The Attention of Farmers

IS requested to a new Fertilizer, prepared from the night soil collected from the sinks and privies of New York City, by the Lidi Manufacturing Co., and manufactured without any adulterating whatever, into an inodorous and powerful manure, something like Guano, but less caustic, and less exhausting to the soil.

It is called "Tafeu," from the Chinese word signifying prepared night soil, and is the only article of the kind ever manufactured in this country. It is waranted to be 95 per cent pure night soil; and from its ease of transportation and application, and the small quantity required to produce the same results as heavier manures, it is the cheapest manure ever offered for sale.—For Grass in the fall. Winter Grain, or for Garden Vegetables, it has no equals. From 300 to 600 lbs. per acre is all the dressing required for the poorest soils. A fair trial in competition with other manures is respectfully asked. Packed in barrels of 240 lbs. or bags of 125 lbs.—Price $35 per ton, or 1¾ cts. per lb.,—delivered free of cartage on board of Vessels or Railroads in the City of New York.
