MARRIED.

On the 11th inst. in Baltimore, by the order of the Society of Friends, Joseph W. Cliley to Sarah V. Perkins, all of that city.

On Thursday evening last, by Rev. Mr. Burrows, Mr. Henry Copper to Mrs Hetty Duncan, both of this county.

DIED.

In this place on Sunday night last, after a Christian resignation, Mrs. Christianna Constable aged about 78 years.

A lady in troy, New York, who had been given up by her physicians, sends us the following:—

Troy, May 15. 1846.

Mr. Fowle: In October last, I took a violent cold which settled on my lungs, and produced a hacking cough, accompanied with night sweats, which reduced me very low. A few days after I was taken, I employed one of our best physicians, but received no help; I tried another, but with no better success; and finally a third, still growing worse all the while. At this stage of the disease I was reduced so low as to be *unable to turn myself in bed*, or to sit up while my bed was made. My physicians finally gave me up, and said that I had *the consumption*, and there was no *help for me*. My friends advised me to try *Wistar's Balsam of Wild Cherry*, but the Doctors objected, and said that it would only hurry me out of the world. I finally procured a bottle, and by using three bottles I was restored to perfect health.

50,000 VICTIMS EVERY YEAR

Fall a Prey to Consumption, Asthma and Raising Blood, Hectic Fever and night Sweats.

Mrs. Adams, 126th st., Harlem, suffered a year with a cough, pain in the chest, night sweats, and all the aggravated systems of Consumption, nothing relieved her till she tried Sherman's Balsam—half a bottle cured her.

Ulcerated Lungs and Liver.

Mr. E. T. Lawrence, Jackson st. Brooklyn, after years of suffering, and treated by various physicians, was pronounced incurable from ulcerated lungs and liver. Dying, as was supposed, he tried the Balsam; its effects were most miraculous; two bottles cured him.

Pleurisy and Consumption.

Mrs. Baggas, resided at 88 Sheriff-Street, 70 years old, has been subject to attacks of pleurisy and consumptive coughs for years. This Balsam has saved her from very great suffering.

Asthma and Consumption.

L. J. Beals, 19 Delancey-street gave it to his sister-in-law who had been an ivalid for years from Asthma; to another of 68 in consumption. It relieved them at once, so that they travelled several hundred miles.

Spitting Blood

Is always alarming. It leads to the worst kind of Consumption, and unless arrested in time is generally fatal. Sherman's All-Healing Balsam is the best remedy known; it heals the wounded or ruptured blood vessels of the lungs, and thereby effects a permanent cure, while other remedies only stop the blood for the time. A few doses of this Balsam will satisfy the most skeptical that it is the medicine required—It has been successful in many cases, and that too where they had run into a rapid decline, or, as word generally expressed, "Hasty Consumption." Young persons, or those of middle age, are more subject to these attacks than the aged.

Price 25 cents and $1 per bottle.

Dr. Sherman's Bough and Worm Lozenges, and Poor Man's Plasters, sold as above.

California Gold!

DISCOVERED BY

Sig. D'Alvear's Goldometer!

THE

GOLD SEEKER'S QUIDE!

Secret Art of finding Minss of Gols, Silver, Iron, Lead, Copper, Coal, and other Mineral Riches.

The first discovery of Gold in California was made by Don Jose D'Alvear, an eminent Spanish Geologist, and Natural Philosopher, by means of a newly invented Magnetic instrument, called *the Goldometer, or Gold-seeker's guide!*

Signor D'Alvear has just arrived at New York, from the Gold regions of California, by way of Panama, Chagres, and New Orleans, bringing with him a very large quantity of Gold ore, valued at nearly one million of Dollars, which he collected there, long before the existence of the Gold mines became known to the residents of California generally.

HISTORY OF THE DISCOVERY.

Signor D'Alvear went out to California nearly two years ago, in consequence of certain information which he had received of the geological character of that country with the firm belief that vast mines of precious metals would be revealed there, upon careful investigation. He was encouraged to this enterprise, also, by his confidence in the powers of a certain Magnetic instrument which he had invented called the "Goldometer," by whose aid he expected to be directed at once to the "Gold Placers," if any such existed. Nor were his expectations disappointed. His scientific calculations proved to be founded in truth and profound wisdom and his new instrument, the "Goldometer," fulfilled his highest hopes. In less than two months after reaching California, he struck upon one of the richest gold mines in that country, upon an obscure branch of the Sacramento river, in a gorge of hills extremely rocky and difficult of access, and seldom visited by the native Californians. Disguising his object under the pretence of purely scientific research, he obtained the aid of some fifteen or twenty simple and faithful Indians, and steadily pursued his task, collecting often more than $3,000 worth of gold in a single day, which he concealed in a deep ravine, without exciting any suspicion whatever, until after the discovery of gold at Capt. Sutter's Mill, when the mountains were ransacked by gold seekers, and Signor D'Alvear's "gold placer," the richest in all California, was beset with greedy adventurers. It is now found that the real mines or sources of the gold, lie in the gorges of the mountains, and not in the beds or sands of the rivers. Previous to leaving California, Signor D'Alvear sold his instrument, the Goldometer, a very imperfect one, for $3,000. The person who purchased it confidently expected to make a handsome fortune, by simply finding "gold placers" and selling out the right of digging to the gold workers.

MANUFACTURE OF THE GOLDOMETER, AND PUBLICATION OF THE GUIDE.

Signor D'Alvear, in compliance with the request of numerous scientific gentlemen, has commenced the manufacture of his new Magnetic Instrument, the Goldometer, which he now offers for sale, in the United States, at the remarkably low price of three dollars each, accompained by full instructions for use, and a variety of Philosophical hints drawn from the ancient and modern sciences, on the *the art of finding Mines of Gold*! Silver, Plantinum, Quick-silver, Coal, iron, Copper, Lead, and other Mineral Riches, the whole being given in a publication called the *Gold seeker's guide*! This work and the Goldometer, are both now ready for sale.

The Golometer is so simple an instrument, that a child may learn to operate with it in five minutes. It is not affected by climate, moisture, or any other known cause, (except the natural magnet,) and will retain its power of pointing out mineral riches in the earth for any number of years. By the aid of the Guide any person may use the instrument at once with perfect success.

FARMERS AND LAND OWNERS.

Farmers and Land Owners throughout the United States, who have reason to suspect the existence of any kind of Mineral riches upon their lands, should avail themselves of this opportunity to test that fact, by the surest of all known tests, before the abundance of discoveries in all parts of the country shall have lessened this source of wealth in their estate.

ADVENTURES TO CALIFORNIA.

Persons going to California cannot make a better investment than by purchasing one of these instruments, which will not only be worth fifty times its value there, to sell again, but will be of inestimable worth to those who go in search of Gold as has been proved by the most abundant experiment both in California and the United States.

TESTIMONIALS.

Signor D'Alvear does not deem it necessarry to encumber this notice with a long list of testimonials, in proof of the value of his Goldometer, and Gold Seeker's Guide. The brilliant results of his labors in California, and the discovery, this very week, of fresh viens of Gold in Virginia, and beds of Coal in Rhode Island, by its use, are alone sufficient to stamp it as the greatest discovery of the age.—Nothing but the extreme cheapness of the instrument, and his desire to see it used for the benefit of mankind induces him to dispose of it at the low price for which he offers it. Besides, this, his own desire for wealth is nearly satisfied.

The following Testimonials, in proof of the value of the Goldometer, selected from a great number equally satisfactory, must suffice for the present.

ASTOR HOUSE, NEW YORK, Dec. 21 '48

The undersigned, having this day witnessed the practical operation of Signor De Alvear's newly invented magnetic instrument, the Goldometer, fell entirely satisfied that it possesses the extraordinary power of detecting Mineral ores hidden beneath the surface of the earth, and have no doubt that it will prove an invaluable in the discovery of the Mineral resources of the United States and the world.

J. R. DRAPER, Jr., Chemist,
L. S THERMANN, Magnetic Ins, Maker.
G S DANA, Geologist.

Los Angelos California, Aug., 1848.

This may certify that the undersigned is fully convinced that Signor Jose De Alvear was the first discoverer of the Gold deposites of California, and that this discovery was made by the aid of a Magnetic instrument called the Goldometer, which I have seen successfully applied to the discovery of veins of Gold ore, in places where no indications of that substance appeared upon the surface of the earth.

T. W. SHERMAN,
Lieut. 3d Artillery, U. S. Army.

NO AGENTS.

In consequence of the difficulty of finding faithful agents, and of preventing frauds where articles of this nature are sent out for general sale, Signor D'Alvear had determined to sell none of his works or instruments unless ordered by letters sent directly to him, when the desired publication, or instrument, will be forwarded under his signature and seal, so that all doubt as to its genuiness be removed.

☞Beware of all imitations of this Instrument which may hereafter appear, as the secret in parting the Gold Detecting power is known to no person whatever, except the original inventor.

☞The Goldometer, and Gold-Seeker's Guide, will both be sent by mail closely enveloped and sealed, and therefore, not subject to inspection by Postmasters, for the sum of three dollars, sent post paid to Signor Jose De Alvere, Box 2713, New York City. The instrument is very light and the Guide is printed on thin paper—so that the charge by mail, or express, will be very small to any part of the United States. The price of the Gold Seekers Guide alone, is one dollar, sent as above. Address.

SIGNOR JOSE DE ALVEAR,
Box 2713, NEW YORK CITY.

☞OFFICE for the sale of the Gold Seeker's Guide and Goldometer, No 38 Centre St., New York City, where visiters may see several casks of California Gold, in the rough state, as extracted by Signor D'Alvear from the Sacramento Mines, and also witnessed the operation of the Goldometer, when held within the magnetic influence of the precious metal and the unerring manner in which it indicates the presence of that and other metallic substances.

THE NIAGARA SHOWER-BATH

AN ENTIRELY NEW ARTICLE FOR SHOWER BATHING, With old or Warm Water.

A great and important improvement is made in this Shower Bath over all others, by throwing the water immediately on the body without wetting the head, unless at the will of pleasure of the bather; but greater point is gained by being enabled to bathe with warm water, which no other Shower Bath is adapted to—and most important of all, the bathean be medicated without injury to the hair.

Many persons cannot take a cold bath—their case is met in this, as they can regulate the temperature of the water to suit their wish and commence bathing at any season of the year without any unpleasant result. Ladies can have the advantage of bathing without wetting the head or covering the same.

The arrangements are simple and complete, and not liable to get out of order.—The Bath can be adjusted to suit any heighth, from a small child to the tallest person. When the door is closed, the fixtures are hid and the outside appearance is that of a neat piece of furniture.

They have received the approbation of several midical gentlemen—others are requested to call and examine them.
