"Well, the most I hear is that A. M. RUSSELL has had his store put in complete order, and is selling goods at very low prices. Betsey brought home beautiful brown sugar, which he sold at 6¼ cents; and good coffee at 12½ cents: and she says he has a large stock of fresh Groceries, which he sells at very low prices;—and you ought to see a suit of clothes she bought for John—they were the cheapest I ever saw bought in town."

"Well, neighbor A., does he keep a good assortment?"

"O. yes He has Groceries, Clothing, Confectionery, Tobacco, Segars, Brooms Buckets, Baskets and Tubs, Mackerel, Herring, Powder and Shot, Whips, Canes, and Umbertellas, Saddles and Harness, Toys, and a great many articles that I can't now name. But the next time you go to town give him a call, and I think you will agree with me that his goods are very cheap."

"Well, good by, neighbor A., I shall give him a call the next time I go to town."

"Well, don't forget the name."

"What is it, neighbor A?"

CONSUMPTION

SUCCESSFULLY TREATED BY INHALATION OF MEDICATED VAPORS!

BY JOHNSON STEWART ROSE, M. D., Fellow of the Royal College of Physicians and for years Senior Physician in the London Royal Infirmary for diseases of the Lungs.

In the treatment of Consumption by Inhalation, I have obtained the results which warrant me in asserting, that it is now as curable as diseases of the Stomach and Liver.

Breathing medicine directly into the Lungs is certainly the rational mode of attacking the disease, and like many other great and beneficent discoveries, it seems strange why such treatment was not resorted to long ago. Where there is life, there is now assured hope for the most seemingly hopeless cases, as throughout all the stages of this insidious disease, the wonderful and beneficent effects of this treatment are soon apparent. In cases also of Bronchitis, Asthma, &c., the inhaling of powders and vapors has been eminently successful, and to those suffering under any of the above named complaints, I can guarantee speedy and certain relief. I have pleasure in referring to 207 names, residents of New York and neighborhood, who have been restored to vigorous health. About one third of the above number, according to the patients' own statements, were considered hopeless cases.

The Inhaling method is soothing, safe and speedy, and consists in the administration of medicine in such a manner that they are conveyed to the Lungs in the form of vapor, and produce their action at the seat of the disease. Its practical success is destined to revolutionize the operations of the medical world, and establish the entire curability of consumption.

Applicants will please state if they have ever bled from the Lungs, if they have lost flesh, have a cough, night sweats and fever turns—what and how much they expectorate, what the condition of their stomach and bowels—The necessary Medicines, Apparatus, &c., &c., will be forwarded to any part.

TERMS—$5 consultation fee. Balance ...ble only when patients ... convalescent. ... report themselves con... Consumption ... Dr. Rose's Treatise on ... —price $1
