KENT NEWS

CHESTER TOWN, MD.

Saturday, Nov. 17, 1849.

THANKSGIVING DAY.

Thursday the 29th inst. has been appointed by Gov. THOMAS, as a day of thanksgiving by the people of Maryland. The same day has been appointed by the Governors of ten or eleven States. We presume that public service will be celebrated in our different Houses of worship. The Sons of Temperance are to have addresses delivered during a portion of the day. We hope that all secular business will be suspended and the day be appropriately kept. We have great cause to be thankful to an Over-ruling Providence, for our escape for sickness and for the many bounties bestowed upon us as a community and as individuals.

Handsome Yield of Wheat.

We learn from undoubted authority, that Mr. James N. Goldsborough of Talbot County raised the present year, on a Lot of 12½ acres 37½ bushels of wheat to the acre. A gentleman in Kent, visited the Lot during the first week in June—it was then in full head and measuring about 5½ feet high—presenting a beautiful appearance.

ACCIDENT.—Mr. Josiah Ringgold met with an accident, on Tuesday last, which came near proving serious. Mr. R. and his son, a youth about 11 years of age, went out partridge shooting, and while in the act of raising his gun to shoot the birds, which were flying near at the time, it went off, lodging the contents in Mr. R's back, below the kidneys. He was conveyed to his residence and Dr T. H. Whaland, was soon in attendance, who dressed the wound, and picked out some one hundred and thirty shot—since then, we are happy to state, he has been recovering.

LADY'S BOOK.—The December No. of Godey's Lady's Book, has been received. It contains 100 pages of reading matter, with 24 engravings, and is one of the richest he has ever published. We would advise all who wish to subscribe to one of the best Magazines published, to send on $3 to Godey immediately.

VIRGINIA ELECTION.—The election in the fifth Congressional district of Virginia, to fill the vacancy occasioned by the death of the Hon. Mr. Newman, locofoco, took place on Thursday, Friday and Saturday last. Col. T. S. Haymond, the whig candidate, is elected, which is a whig gain.

MASSACHUSETTS.—We have returns from the whole State with the exception of a few towns. Palfrey, free soiler, for Congress, lacks 3,000 of being elected—there is no choice in this district. The following is the vote for Governor:

Briggs, whig	49,092
Boutwell, loco,	28,069
Phillips, free soil,	23,250

Briggs, will fall short about 1200 votes of being elected by the people.

The whigs gain largely in the House, having a majority of about one hundred members.

☞London Gould, the negro tried in Queen Ann's county Court, last week, for harboring runaway negroes was found, guilty and sentenced to be confined in the Penitentiary for five years and eight months.

NEW LINE.—The large steam Propeller "Dupont," under the command of Capt. Henry J. Strandberg, commenced running on Thursday last from Denton to Baltimore.

☞Hon. Walter Forward, former Secretary of the Treasury, who has been appointed Charge to Denmark, has accepted the appointment.

MISSISSIPPI.—The returns come in very slowly from this State. Gen. Quitman, the Locofoco candidate for Governor, is no doubt elected.

ARREST.—Zebulon Phillips alias McClung was arrested by officer Zell, in Baltimore, upon the charge of having robbed Dr. Bee of Philadelphia, of three hundred dollars, principally in bills of the State Bank of Ohio. The firm having received a telegraphic dispatch from Philadelphia, containing information of the robbery and describing the suspected man, Mr. Zell stationed himself at the depot, and upon the arrival of the cars, immediately arrested him. A part of the money, $272, was found in his possession. He was fully committed as a fugitive from justice, to await a requisition from the Governor of Pa.—*Sun.*

Intelligence by the Cambria.

The Cambria arrived at Boston on Saturday. We have received our files of English papers, from which we make the following extracts, there being but little additional news of an exciting character:

Disturbances of a serious nature took place at Rheims on the 21st inst. It is reported, and generally credited, that a considerable movement of foreigners and ultra-democrats from the departments is taking place towards Paris, with what object is not yet clearly ascertained.

The Germanic States, annoyed at the prospect of being denomineered over by Austria and Prussia, are forming an alliance to counteract the new "dodge." Bavaria, Wurtemburg and Hanover, have taken umbrage at the conduct of the two great powers, and out of this quarrel, events may spring, calculated to serve the cause of "fatherland."

The Mannings, husband and wife, who were imitating Macbeth and his spouse, though in a vulgar manner, have been convicted and sentenced to be hung.

The Belgian Legislative Assembly is to open the 13th of November.

The Queen Dowager Adelaide, wife of William the Fourth, is sick at Stanmore. The London News says the general opinion seems to be that her Majesty's recovery is not probable, but that she may linger some time.

Letter from St. Petersburg to Boston, the Traveler, of that city, says, state that uneasiness was beginning to be felt in St. Petersburg. Considerable warlike preparations were known to be making, and the Russian fleet at Sebaetopool was under orders to be ready for sea at four days' notice. Cossacks are seen along the Danube, as well as sappers and pontonniers, facing the river near Widden, and everything seems ready to let loose the dogs of war, if the word is but pronounced.

As many as sixty wrecks are reported to have taken place on the east coast of Great Britain, during the late equinoctial gales. A barque, on the morning of Sunday, on the Gunfleet Sands, keeled over, and all on board perished, numberis six teen or twenty persons.

The Dutch and Belgian mails describe the gales to have been very destructive on their respective coasts. Numerous vessels were lost. The Camilla steamship reports a fearful hurricane visiting Cronstadt, and a consequent serious damage to the shipping.

IRELAND.

The great Southern railway, uniting Dublin, Cork, and Limerick, was opened at the end of last week. Lork Clarendon was present. A banquet was given in the occasion.

WHOLESALE EVICTIONS.

We deeply regret to learn from a correspondent, whose communication shall appear in our next, that seventy-four families, mounting to probably three hundred and seventy souls, have been evicted from the property of Col. Vyndham, in the parish of Clondegad, and in the illated, ever-persecuted county of Clare. Their dwellings have been left, with few exceptions—in the words of our correspondent—"hideous heaps of ruins." There were no notices of eviction received in due time by relieving officer. There is no room for the crowd in the Ennis Union workhouse. They are denied out-door relief on some pretext or other. Women, with infants in their arms, slept out under the freezing cold of the past week, and the floor of the chapel is now the only home of the exterminated people. The last sanctuary on earth is the house of God.—*Limerick and Cork Examiner*

FRANCE.

THE BRITISH MINISTER AND LOUIS NAPOLEON.

A letter from Paris says Lord Normanby, the British ambassador, has been in frequent correspondence with the President of the Republic, and is supposed to obtained a complete ascendency over him; so much so, that Thiers is said to have thrown out insinuations that French feelings and French honor are rendered subsurvient to foreigners.

ANOTHER "CASUS BELLI."

M. de Kisseleff, Russian Charge d'Affairs in Paris, waited on the Minister of Foreign Affairs on the 20th inst. He declared to M. de Tocqueville, that if the French fleet approached the Dardanelles, Russia would consider the fact a *casus belli*. The French Council of Ministers, on the other hand has decided that France will consider as a *casus billi* the entry of a Russian army on the Turkish territory.

ITALY.

THE ROMAN STATES.

General Zucchi has resigned his grade as Lieutenant General in the Roman army on the ground that he had engaged to serve a constitutional prince, and not an absolute Government.

Dr. Millingen, who has been suffering persecution from the priests, has made a fruitless appeal to the cardinals, and has therefore addressed the British Government to protect him as a British subject.

TURKEY.

BEM, DEMBINSKI AND KOSSUTH.

The change of creed of Bem, Kinley, and other officers, is confirmed. Some words from Kossuth having giving rise to the opinion that Bem, and his companions had yielded to the promises of the Porte, a great agitation showed itself in the Hungarian camp, and it was at one time feared that a disturbance would take place.—Dembinski has not become a Mussulman, but he has openly acknowledged that the Porte had nothing whatever to do with the adjuration of Bem and his companions, and he has even written letters to the Grand Vizier and the Seraskier, in which he expresses his gratitude.

The Globe of Wednesday evening says: "It is not true, as stated by the Patrie, that the British Government has been endeavoring to drag France into a war with Russia and Austria, or that the language of the French Government towards these powers has been more concilitory and proper than that of the English Cabinet. Hitherto there has been perfect accord between the two Governments as to the course pursued.

Accounts from Semlen of the 11th state that Gen. Houslab arrived there on the 11th, and immediately set off for Widden. It is asserted that he has gone to Turkey peremptorily to demand the delivery of the Magyar chiefs. Other accounts state that he was the bearer of an amnesty.

PRUSSIA.

The convention between the courts of Prussia and Austria, was ratified on the 12th ultimo, at Vienna.

The first Chamber has passed all the articles of the constitution, so far as they have considered them. They have disposed of 110 of them without a single rejection.

BADEN.

A letter from Constance, of the 13th, says, that on the 3d the first sentences was announced by the tribunal of the Lake district on certain individuals implicated in the recent insurrection. Fourteen persons were condemned to different punishments, the most severe falling on Charles Bohle, who is sentenced to imprisonment for six years with hard labor.

Letters from Rastadt, of the 20th ultimo, informs us of the execution of Messrs. Jansen, Schrador, and Benigan. These men were natives of Prussia, and had taken part in the insurrection.

MORE ARRESTS.

Baron Pillersdorf, the ex-minister, was arrested on the 11th at Roslare, and conveyed to the criminal prison. His arrest took place in consequence of the accusations of Dr. Fischoff. A petition has been presented to the Emperor by the chief magistrates, praying his Majesty for pardon for his Hungarians who have been amenable to the laws.

THE HUNGARIAN CROWN.

According to reports from Pesth the crown of Hungary is now in England, is now in England, whither it was sent by Kossuth. Szemere was in league with him; and on making his escape from Widdin executed the commission of carrying off the crown jewels to London. This statement explains the report that Szemere had stolen some very valuable trinkets belonging to Kossuth—a report which, from the very commencement met with no credit.

LATEST FROM SANTA FE.—A letter in the St. Louis Republican, dated Independence, Oct. 26th, says:

This morning Messrs. Peter H. Norris and Wm. Barclay arrived from off the plains. They left Santa Fe on the 25th of last month. and met with but little detention on the route.

There was but little news of interest in or about Santa Fe. A few days before the party left, Judge Houghton and Major Weightman fought a duel, something occurring in court having given rise to it. The parties met, and owing to some misunderstanding on the part of the seconds, Judge H. fired a little too soon; the Major then fired his pistol in the air. No injury doue on either side, and the honor of the parties vindicated, I suppose. The matter was amicably adjusted.

The election took place about the 20th of the month in New Mexico. Hugh Smith was chosen delegates to Congress, and is now on his way to take his seat in the House at the next session. Messrs. McKnight, Thompson, Patton and others will be in a few days. Business was remarkably dull for the season.

There was no news of any intrest from Chihuahua. Messrs. Beck and Wethered were up from Chihuahu aand Sonora. No goods had arrived up to the time of their departure, in the former place from here, but the merchants were at El Paso on the way below.

The troops had arrived at El Paso from the southern sea board. A few days ago the second and third of McCay and Waldo's trains from Fort Laramie reached here.

IMPORTANT FROM SOUTH AMERICA.—Dates from Montevideo th the 15th September; from Buenos Ayres to the 11th September, and from Rio de Janeiro to the 4th October, have been received at New York.

The crop of coffee on the Brazilian plantations is much shorter than usual, and was commanding higher prices. The U. S. frigate Brandywine was lying at the port of Rio, all well. Nothing fresh had occurred in relation to the Rio de la Plata question.

The government of Buenos Ayres has purchased the Danish brig Stephen, and the American schooner Adolphus, to strengthen the fleet of Paranna. A letter from Buenos Ayres, published in the *Comercio del Plata*, of the 10th, says that great naval preparations are being made at Buenos Ayres, and it is believed the object aimed at is Brazil, against whom the armaments are supposed to be intended; and with whom it is belived that war is inevitable.

The elections were going on, on the 3d October, in the provinces, for members of Assembly.

The invasions of Paraguay had occasioned a great sensation. It is said that Olinda the Brazilian Minister, is secretly acting with the Paraguayans but has such fear of Rosas, that he dare not take open measures against him. The Paraguayans have put themselves strongly on the defence, and have occupied the missions of Coments, all the territory of Aguapey and Candelaria, and fortified themselves in various points. It is generally believed that they have the secret aid of Brazil.

FIRE.—We regret to learn that the dwelling of Mrs. Askins, near Church Creek, in Dorchester county, was entirely destroyed by fire on Tuesday night the 6th inst., with all the furniture.

BREACH OF PROMISE.—Lucy Lines has just obtained $408 damages of P. F. Tuttle, at New Haven, Conn., for breach of marriage promise.

CALIFORNIA EMIGRANTS LOST.—In the summary of intelligence received by the Empire City, we find the following paragraph, which will have painful interest for many in the city:—

Several gentlemen, passengers in the ship Samoset, from New York for San Francisco, having become discouraged, in consequence of the great length of the passage, left the ship when off Monterey, and, as they supposed, about fifty miles from that place, for the purpose of reaching the shore in a small boat, and then pursue their journey overland. The names of the gentlemen were—Rev. Samuel Morehouse and James Hart, of Philadelphia; Capt. Van Wart, of Sing Sing; N. Y.; Col. Chase, of Cooperstown, N. Y.; Amos Brown, Dr. Small, John Evans and John Dunn, of New York. As these gentlemen bad not reached San Francisco on the arrival of the Samoset, on the 9th of September, fears were entertained of their loss—especially as a severe gale arose on the morning after their departure. The whole party, however, with the exception of Brown, after being wrecked, and suffering severe hardships by both land and sea, reached their place of ultimate destination. Brown however strayed from his companions while crossing a mountain, the first day out and has not been heard from since. Fears are entertained of his safety.

THE OVERLAND EMIGRATION.—About half of the emigrants have arrived, and as soon as they could obtain supplies have gone to work in the mines. Between the sink of Mary's River and the Sacramento valley the teams have generally followed the Mormon trail. The valley of Mary's river was burnt over, as is supposed by design, quite early in the season, and it was supposed that there would be great suffering in consequence of the failing of the draught animals

The immigrants who bring families are yet behind and large parties are fitting out to go to their assistance.

The latter expedition is undertaken under the direction of Gen. Smith, whose movements in this, as in other matters, meet the hearty approbation and co-operation of the great mass of the Californian people.

THE SUSQUEHANNA BANK.—The excitement occasion at Montrose, by the failure of this Bank, was intense, and Er. F. T. St. John, the Cashier, was, on Saturday week, arrested and committed to prison, in default of $40,000 bail. Threats of personal vengeance were freely uttered against him, the Bank sign was taken down and placed over the jail door, effigies were paraded, and quite a mob attended Mr. St. John to jail, saluting him, as he went, with groans, hisses, etc.—It is estimated that from $50,000 to $60,000 of the notes are in circulation in Susquehanna county. Mr. St. John represented a large majority of the stock, and, it is alleged, ruled matters his own way, without giving the necessary bonds for the faithful performance of the duties of the office he filled.

SERENADE TO HENRY CLAY.—The Whig young men of this city serenaded Henry Clay on Saturday evening, in a delightful manner. Preceded by Beck's band, a considerable number of them moved to the residence of Richard A. Bayard, Esq., on Walnut street below Eleventh, where Mr. Clay is staying, and on arriving there the band played beautiful harmonies until nearly midnight. Loud and enthusiastic cheers were frequently given, mingled with calls for the appearance of Mr. Clay, but as the Sabbath drew near the crowd quietly dispersed. It was a just compliment to the aged statesman and veteran Whig.—*Phila. U. S. Gazette.*

M. POUSSIN, late Minister of France to the government of the United States, sailed from New York on Saturday noon, with his family, in the packet Bavaria, for Havre. The Tribune states that the ex-minister was escorted to the vessel by about thirty of his friends, and that the Frenchmen of New York sent him a letter expressive of their regret at his departure. The Tribune further states that M. Montholon will be M. Possin's successor in the legation, and not M. Sain Bis-le-Compts.

MICHIGAN ELECTION.—The papers from Detroit bring us some particulars of the late election in Michigan, but they are so far behind the telegraphic accounts, and so incomplete, as to be of no importance. The eleven counties reported by telegraph are conclusive of the Locofoco character of the contest, and these papers bring in nothing to the contrary. The Advertiser tells us that apathy prevailed in that city in the Whig ranks, and the same is no doubt true of the party throughout the State.

CONVICTION OF OBSCENE PREACHERS.—After a lengthy trial, some street preachers named Barker, Kirkland, and Sharpe, were convicted at Pittsburg, on Wednesday, as nuisances, in preaching obscenety in the streets, villifying the Catholic clergy and sisters of mercy, and others in that city. Excited crowds were thus collected, to the danger and inconvenience of the public. They will undergo not more than one year's Imprisonment.

THE PENNSYLVANIA GANG OF ROBBERS.—A man named John Emberg was arrested in Butler county, (Pa.,) last week, charged with making and passing counterfeit money. He is supposed to be connected with a gang of counterfeiters, horse thieves, &c. He was also implicated in the robbery of Jas George, of Mercer county, of $900, and a portion of the money was found in possession of his wife. It will be recollected a disguised gang entered the house of Mr. G., tied him and took the money.

HOUSES FOR CALIFORNIA.—Mr. James Williams, carpenter, of Wilmington, Del., is building a number of frame houses for the California market. He has already shipped several. These houses will be sent in vessels, around Cape Horn, and in January Mr. Williams and several of his hands, start by the Panama route for San Francisco, for the purpose of erecting and selling them.

SHOOKING CASUALITY.—We stop the press to make the melancholy announcement of the death of one of our best and most useful citizens,—Elisha D. Punnell Esq., was killed on Mondy last by the bursting of the Cylender of a Threshing Machine which he was superintending. We have no time to say more at present.—*Snow Hill (Md.) Shield.*

AN IMPOSTER.—The Petersburg (Va.) Intelligencer warns the public against an imposter, who, has there passed himself as a nephew of the Rev. Mr. Maffitt, and to be deaf and dumb. He was recognized as from Owensville, Ky., where he went by the name of Wm. O. Chapman, and was known to make a pretty good speech and was no bad hand at a sermon. He has a mole on his left cheek, and a rosy complexion.

CURIOUS HALLUCINATION.—An individual by the name of Prince, of Storrs township, Hamilton county, Ohio, must be laboring under some delusion. The Cincinnatti and Dayton Railroad Company having run their road through his lands, he is filed a bill of exceptions in the Commercial court of Cincinnatti, on the ground that his possessions are a "small independent nation," in Ohio, he having in consequence of his disapproval of the annexation of Texas, publicly at that time, declared its independence! The whole document, though long, is quite curious. The gentlemen is a kind of South Carolina in miniature.—*Harford Current.*

A BOLD ATTEMPT AT REVOLT was made by the prisoners at the Penitentiary, Blackwell's Island, N. Y., last Monday.—The warden, Mr. Kean, had occasion to chastise a colored convict, who drew a knife he had concealed. The stab fell upon deputy keeper DeMott, seriously wounding him. Suspicion of rebellion attaching to others, a search in the cells resulted in ferreting out a large number of knives and dirks. How these were procured is a mystery.

On Friday night the splendid steamer Ivanhoe, undergoing repairs at Cincinnati took fire from some cause not known, and was totalty destroyed. The Ivanhoe was built at Pittsburg, and was owned by Captain Robert Cochrane and and Mr. Stephen Simpson. The steamer Melodeon was also much scorched.

WASHINGTON MONUMENT SOCIETY.—At a meeting of the Board at Managers of the Washington National Monument Society, held on the 30th October, the following resolution offered by Mr. Watterston were unanimously adopted:—

Resolved, That an application be made, in the name of the Board, to all the principles of the Colleges and Academies, and the respective Teachers of all Public and Private Schools in this country requesting them to obtain from the students and pupils of said colleges and schools a monthly contribution of one cent (or such other periodical contribution as they may deem proper) to aid in the erection of the Washington National Monument till the same shall be completed.

Resolved, That the Secretary be requested to prepare an address or circular to the Principals and Teachers of the Colleges, Academies, and Public and Private Schools requesting a monthly contribution of one cent (or other periodical contribution) to the National Monument, to continue until the same shall be completed.

Resolved, That the circular be addressed in the name of the Board to the respective Grand Lodges of the Masonic and Odd Fellows' fraternities, and Grand Divisions of Sons of Temperance in the United States, requesting that an arrangement be made to obtain such periodical contributions as they may deem proper, to be applied to the erection of the Washington National Monument, until the same shall be completed.

MARRIAGE IN THE ROTHSCHILD FAMILY.—Baron William de Rothschild, son of Baron Rothschild of Naples, was married lately in Frankfort to a grand daughter of Baron Solomon de Rothschild of Vienna. The bride and bridegroom are both very handsome, and, of course, very wealthy.

MURDER IN FAIRFAX.—A black man in Fairfax county, Va., near Centreville, on Thursday night last, was called out of his house and shot in the thigh, by some person as yet unknown. The black man died from the wound on Sunday last. An investigation of the matter will take place.

THE HON. ELISHA ALLEN, formerly a member of Congress from Maine, it is stated, has received the consulate at Honolulu; which is a post of emolument and honor.

CANDIDATE FOR GOVERNOR.—James M. Buchanan, Esq., of Baltimore, is spoken of as a candidate for the next Governor of Maryland.

☞The mill-dam of T. D. C. Ruth was so much injured, at Centreville, Md, by the late freshet, as to stop the mill for some time to come.

☞The new Catholic Church of the Assumption was dedicated in Philadelphia, on Sunday, by Bishop Reynolds, of Charleston.

☞The rowdies of Reading, Pa., are emulating those of Philadelphia, and have a saturnalia every Saturday night and Sunday.

☞Major General Scott, and suite, went down from Baltimore, in the steamer Georgia, and landed on Wednesday morning, at Old Point.

☞Mr. Speaker Winthrop was married to a Mrs. Wells, at Boston, on the evening of the 6th instant.

☞Upwards of sixty thousand emigrants have left Germany within the last six months for the United States.

☞Colonel Doniphan is spoken of as the successor of Col. Benton in the U. S. Senate.

☞Two distinct shocks of earthquake, with rumbling noise, were felt in the up per part of N. York city on Friday night last.

☞One hundred and sixty Hungarian officers are expected to ship themselves at Bremen for New Orleans.

TWICE MARRIED.—One of our lyn contemporaries (the Advertiser) the following bit of romance: "A heard of a somewhat remarkable rence in domestic life that has take in this city within a few months p lady of respectable and wealthy fam was married to a young man of so dissipated habits, was prevailed up relative to sue for a divorce from he lord,' to which overture she, after hesitation, gave a reluctant conse by due process of law, a judgemen nal seperation was pronounced by the law tribunals of New York. T cision produced much unhappiness and each seemed as if the future w them a wretched blank. By the kin position of mutual friends, they wer more introduced togather, and the of the well-intended reconciliati been a second marriage beween the who now, we are told, regret thei porary alienation, and are hencefo solved to forget and forgive any trif rors or indiscretions that either guilty of."

LAMARTINE.

A correspondent of the providence *nal* under date of Paris, Oct. 10th, gives the following account of the ce ted LAMARTINE, whom he encoun the hall of the French National bly:

Soon the Represenatives began to One of the earliest was the world-re ed Lamartine, the poet—the histo the orator—the hero, and the victim revolution of 1848. But you mus picture to yourself the Lamartine of of our American engravings. He now in appearance the Lamartine locks of the Belviderian Apollo, th ling Byron collar, and the poetical Lamartine is no longer young. H is short and almost white. He wa most silent and humble looking ma I saw in the assembly. His head i very large, and upon its centre the h inclined to stand up. There is a l graph of Lamartine, by Goupil & V from a daguerreotype, which looks him. I do not know whether it has reached America. Lamartine is a m slender frame. He was either conse engaged in reading or writing, or liste attentively to the speakers of the Tri I did not see him speak once to his ne bors, who almost elbowed him.
