The Conference adjourned to meet on the 27th of next March, at the Union Church in Philadelphia.

CASE OF THE REV. THOMAS J. BURROWS.—At the opening of Thursday's session of the Philadelphia M. E. Conference the case of Thomas J. Burrows was called up; when his presiding elder, the Rev. Mr. Hazzard, presented the following charge against him, viz: "I charge Thomas J Burrows, a member of this Conference, with taking the life of James A. B. Bishop, by shooting him with a pistol, on Friday the 23d day of March, 1849, at Sandy Hill, Worcester county, Md., for which he is now under arrest by the authorities of Maryland." Signed, John T. Hazzard April 6, 1848.

Upon the presentation of this charge Dr. Kennady and Dr. Durbin presented the following paper which was unanimously adopted:

Whereas, Thomas J. Burrows, a member of this Conference, is under arrest for an alleged criminal offence, of very recent occurrence, and at a scene too remote to enable this Conference to procure the testimony in the case; and whereas the course of this Conference has been, in cases where legal proceedings are pending, to suspend any judgement until such legal proceedings have been closed. Therefore,

Resolved, That the case of T. J Burrows be referred to such committee as may be appointed in conformity to the Discipline, (Chap. 9, Sec. 2, Ans 2) to be investigated as early as practicable, when the legal proceedings now pending shall have closed, that he (Burrows) be left without an appointment, and prohibited from any ministerial function, until the committee provided for above shall have come to their decision; and this prohibition is not intended in the least degree to intimate any opinion of the Conference in his case, but simply what is seemly and proper in view of the circumstances under which he is placed.

J. KENNADAY.
J. P. DURBIN.

With this action of the Conference the case rests for the present.

RHODE ISLAND. The Providence Journal of Saturday has returns for Governor and Congress from all the State except the town of New Shoreham. The vote for Governor stands Whig 5043, Locofoco 2963, Free Soil 546. King is elected to Congress in the First District; in the Second, thurston (Locofoco) lacks 128 of an election. The Legislature stands 20 Whigs in the Senate, 42 in the House; Locofocos, 11 in the Senate, 23 in the House; Free Soil, 1 in the Senate, 1 in the House There are 3 vacancies—1 in Providence, 1 in Johnston and 1 in East Greenwich. In case of no election the old Representatives hold over.

CONNECTICUT.—The Hartford Courant gives the following as the result of the election for the House of the Legislature—Whigs 111, Locofocos 97, Free Soil 14.—"Beyond doubt," says the Curent, "the Whig ticket for States officers will be elected by the Legislature. The majority on joint ballot must be small—much smaller than the Whigs have usually depended upon—but nevertheless sufficiently large to elect our State ticket." The Hartford Times says on joint ballot the account will stand Locofoco 107, Whigs 114, Free Soil 21.

DISTRESS IN IRELAND. The picture of distress in Ireland, as furnished by the late papers, is truly deplorable. Death from starvation is quite an ordinary occurrence. A Dublin paper now before us, contains the details of several cases. In one, a little girl was found dead in a cross street, and the verdict of the jury was, that the victim perished of desitution. In another, a man about 50 years of age, perished at Kennuty, from a similar cause.—The Limerick Reporter says that the condition of the entire community in the parishes of Carrigaholt and Kilsllyowon, is awful in the extreme, principally from di-

Arrival of the Niagara.

STILL LATER FROM EUROPE.

ST. JOHN, N. B., April 6.

The Niagara reached Halifax on Thursday afternoon at 3 o'clock, with 41 passengers.

The Europa arrived at Liverpool March 20th. The Hermann reached Southampton, and was to sail on the 26th for New York. The Sarah Sands made the passage out in 17 days.

FRANCE.

The trials at Bouraged are going on.—Two of Gen Breas's murderers had been guillotined, and the others pardoned. The Red Republicans clamor loudly against the executions. M. Proudhom is especially complained of

The Clubs have been abolished by the Assembly. The Socialists are unusually active in sowing disaffection among the troops.

In consequence of the state of Italy, troops are embarking at Taulon and the army of the Alps is to be reinforced.

The French funds have fluctuated

The King of Holland died on the 17th of March.

Official notice has been given of the expiration of the Holstein armistice.

The Paris papers state that Metternich is shortly expected in Paris.

An office has been opened at Havre for the purpose of registering the names of all who may wish to go to California.

The elections have been held throughout Prussia, and so far give strong indications of a large Democratic majority.—There had been considerable rioting, and attempts at fraudulent voting in the Duchy of Poser, where the Democratic party are in a decided majority.

Some of the Legitimist and RedRepublican papers of Paris mutually accuse each other in unmeasured terms of wishing to overthrow the form of government.

It is reported that the Sicilians have proclaimed Lucian Murat King of Naples.—He is the son of Murat, Formerly the King of that country under Napoleon.

AUSTRIA.

An order has been given by Windischgratz to hang all the inhabitants who may be found with arms in their hands, and that any place of which even a few inhabitants shall attempt to molest any imperial courier, shall be leveled to the ground.

A motion to seperate Austria from the German empire was carried in the Diet sitting at Frankfort by a vote of 261 to 224. The motion created considerable excitement.

An order has been given at Munich for 8000 infantry recruits to be made in that city, which seemed to indicate an increase of the army.

A letter from Berlin states that in consequence of negotiations with the German Imperial Minister, a Prussian envoy will proceed to the United States, wholly for the purpose of buying both sailing vessels and steamers, to be commanded by American officers until the natives shall be qualified sufficiently for the purpose.

It is stated on good authority that the Ambassador of Tussia, Baron Kippels, has demanded his passports from the French government.

It is said that the Emperor of Russia has declared to the French Ambassador Leflo, at St Petersburg, that he would acknowledge, the French Republic if Cavaignac were elected President, but since the election of Napoleon he has changed his tone. He considers this a sign of conquest—Gen Leflo has left St Petersburg in consequence

According to the last accounts from Hungary numerous desertions had taken place among the troops of Radetzky.—Charles Albert has refused the supplies of vates demanded by Radetzky. The latter has consequencely broken off the communication between Piedmont and Lombardy. At the same time the Sardanian troops were being supplied with ammunition.

THE CHOLERA.—The cholera is disappearing. The total number of deaths in England is 3164. It still rages in Ireland.

In the manufacturing districts the demand for goods had fallen off, and the price of Manufactured Iron had also receded.

The navigation bill passed second reading in the British Parliament by a majority of 56. Mr. Gladstone explained that if the Americans did not give them reciprocity the bill afforded the means of retaliation.

Taylor's Inaugural was telegraphed to London.

Money in London is abundant—first class paper 2¼ to 2½.

Mr. Disraeli's motion to institute an inquiry into the burdens on land was lost, 280 to 189.

The army and navy estimates have been carried by large majorities.

The India news has created great feeling among the English people.

SHOCKING MURDER.—The Litchfield (Conn.) Enquirer says: We are once more called upon to chronicle an assault and murder among the Irishmen at work on the Naugatuck Railroad, in the eastern part of this town. It appears that on Monday of last week the laborers on that section of the road near Morse & Bettell's Factory, struck for higher wages. One mild, inoffensive man, named Cornelius O'Rielly, declined joining in the "strike," and went to work as usual. In the evening he was attacked with clubs, beaten to death, and his body thrown into the Naugatuck river, where he was found the next morning, most shockingly mangled. The officers are now in pursuit of the murderers.

CHOLERA.—The Cholera at St. Louis carried off 24 persons during the week ending 26th ult. On the 29th, the steamer Laurence arrived from new Orleans with 400 deck passengers—10 cholera patients

Return of California Emigrants.

Pro and Con Statements.

There are a large number of persons in New York city who started for California *via* the Isthmus; but having reached Panama, and finding no conveyance to San Francisco, and no prospect of getting up while their funds lasted, they turned their faces homeward. The Herald says that these disappointed gold hunters number about seventy-five of whom came by the Crescent City, and forty-five took passage in the Northerner from Chagres. They give anything but a favorable account of their experience on the Isthmus.

The Tribune gives the following as the experience of one of the disappointed "initiated," Mr. Sydney Downs, of Worcester, Mass, who both went out and returned in the Northerner, after stopping at Panama three days:—

He says that he left 1,500 Americans at Panama, (some of whom had been awaiting conveyance to California for three months,) beside 500 more at or near Gorgona, and 500 more at and about Chagres. Some had exhausted all their means, and knew not what to do. A meeting had been held to consider the practicability of traveling thence by land through Central America and Mexico, but the project was found impracticable for want of roads, water and provisions. Some would come back to New Orleans, and try to resume their journey from that point by one of the overland routes Of course the majority held on to the hope of getting passage by water to San Francisco, but it was very generally believed that the California would not be able to return to the Isthmus very soon—that her crew would desert immediately on reaching San Francisco.

There was much sickness at Panama as well as on the way across the Isthmus—dysentery, brain fever, &c., &c., &c.—Deaths were frequent.

The latest dates at that place from San Francisco came down only to December. Two British gentlemen, who left at that time, came passengers in the Northerner, and Mr. Downes conversed with them very freely. They had been at the mines, but were disenchanted. They thought they could do as well working for a dollar a day about this quarter as in digging gold on the Sacramento. They estimated the average yield to the hand at $5 per day, and the cost of living at $6! Of course, the net profits would not support a man's family very sumptuously. There were many, to be sure, who did letter, but this was a fair average in their judgement.

Our readers will take this as one side of the picture—that which faced Mr Downes We endeavor to show it in every light reflected on it by responsible parties. We hope to give something further from Mr. Downs in a day or two.

A Panama letter of March 24th, from another source, to the Tribune, says:

The British steamer from Valparaiso arrived yesterday morning, bringing no later information from El Dorado. She, however, brings very gratifying information to numbers who are waiting conveyance to California, namely that there are two whale ships and one Chilian vessel now on their way to this port to convey passengers up. They will be able to take up all who are now waiting here, and not provided for on the steamers. All the vessels mentioned in my last have sailed. The harbor is now clear, excepting the Humbolt and the British steamer. The Northerner takes back several persons who had got thus far on their way to California, but becoming discouraged, have turned back. It is well; such persons are not fitted to cope with the dangers and endure the privations necessary to be overcome in a new country

Many have been taken sick in this place, and last Sunday the Americans had the melancholy duty to perform of following two of their number to the grave. They were Chauncey Harrington of Lockport, about 28 years of age, and said to have a wife and one child at that place. The other, Chas. Miner, of Utica, aged 19 years. The last, I understood, had been very impudent, eating large quantities of fruit; indeed a very large part of the sickness may be attributed to this cause.

The Odd Fellows now in this place called a meeting last evening, appointed a committee of seven of their number to seek out all Americans who were sick or in want of pecuniary aid and relieve their necessities; a treasurer was appointed by them, and a very handsome subscription taken up to effect the contemplated object.

There has been much and I think very just complaints of our Consul here. Americans are taken sick and die without care or attention from him. He did not even grace with his presence the funeral obsequies of the two deceased persons previously noticed. A change in the office is certainly desirable.

DOCTORS FEES IN CALIFORNIA.—A letter from a young Jersey boy in California, written Jan. 6, says:

"I worked about eleven days, averaging $104 per day—was then taken sick with the fever, and had a very severe time of it. I received four visits from the nearest doctor, which was sixty miles off, and paid him to the tune of $600—$150 per visit—leaving me with about sixty dollars in pocket, after paying for my provisions, which are high in proportion."

A BIG LUMP OF GOLD.—Among fourteen pounds of California gold on board the ship Colchis, which got aground coming into Boston, the Chronotype says there is one piece, weighing *six pounds*, belongs to a seaman. The Chronotype does not say who saw it.

MARYLAND,

State Agricultural Society's Rooms.

BALTIMORE, March 21st, 1849.

SIR: As the suit of Rooms, over the American Office engaged for the uses of the Maryland State Agricultural Society, are now prepared for the reception of visitors, I deem it a part of my official duty in this public manner, to invite all Agriculturists, and others favorable to the cause, to visit the same whenever convenient.—One of the objects of establishing a Farmers' exchange, is that those connected with the different branches of Agriculture may meet and interchange opinions on the subjects of general interest, in order that their united influence may be brought to bear in favor of such legislation as may be deemed beneficial to the welfare of the profession.

As the Society are about forming an agricultural, Library, all donations of books will be thankfully received; and all Implement makers, Machinists, Seedmen, and others having implements, machines, seeds, manures and other articles useful to agriculturists, are solicited to leave, at the rooms, cards, catalogues and samples of such articles as are manufactured or sold by them, in order that those desirous of purchasing may ascertain where the same are to be had.

You are earnestly requested to give the above information general circulation.

Your obedient servant,
CHARLES B. CALVERT,
President Md. State Ag. Society.

SHIPWRECKS AND LOSS OF LIFE.

A letter from Captain Brown, of the ship Hannibal, of New London, published in the New London Chronicle, of Thursday last, dated St. Georges's Bay, December 1, 1848, reports that a terrific gale had taken place in the bay some time previously, and that the shore in that vicinity was completely strewed with wrecks—ships, brigs and cutters; most of them were English vessels. A board, with the name "Emma, of New London," found among the wrecks.

He also states that he had heard there were about *one thousand lives lost!*

This place is a great resort for the English vessels in pursuit of guano, and there is no safe harbor except under the Island of Pova, where the Hannibal lay, which affords shelter for one or two ships. A fleet of a hundred or more English vessels are frequently on the coast at a time.

Many tons of guano, which had been bagged and piled up, had been destroyed by the gale.

Captain Brown also reports the Hannibal and her tender, the Sarah Lavinia, all well, with 3,650 bbls. oil, bound to Falkland islands, wanting 500 bbls. to fill.

DEATH OF COMMANDER SHUBRICK.—Commander Irvine Shubrick died in Wilmington, Del, suddenly on Thursday night, of disease of the heart. He is the brother of Com. W. B. Shubrick, and was in the 52d year of his age. The Wilmington Republican says:

Commander S. was a native of South Carolina and had been thirty-five years in the Navy. During the wars with England he served under Commodore Decatur and was with him in the very severe action of the President with the English Squadron. He again served with Decatur in the Guerrier Frigate, and was in the action with the Algerine Squadron in 1816.

In 1832, while First Lieutenant of the Potomac Frigate, bearing the flag of Com Downs, he commanded the Expedition of Sailors and Marines who landed on the Island of Sumatra, and after a sharp conflict with the Malays, having stormed and taken three forts, took possession of the town of Qualla Batoo, and broke up a hotbed of Pirates, who had recently murdered the crew and Captain of an American ship.

In 1846 Commander S. returned from a cruise in the Gulf of Mexico and on the Coast of Brazil, with his health much shattered.

As an officer he was brave and capable—as a man he was upright, honorable and exemplary in all the relations of life. A firm faith in Christ his Redeemer, gave the crowning grace to his character.

THE FIRE AT TORONTO.

A despatch to the Balt. Patriot of Tuesday give the following particulars of the awful conflagration at Toronto:

Further accounts from Toronto, Canada, state that the fire has proved more destructive than was first supposed. The most valuable part of the city has been laid in ruins, and many of the best buildings, among which is the great Cathedral. It is thought that but little less than $800,000 to $1,000,000 will cover the loss. The insurance companies lose heavily, and some of them are supposed to have been ruined. A number of persons were injured during the fire and some thought to have been killed.

It is now reported, upon what is deemed good authority, that there is a division in the Canadian Ministry in regard to the policy of government. Affairs are very much unsettled, and would seem to be approaching a crisis.

SAD AFFAIR.—The Cincinnati Commercial relates a story of seduction in which a prominent physician of that city is the perpetrator of the wrong, and an interesting young girl the victim. Shame, disgrace, and finally the horrible murder of the innocent offspring are mentioned, but no names given.

RHODE ISLAND.—Henry B. Authony, the Whig candidate for Governor has a majority over all others, of 1460—his plurality amounting to 2052 votes. He is the editor of the Providence Journal.

FORGERY.—A boy abont 11 years old presented a forged check, signed Henry German, for 750 on the Union Bank at Boston, on Saturday. The rogue who had given it to the boy to get cashed, suspecting all was not right by the delay, made his escape.

TENNESSEE.—A Whig State Convention to nominate a candidate for Governor of Tennessee, will meet at Nashville on the 24th instant.

MORTALITY.—There were 332 death in New York last week; 128 in Philadelphia and 69 in Baltimore.

A FATHER KILLED BY HIS SON.—Mr. John Knepley, a very respectable and much esteemed citizen of Harrisburg, was killed by his son, on Tuesday last.

FIRE.—The stabling and carriage sheds belonging to Start's hotel, High street Baltimore, was destroyed by fire on Monday evening last about 6 o'clock. The fire was supposed to have been the work of an incendiary.

FITZ GREEN HARLECK, the distinguished poet, has become a lunatic, and is confined in the Bloomingdale Asylum, near New York.

FIRE.—A fire occurred in Williamsport, Pa., on Thursday last. Nearly one entire square, adjoining the Grant house, was destroyed, including the Old School, Presbyterian Church.

FOR CALIFORNIA.—Eleven vessels were advertised to sail from the port of Bremen for California, before the 15th of March.

POCKET PICKED.—A gentleman belonging to Frederick county, left Washington on Saturday morning last in the cars, with the sum of $1 490 in his pantaloons pocket, and just before reaching the depot in Baltimore, felt his pocket book and found it all safe. On the cats arriving at the depot he got out, took his valise and overcoat on his arm, and walked to a hotel, when he again felt for his pocket book, but lo! it was gone! Search was immediately made in the cars, but without avail. The pocket book was, however, found rifled of its contents!

☞We see that one Mr. Henry Broken has just married, in Baltimore, a Miss Bank. So there is one more bank now *broken!*—*Troy Post.*

But, unlike most other broken banks, previous "*promises*" appear to have been met, and it is likely *issues* will yet be made.—*Balt. Sun.*

An ordinance to restrain and prohibit certain evil practices.

Be it ordained by the Commissioners of Chestertown that from and after the passage of this ordinance it shall not be lawful for any person or persons whatever to make or burn any bonfires of any kind whatever in the streets or within the limits of said town or to throw or carry about any fire ball made of turpentine or other combustible matter, under the penalty of one dollar for each offence.

And be it ordained that any slave offending against the provisions of the ordinance shall be whipped with ten lashes on his, her or their bare backs, unless the master or owner of such slave shall pay the fine above mentioned.

And be it ordained that the bailiffs, are particularly charged to enforce the strict observance of this ordinance.

This ordinance passed the board of Commissioners on the 11th day of April 1849.

TEST;
DAVID ARTHUR Clk.

MARRIED.

In Queen Ann's county, on Thursday evening last, by Rev. E. R. Williams, Mr. Benjamin F. Perkins, of this place, to Miss Margaret, daughter of Wm. Emory, Esq. of the former place,

In Philadelphia, on the 4th inst, by Rev. Mr. ——, Mr. Bishop B. Evans of Chestertown, Md., to Miss Mary A. Napheys of that City.

DIED.

In Still Pond, a few days since. Mrs. Gale relict of the late Rasin M. Gale.

CURE YOUR COUGHS.—Wistar's Balsam of Wild Cherry, has cured an obstinate and distressing cough attended with pain in the side and breast, which I had contracted while running a boat on the James River and Kanawha Canal, which business I had to quit on account of my becoming too weak and unfit to discharge my duty as a Captain, and during the winter it grew worse. I procured two bottles of Wistar's Balsam, and I believe it has relieved me. I can therefore recommend it to all those afflicted in a similar manner.
