMEDY!

THE INVALIDS BEST FRIEND!

It is confidently asserted that there never was a medicine which has given such uniform and universal satisfaction, as

Wright's Indian Vegetable Pills.

They have stood the severest trials, by curing when all other remedy failed, and have established reputation in the face of the envious slanders which have been raised against them.

Let it be borne in mind that Wright's Indian Vegetable Pills are

No Catch-penny Remedy,

the offspring of the hour destined to pass away with it, and be forgotten, but a medicine of sterling value.

For Fever and Ague,

That scourge of the west. Wright's Indian Vegetable Pills stand unrivalled. An instance has never come to our knowledge of these Pills having been taken, without effecting a complete cure. In chills and fever the liver and bilary functions are chiefly disordered, superinduced by great physical debility. When the symptoms first appear, no time should be lost before resorting to these Pills. A few doses will give such manifest relief that no persuasion will be necessary to continue the use of them.

For Dyspepsia.

Wright's Indian Vegetable Pills, will be found very superior. In this disease, the gastric juice is weak and deficient in quality. Consequently, the digestion is imperfect and the health impaired. These Pills remove the bile from the stomach, restore its tone, and improve the digestion.

Great Female Medicine !

It would be difficult precisely to tell to which of the two sexes Wright's Indian Vegetable Pills have been the two greatest blessing. But it is very certain that these pills have given health, and spirits, and a good complexion, to hundreds of females, who would without them, have been in their graves. A box of Wright's Indian Vegetable Pills, is an inestimable companion at certain periods.

Valuable Anti Bilious Medicine!

It is well known that the South and West suffer more from bilious disorders than from all others combined. This is partly owing to the climate, but chiefly to the nature of Southern and Western life. The sensations accompanying liver complaint are of the most wretched description. Habitual drunkenness is frequently brought on by liver complaint. A patient suffering from this disease, should not be mocked with pretended cures; yet there are very few medicines that are worth a straw in the removal of this complaint. Calomel has hitherto been the chief reliance, but the remedy has proved itself worse than the disease! What then shall be done? We say, give Wright's Indian Vegetable Pills a trial. If they do not exceed your expectations, we are willing to bear all the opprobrium of failure.

The following Agencies have been established for the sale of Wright's Indian Vegetable Pills in Kent county:

Mr. John W. Middleton, No. 85, South Eigth street, gives the following brief history of his case "I have suffered for many years with a severe Scrofula, effecting my *legs, armr and head;* at times not being able to walk without crutches. I had tried almost every thing, before I commenced with your Panacea, but to little purpose. The *Panacea* has proved itself superior to all other medicines I have taken, as that alone has effected the cure."

Mr. Middleton was offered fifteen dollars a week to remain in the office of a certain Doctor in this city, and reprerent the cure as being effected by his medicine, it is unnecessary to say that Mr. M. spurned the villainons offer with indignation. *Mr. M. can be seen at his own residence.*

ERYSIPELAS.

Mr. B. J. Kensil, a gentleman well known in this city, gives the following information. "I was troubled with a painful leg for about eighteen months, so distressing at times, as to disqualify me from following my business, and deprive me of sleep. I was induced by a friend to make use of your Dr. Cullen's Indian Vegetable Panacea. My leg at the time I commenced the Panacea, was much swollen and inflamed, with a large ulcer open. The leg is now tirely well. Mr. Kensill resides at No ad. 125 Eleventh street.

SCROFULOUS ULCERS.

Mrs. Mary T. Charles, a highly respectable lady living in Williamstown, New Jersey, had suffered about nine years with ULCERS on the leg. The attending Physicians said nothing but amputation could save her life. Reading the many astonishing cures performed by DR. CULLEN'S Indian Vegetable Panacea, she sent a friend to procure some of the medicine, but unfortunately she missed the place and got in to a Doctor's office, who represented his medicine as the Panacea, and of which she took some twenty bottles, without benefit, before finding her mistade. Her friend then called and procured Dr. Cullen's Panacea, and after using it about ten months Mrs. Charlhs thus writes under *date of* Dec. 20th, 1847:

Messrs. Rowand & Walton—Gentlemen: You request me to inform you how I am getting, I have the pleasure of stating to you that my health is good—I have a good appetite, and my leg, which it was thought would have to be taken off, is now entirely well. MARY T. CHARLES.
