PLENTY OF WATER AT PERKINS' MILL!

THE subscriber would most respectfully inform his friends and the public at large, that he has plenty of water to manufacture flour and meal in the best manner and with dispatch. From long experience in the business he flatters himself that he cannot be beaten by any one in the county in quality or quantity. He is thankful for past favors and solicits a share of the public's patronage. Persons from a distance who may send the over night, will have their atems and hands carefully taken care of, and their grain ground and dispatched early in the morning.
