KENT NEWS.

CHESTER TOWN, MD.

Saturday, July 7, 1849.

'Ned Buntline's Own.'—This ably conducted and well executed paper, is one of the most welcome and interesting among our many exchanges. NED has a *host* to do battle with; but, having buckled on the armor of TRUTH and JUSTICE, he is carrying dismay and terror in the ranks of his enemies. It seems, by his last, that a class of *wretches* (after having been completely routed and put to flight in their late attempts to injure him in the estimation of the public) have commenced another method of warfare; which, in our humble estimation, none but *those*, who, lost to all the finer feelings of the human heart, and degenerated into *that* of the *brute* creation, could be guilty of! NED has our warmest wishes for a complete triumph over his enemies.

☞POSTPONEMENT.—The sale of land, (the advertisement of which will be found on our fourth page,) advertised by G. Vickers, Esq., Trustee, to take place on Monday week, is postponed until further notice.

☞EXCURSION.—The Grand Division of the Sons of Temperance will make an excursion to this place on Thursday, the 2d. day of August next, A procession with music will pass through the public streets and then repair to the public green or Court House, where several speeches will be delivered. The meeting will be public. The Still Pond and other Divisions, it is hoped, will attend. The members of Chester Division, No. 47 it is expected will be in full attendance.

☞The steamer 'Columbus' arrived here on Wednesdaay last, on an excursion from Baltimore, with a large number on board, all of which conducted themselves in a peaceable manner.

☞Our village at present is in a healthy condition, there is little or no sickness, and no cases of the prevailing epedemic has, as yet, been reported; the weather is cool and delightful.

☞PROCLAMATION.—The President of the U. States has issued a Proclamation, recommending to the people of the United States that the first Friday in August next be observed by them as a day of fasting, humiliation and prayer, that the Great Ruler of Nations may arrest the ravages of that dreadful scourge, the Cholera, now threatening to sweep over the country.

EFFECTS OF CHOLERA.—The Burlington Gazette says, some fruits taken from that city to Philadelphia for sale, have been brought back and thrown away. Nobody would have them as a gift! The owners, it would seem, have lost their labor, their freight, their expenses, their produce, every thing.

The man who fired a pistol at Queen Victoria, (W. Hamilton, a bricklayer) has plead guilty, and has been transported for 7 years.

A letter has been received at Montrael, from the Hudson's Bay Territory, by way of Saut St. Marie, stating that no information had, as yet, been received of Sir John Franklin. The letter is dated from Fort Simpson.

☞The Philadelphia Spirit of the Times denies the existance of cholera in that city.

☞The report that Gen. Scott was ill at West Point is contradicted.

☞There were 96 deaths from cholera at Cincinnati, during the 24 hours, ending at noon yesterday; making 466 deaths by this disease in four days.

☞The following is said to be the rates of a dinner bill furnished a California pilgrim during a short stay at Rio Janeiro:—Six eggs, $12, one beefsteak, $12; radish $6; bread, $12; one bottle wine, $10; segars, $4,80; coffee, 1; milk for coffee, $2. Total, $59,80.

NEAT.—An exchange speaks of a lady who entered her carriage with so much powder on her face that she blew up the driver.

MRS. JUDSON, formerly known as Fanny Forrester, who left this country a few years since for the Burmah mission, with her husband, was dangerously ill on the 23d of March last.

A YANKEE marble cutter has sent to California his whole stock of grave stones, with "Sacred to the memory of," and "erected by his brother," &c., cut upon them. Very significant!

SWEET OIL rubbed over bedsteads and other furniture is said to be a preventative of bed-bug breeding.

FOREIGN NEWS.

Latest from Europe, BY THE HIBERNIA.

ENGLAND.

NAVIGATION LAW PASSED.

The bill for the abrogation of the Navigation Laws passed the House of Lords without material amendment on the 12th. and has received the royal sanction. The bill will go into effect in January.

JEWS' BILL PASSED THE COMMONS.

The Jews' disabilities bill passed the House of Commons by a majority of 66. Its success in the House of Lords is considered very doubtful.

ENGLAND AND THE ROMANS.

The British Government repudiates all cognizance or sanction of the proceedings of the French in their treatment of the Romans.

CASE OF SMITH O'BRIEN.

Smith O'Brien, through his counsel, denies the legality of the commutation of his sentence of death to transportation, and the Government have to proivde for the unlooked for difficulty by special act of Parliament.

THE POTATO CROP.

Different and apparently reliable statements are made from parts of Ireland to the effect that the potato rot has made its appearance in some instances, but generally the vines look vigorous. The weather is represented as continuing very favorable, and the crops of England and Ireland are said to look unusually promising.

THE REBELLION LOSSES.

In the debate in Parliament upon the Canadian Losses Bill. Mr. Gladatone interposed a most furious opposition to the measure, and his remarks are said to have made a marked impression in the House.

He did not ask the Government to disallow the act, but for an assurance that under the act rebels should not be compensated, but that parties should produce reasonable *prima facie* evidence before receiving any public money, that they had not taken any part in the rebellion.

Lord John Russell complained of the tendency of Mr. Gladstone's speech to aggravate the dissensions in Canada, embitter the feelings of hostile parties, and said that he had stated the case of one party, that of the opposition, supplying them with arguments and mending their case.

Lord John was followed by several other speakers, and after a warm discussion a division was taken upon the question that the debate should be adjourned to the 15th inst. which was carried.

HUNGARY AND AUSTRIA.

NO DECISIVE ENGAGEMENT.

It would seem that hostilities are still carried on in the South between the Hungarians and the shattered remains of the Austrian army supported bp the Russian, but the reports which reach us are so vague and contradictory, it is not deemed advisable to transmit them by Telegraph.

RUSIAN PROCLAMATION.

The Rusian General has issued a proclamation to the Hungarians, the pith of which is that if they do not lay down their arms and submit to their fate with a good grace, they will be made to feel the consequences of their presumption. Every effort is being made to rouse the people, and the Magyar Government has ordered clergymen to march against the Russians.

GERMANY.

THE REVOLUTION IN THE SOUTH.

In Baden the revolutionary struggle is now in full play. The Prince of Prussia has left Berlin to take command of the army of the Rhine, and in Baden and Wirtemberg and Bavaria, the Democrats are preparing for a conflict.

RECEPTION OF FATHER MATHEW IN NEW YORK.

The reception of Father Mathew in New York was of such a character to do honor to a great philanthropist. In reply to the congratulatory addresses, from the head of each delegation, he replied in feeling and eloquent terms:

"He trusted (he said) that he should prove worthy of the kindness tendered to him upon this the proudest and happiest day of his life—a day which had recompensed him most bountifully for all the sacrifices of his life, made in the behalf of the cause of temperance, the good of his fellowman."

On landing at Castle Garden, he was received with great cheering by an immense concourse of people stationed on the Battery; and in reply to the address of Mayor Woodhull, tendering him with hospitalities of the city, he said:

"He had long wished for the happiness which he now enjoyed, to visit the authorities and the people of the city of New York. Providence had hitherto prevented him, and a severe fit of illness had obliged him to postpone a visit which had been so long contemplated. He was on our happy shore at last, but he could not promise much exertion, even in the good cause which was so near his heart. He had come here in the present state of his health, not so much to do, but to witness the fruits of the labors of others. The temperance leaders in the States were his fathers in the temperance cause, and he had but followed in their footsteps. In company with those friends who had accompained him up the bay, he had been witnessing some of the evidences of the prosperity of our country under our glorious Constitution, together with our moral, religious, industrial and educational institutions and privileges. He had witnessed, also, our beautiful rivers, the mighty fleet of merchant ships from every quarter of the globe, bringing the fruits and products of every country and clime to our shores, was lost in astonishment. He had been gratified in observing these evidences of our prosperity, and still more gratified at the reception which he had received. He was convalescent from a severe illness himself, and felt incapable of answering the beautiful address of the worthy Mayor in the beautiful terms which it deserved. In conclusion, he begged the Mayor to present the authorities of New York, and through them the people, with the unaffected expressions of one of the warmest hearts that ever beat."

His passage up Broadway was attended by a multitude of people, and after the final reception at the City Hall, he appeared on the balcony to gratify the desire of those who had thronged to see him—Soon after, he reached his apartments in the Irving House. The Courier and Enquirer says:

In conclusion, we will venture to say that a more hearty, cordial reception than that given to this distingnished philanthropist, was never received by civilian, statesman or soldier.

From the N. American & U. S. Gazette

BY MAGNETIC TELEGRAPH.

Highly Important from the Plains—Battle between the Santa Fe Guards and the Apache Indians—20 Indians killed.

ST. LOUIS, 2.

Dates from Santa Fe to the 4th of June have been received here.

On the 31st of May the Santa Fe Guards under the command of Capt. Chapman encountered within 40 miles of Avagua, a body of Apache Indians, numbering about 300. A desperate fight ensued. The Chief and twenty of his tribe were killed. Capt. Chapman lost three men. Lieut. Kendricks killed the Apache Chief. The enemy were completely routed.

The Apaches are very troublesome throughout the whole route in this section of the country.

The Mexicans recently destroyed a party of ten Americans, and a band of robbers white men, under command of the nototorious Dr. Lemon.

The California emigrants by way of Fort Smith complain of the bad route.

A MOURNFUL FACT.

General Pierce, of New Hampshire, in his reply to the complimentary speech made to him, on the occasion of being presented with a sword by the Legislature, stated the following remarkable fact:

"On the 21st of June, 1847, about this time in the afternoon, the "North Bend," with the first detachment of the 9th Infantary, made the harbor of Vera Cruz.—The other transports followed in quick succession. It is a melancholy fact, but not humiliating recollection, that of those six hundred and forty men, less probably than one hundred and fifty ever reached the ocean!"

PEACE CONGRESS.—Elihu Burritt and Rev. Henry Richards have returned to England from Paris, where they have been making preliminary arrangements for the great Peace Congress, which is to be held in that city in the month of August. Some of the leading men cordially approve their object.

CALIFORNIA NEWS VIA MEXICO AND MOBILE.

The raw head and bloody bones stories which have reached us by telegraph of the terrible state of things in California, are as we supposed, very apocryphal, being founded upon rumors of Mexican origin. Our space will not permit us to expose the fallacy of most of the features of the news by this arrival. The following is all the reliable information we can glean from the New Orleans and Mobile papers.

We have received, says the Picayune, intelligence from California, through the politeness of Mr. James B. Weller, who came passenger in the British steamer Clyde from Vera Cruz. The news he communicates of affairs in San Francisco reaches to the 10th of May, the prerise date of the letter published in the *Tepic Gaviota*, in which the story of Gen Smith's flight from the insurgents in California is recorded.—In Mr. Wedler's narrative we find not a word corroborative of this painful intelligence, and therefore conclude that it is entirely unfounded.

A party of foreigners had just returned to the city of Mexico from California, having left San Francisco on the 18th of May. They reported the country in a miserable condition, and both life and property unsafe. The rainy season had set in, and the placers were covered with water; every thing was more plentiful than gold dust. A great many vessels had arrived, and were still arriving with goods, which could be purchased nearly as cheap as in the States. A large number of persons had arrived at San Francisco, and were in a miserable condition, there being no houses to shelter them, and many had landed without a dollar in their pockets. One party, six in number, had returned disgusted, and report that when they went out in the mines, they were met by men who took away their provisions, &c., without any ceremony.

Mr. Skinner, who went out to establish a telegraphic line from Vera Cruz to the city of Mexico, has returned without accomplishing his object.

A survey has just been completed of the Tehuantepec route, for a railroad across the Isthmus, by Mr. Ernaldo Obousier, a Belgian engineer, for Sr. Don Jose, who has obtained the sole right from the Government of Mexico. The report is very favorable and the road is said to be attended with no difficulties or obstructions from the head of navigation on the Coatzacoalcos river. Sr. Garay is now in the United States, trying to get up a joint stock company, for the purpose of immediately commencing the railroad.

Every facility is afforded to travellers for California at Vera Cruz, the Custom House officers being very obliging, all baggage and other articles being admitted free of duty. There will soon be a daily line from Vera Cruz to the city of Mexico, which will be extended to Tepic, the inland port of San Blas.

LATEST FROM BUENOS AYRES.

BOSTON, June 27th.

The brig Eliza Taylor, from Buenos Ayres arrived this morning. Her Captain reports that the troubles there were as far from settlement as ever. Rosas is thought to have no desire for peace unless he can obtain indemnity for his destroyed fleet.—It was rumored that a large force was on the way there from France.

Buenos Ayres was full of merchant vessels, mostly foreigners, many of which have been lying there for five or six months doing nothing. Hamburg and Bremen ships, which could not go home, were taking freights of hides to the U. States, as low as five-eighths of a cent per lb.

The brig Seguine was to sail for California on the 7th May with 60 passengers, mostly Portuguese and English. The brig Hyder Ali was to sail in 20 days for California. Produce was scarce and high.

WHAT THE ISTHMUS RAIL ROAD WILL DO.

According to the estimate of the Hon. T. Butler King, when a railroad across the Isthmus is completed, with the aid of steamers of a speed of twelve miles an hour the voyage from New York will be completed in the following time:

To Calcutta in 47 days.
" Canton in 36 days.
" Shanghae in 35 days.
" Valparaiso in 17 days.
" Callao in 12 days.
" Guayaquil in 9 1-2 hours.
" Panama in seven hours.
" San Blas in 12 hours.
" Mazatlan in 14 hours.
" San Diego in 16 hours.
" San Francisco in 18 hours.

FISH ON FRIDAY.—Bishop Hughes in a discourse, delivered in New York, concluded by saying, that as the use of fish had been prononnced by the medical faculty as inducive of the cholera, he had by virtue of the prerogative invested in him, suspended that law of the church which prohibited the use of meat on Friday from the present time to the 18th of August, should the cholera continue.

A GREAT SPECULATION.—The best speculation in California of which we have heard, was that of a loafer who stole a hen, and invited four returned miners to dine upon her, at the reasonable rate of $5 each. In preparing the hen for cooking, our loafer found in her craw two ounces of gold. After partaking freely of the hen, the loafer found the following to be the profits of the transaction: For four guests at $5 each $20; for two ounces of gold found in the hen's craw, $32—Total profits of the hen $52.

PIGEONS abound in great numbers in Wisconsin, some portions of the State being completely covered with them. The sportsmen were slaying them by thousands.

The Siamese Twins have passed through Baltimore on their way home again, having concluded to postpone their tour of the country, and visit to England, until the Cholera has passed away.

The loss of the Messrs Hildeburn & Brother by the robbery of their Jewelry store is not near as heavy as was at first supposed. The goods stolen, it has been ascertained, amount only to about $6500.

DEPTH OF THE SEA.—According to the report of the Coast Survey, the depth of the sea of Cape Hatteras, is 19,800 feet!

FATAL ACCIDENT.—Samuel Young, formerly proprietor of the Washington Hotel in Philadelphia, was killed on Monday by being crushed between the cars at the depot.

KILLED BY LIGHTNING.—A young man named Jas. Barton, aged 18, was recently killed by lightning, at Detroit.

GOV. DORR.—The Senate of Rhode Island have non-concurred in the bill restoring Thomas W. Dorr to his civil and political rights, and the vote stood 13 to 19.

MARRIED.

At Mount Peru, Baltimore county, by Rev. Mr Hildt, Mr Oathman Malcom of Boston, to Miss Mary P. Stockham; of Harford county, Md.

DIED.

Near Chester Town, of Scarlet Fever, Eaton Crawford, son of Thomas Crawford, aged 10 years and 11 months.

In Cambridge on Friday the 23d ult., Mr James M. Jones, former editor and proprietor of the Cambridge Chronicle.

At his residence, near Bell Air, of Pulmonary Consumption, Mr William Baker.

At Airry Hill, on the 27th of January, William Solomon, only son of Mr Solomon Spear; aged 9 months.

CONSTABLE SALE.

BY virtue of 3 WRITS of the State of Maryland of *Venditioni Exponas*, 2 at the suit of Joseph Usilton and one at the sunt of James Buckanan, issued by Wm. S. Lassell one of the Justices of the Peace in and for Kent County Md., against the *LANDS* of Phillip Garrison fn. to us directed, we have seized and taken in Execution, all the right, title claim and interest of the said

PHILLIP GARRISON,

JOHN L. STAM, P. M.

Chester Town, July 7, 1849.

HIGHLY IMPORTANT

TO HOUSE-PAINTERS, HOUSE-KEEPERS, AND OTHERS.

Valuable Discovery in the Art of Painting

James Cuppuck, of Mount Holly, N. J. has discovered a new process of preparing and mixing common white lead paint and all delicate colors, by which their liability to change and lose their color and lustre in the shade or dark is completely obviated.

It is a well known fact that white paint in parlors and other shut-up rooms, in passages and behind doors and shutters almost invariably assume a dirty, smoky, yellow hue, soon after being applied, when excluded from the direct rays of light.

Every good painter must desire to remedy this acknowledged evil, This he may now easily and cheaply do, and be enabled to perform good work that will be useful and satisfactory to his customers, and thereby secure him increased patronage by embracing the present opportunity to avail himself of this desirable improvement in his art.

Please call at this office to examine certificates, &c. and to learn how the necessary information may be obtained.

In Chancery.

JUNE 25th, 1849.

ORDERED, that the sale of the property in the cause of Wilkins and Wife, against Merritt made and reported by the Trustee, Richard Hymon, be notified and confirmed unless cause be shown to the contrary, on or before the 25th day of August next, provided a copy of this order be published in some newspaper in Kent county, once in each of three successive weeks, before the 15th day of August next.

The report states the amonnt of sales to be $3500 00.

True copy,
Test. LOUIS GASSAWAY,
Reg. Cur. Can.

July 7, 1849.

GRAIN FANS.

☞*WARNING TO THE AGRICULTURAL PART OF THE COMMUNITY.*—There are men halling Wind Mills, or Grain Fane about trying to deceive the public by telling them they are the same as mine, and to some people they tell anything to effect a sale. I am under great obligation to the Agricultural part of the community for the patronage bestowed on me for the last three years, in Nashville Co., Del., second to none for enterprise; and also to those of Cecil, Kent and Queen Annes and other counties in Maryland. Be cautious who you buy fans from, as there are some men making fans and using my invention without paying me for it. I have the Patent Right for the whole United States, and have never yet sold any Rights to any one. My Patent is dated at Washington D. C, March 20th, 1847.

I have made great improvements in my $5,000 Premium Grain fans, within the last 2 years, having put in an additional improvement so as to use 2 screens at once, and screen out all the cockle and cheat and leave the seed grain clear of all impurities.

All grain fans, that are genuine have my name on them "J. Bamborough, Latest improved, Premiums awarded 18 times, Letters; Patent March 28, 1847;" No. 5500 on the directions. I am making 300 this year in Elkton, Md.; also, in Lancaster city, and New Hope, Bucks county Pa. Orders sent to either of these places, will be thankfully received and punctually attended to. Wholesale or retail, different prices and sizes. Patent rights for sale at reasonable rates I can give 4,500 recommendations if necessary, but I think a fair trial and they will recommend themselves.

Be cautious who you buy fans from; unless my name is on them I will hold the purchaser or the user responsible for my patent right. I am very much pleased to think my patent grain fans are justly spoken of, but I think the public had better be on their guard not to be deceived by impostors. Look and see if the fans have marked on them, "J. Bamborough, Latest Improved, Premium awarded 18 times, Letters patent, March 20th 1847." Eight premiums were awarded to me last fall, and 2 silver medals for the best grain fans. "A word to the wise is sufficient. JOHN BAMBOROUGH, Patentee.

N. B. My fans are painted blue this year, and they cannot be excelled by any others in the United States, to my knowledge, and I offer a premium of $15,000 if they are excelled satisfactorily. Patronise Home Industry. I have been 16 years in the business.

"We would sooner have one of J. Bamborough's combined, Patented, Latest improved Premium awarded 18 times and 2 silver medals, grain fans, than any other we ever saw or used. Recommendations similar to the above from thousands of persons in Del, Md. Pa, and N. J.

Orders sent for fans will be attended to and they will be delivered 200 miles and upwards. Wholesale and Retail by J. Bamborough, Patentee.

July 7, 1849.

☞ TO RENT.

FOR the ensuing year, the houses now occupied by Mr Jno. Ford, Mr Thos. Carroll, Mr B. F. Calder and Mrs Solomon Barrett, also the shop occupied by Mr B. B. Ewan.

G. VICKERS,
Agent.

Chester Town, July 7, 1849. 3w
