KENT NEWS

CHESTER TOWN, MD.

Saturday, Nov. 10, 1849.

COMMITTED TO JAIL.—A man named Samuel Milburn, a resident of Delaware, was committed to our jail on Tuesday last, charged with breaking into the house of Mr. Stapleford, near Millington.

THE AMERICAN FARMER for November has been received, it is filled with useful and interesting matter for agriculturalists. Published in Baltimore, by Saml. Sands, at the low price of $1 per annum.

☞The Baltimore American of Tuesday and Wednesday last, failed to arrive at the Post Office in Chester Town, by the mail on Wednesday night. These failures often occur to the disappointment of farmers who send regularly for their papers, and many of them censure our worthy Postmaster at this place, for not receiving them. Can the Postmaster at Elkton tell us where the fault lies?

THE ELECTIONS.—Mississippi and Louisiana elections took place last Monday for state officers and members of Congress—New York and Wisconsin, on Tuesday and the election to fill the vacancy in the 15th Congressional district in Virginia will be on the 8th.

A LARGE POTATO.—The editor of the Worcester Shield, received a present, of some sweet potatoes, from Col. Cottman, among them was one weighing 5 lbs. 10 oz. Worcester county was always famous for her large sweet potatoes and pumpkins.

☞The Washington correspondent of the Baltimore Sun, under date November 6th, says:

The rumor that Mr. Bullitt, of the Republic is about to be appointed Charge to Naples, is very current and very plausible. As the appointment was given to Louisiana, in the person of Mr. Chinn, who was obliged by ill health, to decline it, it is not improbable that it will again offered to Louisiana. But for Mr. Bullitt, a better place ought to be assigned by rumor than that which is mentioned. We have two ministers in Germany, both with full salaries, and occasional constructive outfits, who will probably soon be recalled, if they have not been already. I mean Mr. Hannegan and Mr. Donelson. In the former case, we have the benefit of a court without a minister, and the latter of a minister without a court. These nice things ought certainly to be distributed to the Taylor party.

I understand that B. Everett Smith, Esq. of Maryland, who is of the editorial fraternity, has, to-day, received his appointment as Consul to Turk's Island—which place is worth about two thousand dollars a year.

We are pleased to hear this appointment has been made; Mr. Smith, is a native of Kent county, a gentlemen of fine talents and his appointment as Consul to Turk's Island's, will meet with the approbation of the great Whig party of the Union.

TALBOT COUNTY CATTLE SHOW.—This exhibition took place at Easton last week, and notwithstanding the inclement weather, the display of Live Stock was large and highly creditable to the farmers. The Gazette says:

A large number of agricultural implements were exhibited, principally we believe from the manufactories of Sinclair & Co, and Maxwell, Mott & Co., of Baltimore. The display of vegetables was larger, and of better quality than we ever before witnessed, far exceeding, we are told the display at the State Fair, lately held in Baltimore. Various kinds of preserved fruits, &c., were exhibited; also a number of splendid quilts, household and fancy articles, beautifully wrought, the handiwork of the fair wives and daughters of our citizens, which attracted much attention.

On Friday, the last day of the show, the ploughing match took place, an address was delivered by Dr. Thompson, of Wilmington, Del., and the premiums awarded.

MARYLAND STATE FINANCES.—The Maryland Republican states the surplus which will be in the treasury at the expiration of the financial year at $400,000 instead of $500,000, as has been heretofore stated. Very good. We are satisfied with that surplus, even if it should not be increased; for it will enable the State to extricate itself from debt in a comparatively short time. But there will be an increase of surplus even during the present year, for the Baltimore and Susquehanna Railroad Company has paid into the Treasury some twenty thousand dollars more than was estimated by the Treasurer. We have only to hold on to the present revenue system for a few years, and we shall be free from debt.

DEAD.—We are pained to record the death of Hon. Richard Thomas, of St. Mary's. Mr. T. was for some time President of the Senate, and was respected and beloved by all who knew him.

NEW YORK ELECTION.

The whigs appear to have carried this State again, notwithstanding the apparent union of the Locofocos. The officers voted for throughout the State, were Judges, Secretary of State, Controller, Attorney General, &c. In the city of New York, where there were 92 places for holding the polls. The number of regular candidates for the various officers to be filled, was as follows.

Eight different State officers	16	candidates.
Four members of Senate	8	"
Six teen members of Assembly	32	"
Four Judges of different Courts	6	"
Ten different city officers	20	"
Votes on New School Law	2	"
Eighteen City Alderman	36	"
Eighteen Assistant Alderman	36	"
Thirty-six Assessors	72	"
Thirty six Constables	72	"
184 Inspectors of Election	368	"
Nineteen School Commissioners	38	"
Twenty School Trustees	40	"
Eighteen School Inspectors	36	"

Making up a total of 784 candidates.

The whig majority for Sheriff, in the city, is 1686, and for the State officers from 1800 to 2000. The whigs also elected 10 out of 16 Assemblymen, and 11 Aldermen, out of 18, and have 11 of the Assistant Aldermen, giving them majorities in both branches. All 4 of the Senators are whigs. The locofocos elect the County Clerk.

The noted Patrick Kelly has been re-elected an Alderman in the 6th ward.

The election passed off without any serious disturbance. Seven men were arrested for illegal voting.

According to the Herald the vote in the city stands as follows:

	1849.	1848.
Whig,	19.099	29,056
Locofoco,	17.489	24,314

Being a decreased of 13,370.

The Tribune sets the vote down this year at 20,018 for the whigs, and 18,096 for the locofocos.

In King's county the whigs maj. is from 500 to 745.

In Queen's county the whig Assemblyman is elected.

Albany gives a whig majority of about 600, and in Buffalo it is 48.

Genesee county gives 1000 whig majority.

Ontario gives 600 whig maj.

MILLINGTON BANK CASE.—We learn from the Washington Republic, that before the Circuit Court, on friday, the case of Priscilla Wilkinson, vs. Wm. H. Williams, was taken up, and had not concluded at the adjournment of the court. This was an action to recover six hundred dollars, the purchase money of a negro man sold to the defendant. It appears that on the 25th of September, 1840, Wilkinson sold the negro to Williams, and that the purchase-money was paid by one Rodbird, an agent for Williams, in notes of the "Commercial Bank of Millington," Maryland. At the time of the sale, the notes of the above bank were redeemed at the Chesapeake Bank of Baltimore, and continued to be as redeemed till the 10th of October, 1840, when the Chesapeake Bank announced that the credit of the Millington Bank was exhausted. On the 12th or 13th of October, the Millington Bank, situated in Kent county, Maryland, closed, and the notes became worthless. The plaintiff charges that Williams was an agent of the bank in getting its notes into circulation, and that his payment for the negro in the notes of the bank, was a part of the proceedings followed by those concerned in that swindling institution.

A CLERGYMAN IN TROUBLE. Rev Mr. Meiser and Dr. L. Coleman, have been arrested in Philadelphia, charged with conspiracy, and the former person also with larceny in taking forcible possession of some papers belonging to Mrs. E Hopkins and her two daughters. Meister, it appears, has a family in Europe, but wanted Mrs. H. to marry him, which she consented to do if he would procure a divorce from his present wife. She paid a visit to his boarding house last week, when he locked the door, and kept her there two days, during which he managed to get a conveyance of her property. The affair is being investigated.

APPOINTMENTS.—John W. Farrelly, of Pa., to the Sixth Auditor of the Treasury in place of Pete G. Washington, removed.

R. H. Moore to be Coiner at the Branch Mint, Dohlonega, Ga., in place of D. H. Mason, removed.

Gabriel L. W. Long, of Alabama, to be Indian Agent for the Chickasaws in place of Mr. Upshaw, removed,

Tench Tilghman, of Maryland, it is said has been offered the Consulship to Porto Rico, and Samuel W. Piersoll, of Pa., Consul to Buenos Ayres.

OUTRAGEOUS ASSAULT.—While Mr. James Richardson and his son, of this county, were returning from Kent county (Del.) Court, on Tuesday night of last week, they were attacked on the road by a party of ruffians, some four or five in number, and assaulted in a most outrageous manner. Mr. Richardson informs us that they cut the sides and top of his carriage literally to pieces, and that the only way by which they could make their escape, was by putting whip to their horses which succeeded in outrunning those of the assailants.—*Denton (Md.) Jour.*

JENNY LIND COMING TO AMERICA.—The Philadelphia Bulletin learns from what it considers pretty good authority, that Jenny Lind seriously contemplates coming to America, and that an agent of hers came by the last steamer, to make some arrangements for her.

LATEST FOREIGN NEWS.

ARRIVAL OF

THE WASHINGTON.

The steamer Washington arrived at New York, on Tuesday last from Bremen and Southampton. She brings London papers of the 20th October, one day later than those by the Hibernia.

The Washington has a very heavy and valuable cargo of German and French Goods.

She brings also 150 passengers, among whom is the Hon. R. Rush, late Minister to France, and Bishop Southgate.

The Havre Cotton Market, at the latest dates was very firm and active, and a further advance had taken place in prices.

It is said that the difficulties between President Bonaparte and the majority in the National Assembly have been fully adjusted.

Fresh excitement had taken place in Hungary. It is said that some of the first Nobles of the Kingdom were condemned to death, and that the thirst for blood was almost insatiable.

The Turks are busily engaged preparing for war.

The English and French fleets are on their way to the Dardannells, and the indications are in favor of hostilities with Russia.

Advices are received from Paris to the 19th October, which state that during the debate in the National Assembly, on the Roman question, an alteration occurred between M. Theirs and M. Bixlo.—The latter declared that the former had said that the election of Louis Napoleon would be a disgrace to France, whereupon Theirs demanded satisfaction and a duel was immediately fought with pistols, but neither party sustained any personal injury.

A Paris paper states that the Russian Charge at Paris, had made known to the Foreign Ministers that Russia would regard the entrance of the French fleet, into the Dardanells as a declaration of war.

Advices have been received from London, at Liverpool, to the 20th October, stating that the steamer Severn, which left Jamaica on the 22d September, brought one million of specie on merchants account, and eighty-five thousand dollars on account of Mexican demands.

LATER FROM MEXICO.

The New York Sun, which has files of papers from the city of Mexico to the 19th ult., (latest dates,) gives the following as an abstract of the news from that city, which, however, we are inclined to think, much exaggerated in what is said of annexation:

"There is no security to life or property in the republic, and even in the city of Mexico assassinations and robberies are committed in broad daylight, in the very face of the authorities, and yet they dare not move to prevent such outrages or punish the villians. We might translate columns of accounts of outrages by robbers in and near the city of Mexico, occurring during the month of October alone, while the chief news from the other States is similar, but more horrible, on account of the Indian depredations. The people are dissatisfied with the government. A large portion of them openly advocate annexation to the American Union as their only hope, while others call for the return of Santa Anna.

"Two pronunciamentoes have been made for his return, but the stronger party are in favor of annexation. El Sigo XIX is a stirring annexation paper, and tremendous war of words is constantly carried on between it and El Monitor, the government paper. The feeling in favor of the United States is very strong and constantly growing. Every one except those who are in power regret the day the Americans left the country, and long for their return. If Americans could be induced to emigrate in large bodies and settle in Mexico permanently, they would be gladly received. They could obtain all the land they desired free of charge, and become owners of any mines they might discover.

"Henri Herz left Mexico October 9th, for Queretaro, where he was to give a concert.

"A new line of fast stages between Vera Cruz and Mexico has just commenced operations. They go through in four days.

"The Mexican papers speak of interference of England in Nicaragua as totally unwaraented, and think that the pretended Musquito territory is as much a part of Nicaragua as the State of Vera Cruz is of Mexico, notwithstanding the 'claim' of the Indian King, and the 'protection' given him by England.'

BISHOP ONDERDONK.—A long memorial has been published in New York, signed by a number of clergymen and laymen, addressed to the Bishops of the Episcopal Church in this country, against the restoration of Bishop Onderdonk to his official function. After discussing various questions connected with the subject, the memorial charges that the Bishop's offences are "such as to preclude his restoration under *any* circumstances"—that he is not of "good report" in the diocese—many, of both clergy and laity having "no confidence in his moral purity."

ANNEXATION OF CANADA.—The Grand Master of the Orangemen at Bytown has come out with an address to the members of all British North America, prereremptorily denouncing annexation as utterly disloyal and revolutionary, threatening disaster and danger to the country, and menacing the peace and safety of the people.

It is said that Quebec is scarcely behind Montreal is pressing the question of annexation to the United States. A manifesto in favor of the project is now in circulation in Quebec, with 700 names attached, of men mostly in high standing in that city, of both French and English origin.

HOUSE OF REFUGE MEETING.

A large number of the citizens of Baltimore assembled at Brown's Saloon, Baltimore street, on Monday evening, with a view of aiding the erection of a House of Refuge for the Reformation of Juvenile delinquents in that city. This is what has been long wanting in Baltimore, as following brief speech will show:

The Hon Wm. Fell Giles was then introduced to the audience, who arose and offered the following:

Resolved, That in view of the urgent necessity for the establishment of a house of Refuge in this city, and of the high claims of such an Institution to the attention and support of this community generally—the Board of Managers be requested to appoint an agent or agents to canvass to the city for the purpose of obtaining subscriptions to aid in its establishment.

Mr. Giles followed in an address replete with interesting and important statictical facts. Allusion was made to the praiseworthy and successful efforts twenty years ago, of a humble cobbler of Portsmouth, England, who used every effort to reform the evil boys of that city, and taught during his life some 500 of them. The efforts of Mr. Watson, late Sheriff of Aberdeen, Scotland, in establishing Industrial Schools in that city, and their success was also shown. The first House of Refuge in this country were in New York in 1825, in Philadelphia in 1828, and in Boston in 1836. In each of these cities juvenile depravity has decreased, whilst in Baltimore it has increased. In Baltimore in 1840, in our Criminal Court, there were 1203 indictments of crimes, exclusive of license cases, and in 1848 there were 1569 indictments, showing an increase of 356 in the number in ten years. The majority of these cases were under 25 years of age and more than one-third were under 20 years of age.

In 1840 there were 1,252 commitments for crime to our jail, but in 1848 there were 1,551 commitments. In 1840 the juvenile commitment were only 21, but in 1847 they were 126, and in 1848 they were about 100. This shows a fearful increase of crimes in the young of our city. Idleness, said Mr. Giles, is the fruitful source of crime, especially with the young, and it is to their reformation, their care, we should direct our attention.—Of the number who have been inmates of the New York Asylum, the Directors assert that three-fourths has gone away thoroughly reformed. The subject was forcibly impressed upon the audience in a very eloquent address.

The resolution offered by Mr. Giles was put by the chairman and unanimously adopted

Mr. Brown then stated that subscription books were now ready, and desired that persons would subscribe—that the Money would not be wanting before the first of the year as there would be several laws required to be enacted before the house would be commenced.

Subscriptions to the amount of upwards of $1000 were received, when the meeting adjourned. A very large sum is asticipated when the public are waited upon

THE SULTAN OF TURKEY, whose manly decision in behalf of the Hungarian exiles has been the admiration of the world, has given a oew interest to the description in person. In his expedition to the Red Sea, Lieut. Lynch thus speaks of the Sultan of Turkey:—

"He is a man young in years, but evidently of impaired and delicate constitution, His wearied and spiritless air was unrevealed by any indication of intellectual energy. My feelings saddened as I looked upon the monarch, and I thought of Montezuma. Evidently, like a Northern clime, his year of life had known two seasons only, and had leaped at once from youth to imbecility. His smile was one of the sweetest I had ever looked upon, his voice almost the most melodious I had ever heard; his manner was gentleness itself and every thing about him bespoke a kind and amiable disposition. He is said to be very affectionate, to his mother especially, and is generous to the extreme of prodigality. But there is that indiscriminately sad expression of his countenance, which is thought to indicate an earthly death. A presentment of the kind, mingle perhaps with a boding fear of the overthrow of his country, seems to prevade and depress his spirits. In truth, like Damocles, this descendent of the Caliphs sits beneath a suspended fate. Through him, the souls of the mighty monarchs who have gone before, seem to brood over the impending fate of an empire which once extended from the Atlantic to the Ganges, from the Cacausus to the Indian Ocean."

A "WHOPPER."—Woolman I. Gibson, Esq., brought into our office yesterday one of the largest Irish potatoes we ever saw—it was about twelve inches long and weighs *three pounds*. Mr. gibson informs us that he raised on less than one tenth of an acre of ground *forty-seven bushels*—making five hundred and five bushels to the acre. No one can say of these potatoes that they are "small and few in a hill."—*Cent. Sentinel.*

POST OFFCE ROBBER.—A young man by the name of Fuhrman, a clerk in the Post Office at Troy, Miami county in this State. was arrested some days since, at Zanesville, on suspicion of having abstracted a letter containing $2500 in bank bills,—when $2490 of the money was found in his possession. He confessed the crime.—*Cleaveland Plaindealer.*

The North Carolina Methodist Protestant Conference held its annual meeting on the 26th ult., at Whitaker's Chapel, Halifax county, Rev. W. H. Wills being chosen President. The reports show a nett increase of a little over 500 members.

UNITED STATES TREASURY.—We learn from an official statement of Mr. Meredith, the Secretary of the Treasury, that during the quarter ending the 13th of September, the receipts into the United States Treasury were, as nearly as can be ascertained, as follows:

From customs, about	$11,450,000 00
From lands,	370,000 00
From miscellaneous sources,	175,000 00
From loan of 1847,	839,450 00
From loan of 1849,	407,050 00
	$13,241,500 00

The expenditures for the same period were, $8,910,186 59.

A HARD CASE. A poor fellow, fresh from the "old country," entered Squire Hudson's office yesterday, and solicited him to tell him how he should go about getting possession of his wife, whom he declared had married another man, while he was in Ireland. He stated that several years ago, his wife left Ireland to come to this country, with the understanding that he should follow, but before the time came for him to come out to America, he received information that his wife had died. Under the belief, he had come to this country, and had for some time in New York, when, a few days ago, he was told that his wife was not dead, but was living in the city and married to another man. This information, he said, he had found to be true, and had discovered his wife living with another husband! He considered that he had the "best right" to her, and he wanted to know if "his honor" couldn't put him in the way to get his "dear lady" back again! The Squire gave the poor fellow all the *comfort* that his condition was susceptable of, and he departed to renew his efforts to recover his long lost "better half."—*Clipper.*

BALTIMORE CONNECTION WITH THE WEST.—Among the movements which are now being made in the State of Ohio, to connect with the Baltimore and Ohio Railroad, the Patriot understands that a route has been surveyed from Wheeling, through Cadiz, to the Ohio Canal; and that this route has been found entirely practicable and favorable for such a communication. A public meeting has been called at Cadiz, on the 10th of this mouth, to consider the propriety of a connection with the Baltimore and Ohio Railroad at Wheeling. We are glad to see the spirit which pervades the whole State in reference to the importance of an early connection with our great work.

THE PROVINCETOWN ROBBERS have been arrested in Oxford, Mass., and lodged in the Boston jail. They are two old frequenters of the State Prison, and are named Ebenezer and Abijah Learned.—They are charged with having, on the night of the 22d ult., stolen from the Iron chest of the Union Wharf Company, in Provincetown, $20,000 in bank bills.

DEATH OF A MEXICAN OFFICER.—Gen. Don Manuel Rincon, well known for his valor at the battle of Churubusco, lately died in the city of Mexico, highly respected as a soldier and a citizen.
