## CHESTER TOWN, MD.

**Saturday, July 14, 1849.**

The Odd Fellows from Annapolis, on an excursion from that place, paid our healthy and peaceful village a visit yesterday, in the Steamboat Columbus. We were highly gratified in observing the appearance of those composing the excursion. which were of the highest order and respectability. The company of Sharp Shooters, from Baltimore, will pay us a visit on Monday next.

☞We learn from the Centreville Times that a *blooming* Miss of sweet 16, with her ten thousand solid charms, was borne off from paternal *duresse* on Tuesday last by a son of Cripson. A minister of that place made the happy twain one, before paternal authority could interfere to baffle lover's plans.

MARYLAND HARVEST.—We learn from the Hagerstown Pledge, that the Farmers of Washington county have nearly all secured their wheat. The weather has been very favorable for the harvest hands this season, which has enabled them to secure the reward of their labor, in the best manner. The crop of the county is a good one, and will yield better than was expected.

☞Mrs Madison the venerable and respected widow of Ex-President Madison, died in Washington the 9th ult., Her death says the Union will leave a void in society here, not easily to be filled. She was upwards of 80 years of age.

☞The health officer of Savannah says to the citizens (and we think they would be very applicable to our own) in the language of Shakspeare improved—

*lay on the* LIME !

And *fined* be he, that first cries, hold enough !

VERMONT.—The Whig State Convention for Vermont met at Montpelier on the 4th inst, and nominated the present State officers for re-election by acclamation.—Resolutions were passed inviting President Taylor to visit Vermont during his proposed visit to the North.

☞Col. Duncan, Inspector General of the U. S. Army died at Mobile on the 2d inst. His death was occasioned by a fever, contracted by exposure to the intense heat in a journey on horseback from Mount Vernon Arsenal to Mobile.

☞The gold medal, ordered by Congress to be struck at the Philadelphia Mint for Gen. Taylor in honor of the victory of Buena Vista, has been finished, and was, last Friday, transmitted to the President by Adams & Co's Express. The medal is a most beautiful and faultless specimen of the skill of our artists, it cost $3000.

☞Of 311 deaths by cholera in New York, last week, 138 were natives of Ireland, 28 of Germany, 30 of other foreign countries, and 98 of the U. States.

☞A California adventurer, writing to his friends, says, that when he first went to the diggins he had'nt a *rag* on his back, but now he is *covered* with them.

☞A correspondent of the Baltimore Patriot, names Col. Charles M. Keyser the present State Senator for that city, as a candidate for Congress in the 4th district.

☞We learn that a serious riot occurred at Summit Hill, Carbon co., Pa. on the 4th of July. It seems that a constable, who interfered to quell the disturbance, was attacked by the rioters, upon which he drew a revolver and shot two of them, who have since died. Several others of the rioters were severely wounded.

FIRES.—A fire occurred at Georgetown. S. C., on the 4th inst., which consumed some eight or nine stores; a destructive fire also broke out at Cincinnati, which before it could be subdued, destroyed a considerable amount of property, and burnt 2000 kegs and 50 barrels of lard

A band of thieves, organized on the plan of the famous Morrel gang, have raised considerable excitement in Texas, by their extensive depredations.

Late accounts from St. John, N. B. speak in encouraging terms of the crops. Heavy rains had fallen, which had dissipated the fears of the farmer in relation to the hay crop.

The dwellieg house owned by Mrs A. C. Hammond of Easton, Md., was consumed by fire a few nights ago. Loss about $900.

CAPE MAY.—This fashionable watering place is rapidly filling up with a crowd of gay visitors.

### FOURTH OF JULY IN CANADA.

The Canadians have all at once become enthusiastic admirers of the United States and its flag, and some of them actually celebrated our late national anniversary. The Montreal Herald of the 5th inst says :

Yesterday public feeling was exhibited by the display of the 'stripes and stars' in two places in Montreal—one by a supporter of liberalism, formerly an active member of the Loyal Repeal Association, during the time that society enjoyed the distinguished patronage of some of her Majesty's present ministers, and was supposed to be useful in carrying elections for the liberal interest.

At St John's a similar display took place the flag having been fastened to the telegraph wires from whence, however it was speedily taken down by J. Mott, Esq., the mayor.

Another large flag was also hoisted at Chambly, at which place, we believe, there was some little rowing thereupon, but we have at present no reliable information on the subject.

Three months ago, there were men in Montreal to whose vigor Lord Elgin can testify, who would soon have torn it to shreds. To day the 'star spangled banner' may be hoisted not only with impunity but with the good will of those who used to boast themselves as British.

Our mad ministry are still in such an indescribable state of undefined terror of something or somebody, that the troops in the garrison were under arms all day.

## CANADA.

### IMPORTANT FROM CHINA.

Our advices from China are of a more important character, and, as already intimated, are a month later.

The dates from Canton extended to the 25th of April.

Contrary to expectation, the Emperor of the *Chinese has refused to open the trade of Canton to the British upon co-existing treaties.*

This determination may give rise to very serious occurrences, as the British Government will, no doubt, insist upon their rights.

In commercial matters we do not find any thing of importance to communicate.

### IRELAED.

THE STATE PRISONERS.

The convicted traitors, Smith O'Brien, O'Donohue, Meagher, and Mr. Harris, are still at Richmond Bridewell; but poor O'Dogherty and John Martin are lying off Cork, waiting for their companions in Dublin.

It was expected in Dublin that owing to the undue precipitancy with which the bill of Lord Campbell was introduced and carried through the Lords, that it would, ere this have passed the last stage in the Commons.

Our Dublin correspondent, who is often at the halls of the Four Courts, writes a lengthy communication, in which he gives us to understand that although the treason trnsportation bill may become law, Smith O'Brien's counsel have yet a good case on which they mean to try to bring off that sterling patriot.

Notwithstanding all the evasion, the Petty, subterfuges, and the sneaking denials of Sir George Grey in the House of Commons, it is now said that the pardon of Mr. O'Brien and his rebellious colleagues has actually passed the sign manual, and that when this document is produced, as it must be, it will then be shown by the prisoners' advocates, that the legal effect of the document is to reduce the sentence to which the prisoners are, at this moment, subject to one of imprisonment.

### ITALY.

ROME NOT YET CAPTURED.

Intelligence of a late date has been received from Rome.

The French had made renewed overtures to the Romans, but the latter had refused to accept them.

The city is said to have sustained, after the refusal of the French overtures, a twenty hours' attack without any breach being effected

Gen. Oudinot is said to have used every means in his power to induce the Triumvirate to capitulate, and thus save the effusion of blood which must follow from the storming of the city.

### THE THREE MURDERED PRIESTS.

The Rome correspondent of the London *Morning Chronicle* speaks as follows of the story that three priests had been massacred by the people :

I observe that a story of three priests cut up into mince-meat and thrown into the Tiber, some time back, has been dwelt upon in some journals, and seems to have attracted considerable notice. I happened only to hear of the circumstance through a foreign newspaper, or I should of course have given you a correct version of it. On inquiry, I found there is this much foundation for it: On the 1st of May, the day after the first French attack, four men, supposed to be French or Pontificial emissaries in the disguise of priests attempted to institute a reactionary movement in the Trastevere, the quarter of Rome whose inhabitants have been generally considered most attached to the Popes. I am informed that they fired upon the men (National Guards and others) employed on the barricades at Porta Angelica, which lies just under the Vatican and was one of the points which the French had struggled to carry. In the exasperation of the moment they were actually dispatched on the spot, and their bodies cast into the Tiber. I believe that, under the circumstances, similar conduct would probably have produced a similar result in most other cities of the world.—There is nothing half so horrifying in the story as there was in a hundred anecdotes of the sanguinary contest of Paris in June last year.

### DENMARK AND HOLSTEIN.

THE WAR GOING ON.

By an official report from Adjutant General Dietaichsen, we learn that the bombardment of the fortress of Frederica was renewed on the 14th and 15th, but not much damage was done. At the Sundwitt, on the night of the 14th and 15th, there was some skirmishing.

### SPAIN.

MORE TROOPS FOR ITALY.

Gen. Zebala left to-day to take command of the new expedition to Italy. The expedition is expected to sail on the 20th or 21st.

### AUSTRIAN TREASURY HARD UP.

The Ministers, who are on the last legs in financial matters, adopted on June 10th, the extreme measure of driving some Jewish dealers is money by soldiers out of the Exchange. The alarm occasioned in the Financial world by this extreme policy had not subsided when a report was circulated that some bank notes of 700 florins, of which 50,000 from a sacred reserve of the bank, had been seen in private hands. The Government paper, previously at a heavy discount, immediately fell 4 per cent and the bank shares 50 florins.

### EUROPEAN ITEMS.

NICHOLAS IN AUSTRIA.

The Emperor Nicholas arrived at five on the morning of the 14th inst. from Warsaw, by a special train, at Matksky, and continued his journey without stopping to Cracow. The Czar was accompained by one of his sons and Paskewitch, and would not stop at Cracow, but got on to the headquarters of the army in Gallicia. At eleven on the same day the Archduke William posted through Cosel, on his way to Cracow to receive the emperor.

### GEN. BEM AND SUPERSTITION.

In Gallicia the sympathy for the Magyar cause was on the decrease, more especially for Gen. Bem; and the clergy were at work—not on tha nobility, for that was superfluous—but on the people, both in town and country. Superstition was called in as an auxiliary agent—such as little portraits of Bem pressing the Virgin Mary to his heart; prayers, for instance, Bem's orison and his battle prayer, were circulated by thousands among the pensantry; and marvellous tales of miracles pass from mouth to mouth—thus, Father Bem had been judged worthy of a special revelation of Heaven, commanding him to build a church in Warsaw.

### LATER FROM YUCATAN.

The New Orleans Picayune has advices from Mexico to the 18th ult.

The Beletin of the 16th contains an account of a sanguinary affair between the Yucateco troops and the Indians, which took place at the distance of a league from the town of Tituc and in which the former were routed with great slaughter. It appears by the report of the commanding officer Col. Don Jose Doloxes Pasos, that for want of provisions he was obliged to evacuate Tituc with his detachment, consisting of 525 men, which was effected on the morning of the 11th. When distant one league from that town he was intercepted by an overwhelming force of Indians who attacked them with great fury.—After standing their ground until a large number was slain, the Yucatecoes fled, leaving all their baggage, amunition, &c., in the hands of their foes.

Of the whole detachment only 187 with their colonel made their escape. They managed to reach Sabau, carrying off only two officers and fifteen soldiers of the wounded.

### THE FIRST BATTLE IN CANADA FOR ANNEXATION.

A Quebec paper, the Canadian Independent, contains the following paragraph, which shows that the war spirit prevails to a considerable extent among the city Council at Quebec :

On Friday last, at the ordinary session of the City Council one of the members proposed a motion, of the nature of which we are ignorant, but which another member objected to, remarking at the same time, that in three months we would be Americans. Hereupon the member who had brought forward the motion, crossed the hall, and administered a tremendous blow to his opponent, which prostrated him on the floor. The war spirit communicated to others, and the combat threatened to become general, when the Mayor called in the police, who put an end to the quarrel, and ejected the audience.

### UNITED STATES LOAN.

The following amounts of Government Stock on foreign account, were issued since the last statement, and to the 6th of July 1849, inclusive :

| | | |
|---|---|---|
| Loan of 1842, | - - | $54,000 |
| " 1843, | - - | 24,000 |
| " 1846, | - - | 3 000 |
| " 1847, | - - | 387.100 |
| " 1848, | - - | 83,806 |
| | | $562 800 |

There has also been issued $465;000 in Coupon bonds of the loan of 1848 which is supposed to be on foreign account.—There yet remains to be issued of the loan of 1848, $167, 000, which comprises all the disposable stock under existing laws.

### LETTER FROM A BALTIMORE CALIFORNIA PARTY.

DEATH OF A MEMBER.

We have been politely favored with the following extract of a letter from Mr. Levi S. White, a member of the Friendship Association of Baltimore, en route for California.

ACAPULCO, Mex., March 28.

We arrived here yesterday from Panama, in the British barque John Ritson, after a tedious and unpleasant passage of 42 days during which we met with a succession of calms which prevail on this coast. There are at this place twenty Americans who will go with us to San Francisco.—They came across through Mexico, and have been here six weeks waiting a passage. We have been so unfortunate as to loose the reof our passengers since we left Panama—one of whom, I am sorry to inform you, was our friend, Mr. Battie Gill, who died of typhoid fever off the coast of Gautamala, on, the 7th of March, after an illness of a few days. His sickness was caused by over exertion and too much worriment of mind. His son, Rawson, is well, and is under the charge of Dr. Deal and Mr. Bowly. The other deaths were not of our party from Baltimore.—One was a young man by the name of Stetson, from Boston, and the other, named Boss, of N. York. They also died of the same disease. The whole number of passengers are now in good health. We put into this to procure provisions and water, having been for the last twenty days without sugar or molasses, and for the last six days on an allowance of provisions. We have obtained sufficient, and will leave here to-morrow.

### THE ILLNESS OF HENRY CLAY.

CINCINNATI, July 7.

We are happy to state that the Hon. Henry Clay, who was announced, by telegraph, as having been attacked by cholera on Tuesday, is recovering, and his physicians have pronounced him out of danger.

*The Canadian Indemnity Bill.*—Five commissioners have been appointed by the Governor General of Canada, to examine the applications for payment of losses under the Rebel Indemnity Bill.

### AN EDITOR ASSAULTED.

Edward Z. C. Judson, commonly called "Ned Buntline," an editor of a weekly newspaper, published in New York, called "Ned Buntline's Own," was violently assaulted yesterday at Guy's Saloon, in seventh street, at the hands of Edward McGowan, formerly a police officer in Moyamening. McGowan struck him over the head with a cane, and is represented as having beaten Judson severely. The cause is presumed to be publication of articles in Buntline's paper, affecting the character of McGowan.—*Ledger.*

## FEVER & AGUE

Chill Fever, Dumb Ague, Intermittent & Remittent Fevers, & all the various forms of Bilious Diseases SPEEDILY & THOROUGHLY CURED by Dr Osgood's India Cholagogue

THIS medicine was prepared by a regular physician and is the result of an extensive practice of several years, in a bilious climate. It is entirely a vegetable preparation, and may be taken by any one with perfect safety to the most delicate constitution.

Numerous certificates from men of the highest respectability testifying to the great efficacy of this medicine can be seen on application to the undersigned.

The following extract is from the 'Farmer's and Emigrant's Hand Book,' a valuable work of about 500 pages, recently published by Messrs Appleton & Co., New York. In chapter 8, page 535, the author in speaking of Fever and Ague, remarks :

'There is a most admirable medicine sold in most of the Western cities which we can conscientiously recommend for FEVER and AGUE and other bilious diseases, it is the India Cholagogue which is prepared by Dr Osgood of New York, who has made the billious disorders of the West his special study. We are no friend to those medicines usually called patent, but we have had ample opportunity of knowing the invaluable effects of the Cholagogue, in billious cases.'

Extract of a letter from Messrs Scattergood, Haverstick & Co., of Philadelphia;

Dr. C. Osgood,—Respected Friend,—We have had occasion to see the good effects of thy medicine, in the case of young man who had been troubled with chills a long time and could not get clear of them but since he commenced taking a bottle of thy preparation has entirely recovered, and is now becoming quite stout.

Respectfully thy friends,
SCATTERGOOD & HAVERSTICK & Co

From Rev. Charles Reighley, Chaplain of the United States Army to the Agent at Detroit :

My Dear Sir—I feel not the slightest hesitancy in saying that I consider the Indian Cholagogue an invaluable medicine in billious affections. My reason is simply this,—I have used it. On my recommendation many others have used it; and I have yet to learn the instance in which it has failed to effect a cure.

Respectfully,
CHARLES REIGHLEY.

A small treatise on the 'causes, treatment and cure of Fever and Ague and other diseases of bilious character,' may be had gratis of the following agents :

Wiley & Perkins, Chestertown.
