KENT NEWS.

CHESTER TOWN, Md.

SATURDAY MORNING, JUNE 14, 1856.

AMERICAN NOMINATIONS.

FOR PRESIDENT,

MILLARD FILLMORE,

OF NEW YORK.

FOR VICE PRESIDENT,

Andrew Jackson Donelson,

OF TENNESSEE.

PRESIDENTIAL ELECTORS.

Eastern Shore.—Col. JAMES WALLACE, Of Dorchester County.

Western Shore.—Hon. J. DIXON ROMAN, of Washington County.

1st. Cong. Dist.—Dr. R. GOLDSBOROUGH, of Queen Ann's County.

2nd. Cong. Dist.—EDWIN H. WEBSTER of Harford County,

3rd Cong. Dist.—CORNELIUS L. L. LEARY, of Baltimore City.

4th Cong. Dist.—(Not yet chosen.)

5th Cong. Dist.—Dr. THOMAS SIM, of Frederick County.

6th Cong. Dist.—Hon. AUG. R. SOLLERS, of Calvert County.

THE TOWN.—The Commissioners intend inspecting the town, some day next week. We are requested to state that fines will be imposed and collected in every case where persons neglect to have their premises properly cleansed.

COURT.—The adjourned Court met on Tuesday—the following cases were disposed of:—State vs. Frederick Hartker, a German, indicted for stealing corn—acquitted. Ricaud for def., Barroll, for State.

State vs. James Ellis—assault and battery with an intend to kill his wife and for an assault—the jury, after an absence of 23 hours, rendered a verdict of quilty of the second count of the indictment.—Fined 25 cents and imprisonment for nine months. Chambers, Ricaud, Vickers, for def., Barroll and Stone for State.

MR. FILLMORE.—A letter from Mr. Fillmore, accepting the nomination, appears in the papers of yesterday. It will find a cordial response in the bosom of every American. He accepts as a National man, recognising no sectional influences, and boldly refers to his conduct when in the Presidential chair, for proof of his nationality.

Mr. F. sailed from Liverpool on the 11th inst., and will arrived home in a few days.

MR. EDITOR:—Will you please inform the public, if I put good corn in your granary for market. and you take the corn and sell it without authority, are you not bound to give me the amount it sold for, instead of rotten or very indifferent corn? Your opinion is very much solicited by many in Still Pond.

The question propounded is a new one to us. If a gentleman's grain is sold by another party, without his order, he of course ought to receive what it sold for, to say nothing the damages the seller might be liable for.—ED. NEWS.

The second ballot was unanimous for Hon. John C. Breckenridge of Kentucky, and he was accordingly declared the choice of the convention. Mr. B. was a member of the last House of Representatives.

A DEMAND ON THE CONVENTION.

The following letter was sent to the Democratic Convention at Cincinnati.—The writer is editor of the "Irish Celt," a Catholic paper of New York city:

To the Members of the Democratic National Convention:

101 NASSAU ST., NEW YORK, May 30th, 1856.

Gentlemen—A word spoken in time is said to be worth more than gold, and I beg to offer you such a word by favor of the Cincinnati press. You will have at your door, I still hope not on your benches, a delegate from California, (Mr. Herbert) on whose hands yet smokes the blood of a poor countryman of mine by birth, lately murdered in a public hotel in Washington. I address you a simple straightforward question—do you mean to admit this man to a seat in your Convention? I hope, I sincerely hope, you do not. He is now under heavy bonds to stand his trial for the murder of Thomas Keating, and if he has not decency enough to stay away, you, knowing all the insulting and unjustifiable circumstances of the case, ought to have feeling enough to keep him out.

I am known to several of your number and though never personally engaged in any Presidential canvass, of the three I have witnessed in the United States, there are those with you who can certify that all my preferences have hitherto been democratic and my action accordingly. In 1852 I was among the first, the most earnest and I believe not the least efficient in resisting the artful attempt to make Mr. Pierce answerable for the Catholic test in the New Hampshire Constitution. The "campaign" publications of that day issued from the offices of the Boston Post, Albany Argus and Washington Union, have recorded how ready for the maintenance of a great principle, in common with the class of citizens to which I belong, I was then found to obliterate the memory of individual wrongs.

Precisely in the same spirit, *I now ask for Mr. Herbert's exclusion.* Since 1853 a fierce social war has been made on the adopted citizens. So long as it was confined to sectarian presses and mid-night mobs, we endeavored to resist with a firm forbearance. But when a democratic member of Congress, and delegate to your convention, shoots, before breakfast a working man, because he resented being called a "damned Irish son of a b—h," it is full time for us to ask you, do you mean to separate that man from your ranks, or to overlook notorious facts, or to vindicate the equality of classes of citizens high and low, native and foreign-born, in practice as in theory? Looking anxiously for your decision to your proceedings, I remain, gentlemen, very respectfully, Your obedient servant,

THOMAS D'ARCY McGEE.

It will be seen that the Irish wing of the Democratic party demands not only the expulsion of Herbert from the House of Reprsentatives but from the Democratic Convention.

THE BRITISH LION.—In the commence, mencement of the American revolution when one of the British king's thundering proclamations made its appearance, the subject was mentioned in a company in Philadelphia; a member of Congresf who was present, turning to Miss Livingsto , said:

"Well, Miss are you not greatly terrified at the *roaring of the British Lion?*"

"Not at all sir," she replied, "for I have learned from natural history that that beast roars loudest *when he is most frightened!*"

ATTENTION! ATTENTION!!

A. BARKER'S

DOUBLE ACTING

FORCE AND LIFT PUMP

IS acknowledged to be the most simple in construction, efficient in operation, less liable to get out of order, and more durable than any pump yet invented.

The World's Fair, London, gave Mr. Barker the complimentary medal, and the Pennsylvania State fair, on two occasions, awarded the pump the first premium.

In cases of fire, the Barker Fire Engine Pump has proved itself invaluable On several occasions persons, by having this pump on their premises, have saved their property from the devouring flames.

The Scientific American, of August 14th, 1852, says: "In our humble judgment Barker's Double acting pump is one of the best improvements which has been made in a great many years, and, in saying this, we express the opinion of many who have used the pump and are now using it. The pump was patented last February, and the claims were broad strong and reliable."

References to the following gentlemen: Samuel Baker, Richard S. Thomas, John McDaniel.

You can see these pumps work at any of the places we have a number engaged to put in.

The undersigned have bought the patent right for Kent county; any gentleman wishing a pump put in can drop a note to

SOUTHERN AGENCY FOR

McCORMICK'S

Reaping & Mowing Machine.

HAVING now the entire control for this section, of this celebrated Machine, I take the opportunity of informing the agricultural community that the most *extensive arrangements* are making to give all an opportunity of procuring one of these long and *thoroughly tried Machines.*

We would caution purchasers to be careful how they are persuaded into taking hold of so important a matter as an *untried Reaping Machine*, while the reputation of McCormick's is so well established throughout the world.

The perfection of a Reaping Machine being obtained only by actual observation of its action in cutting grain, and that period of time being very brief, viz., the Harvest it is obvious that it would require almost a life-time to obtain that object. This has happily been obtained by Mr. McCormick, and he now puts forth a Machine that may be termed perfect.

Notwithstanding the *gross* fabrication of piratical parties—who are indeed making my Machines under an assumed name, with injurious alterations, the following is the Official List of awards to Reaping and Mowing Machines at Paris:

No. 1. Grand Gold Medal of Honor. C. H. McCormick, Chicago, Ill.

No. 2 Medal of Honor, Gold. No Reaper in this list.

No 3 First Class Silver Medal. J. H Manny, Ilinois.

No 4 Second Class Silver Medal, J. S Wright Chicago, for Atkin's Self-Raker.

See Scientific American of Dec. 15th, 1855 for correctness of above list of awards.

I quote from the Official Report as follows:—"In agriculture, the Sole Grand Medal of Honor was awarded to C. H. McCormick of Chicago, Ilinois, United States of America, inventor of the reaping Machine that has operated the best at every trial, and is the type after which a'l the other Reapers have been made, with different modifications that have not changed the principle of the discovery."

The following article also appeared in the Scientific American of January 12th 1856:—"La Presse, the most extensively circulated newspaper in France, has devoted no less than four columns to a historical sketch and minute description of McCormick's Reaping Machine, with an account of the extraordinary results obtained in the recent trials before the international jury; and it bestows great praise on American inventions generally."

☞ Above I have given a fair and candid statement of the results of the grand French Exhibition of *all* Nations, and in addition to the Scientific American can refer to the leading papers generally of the Union, for the truth of these statements.

It was *Jerome*, (and *not Prince* Napoleon, the President of the French Exhibition) that bought Manny's Machine, while the *Emperor* bought mine, there being but one of mine to be had.

That the public may be on their guard at all times in giving credit to statements of various makers (in some shape or other) of these machines I respectfully ask a comparison of the *above facts* with the *gross misrepresentations* of the manufacturers of the Manny Machine, as contained in the publications that have appeared from them; the article which they pretend to quote from *Le Constitutionale*, being a counterfeit, and never having appeared in that paper. I would also call attention to the fact that the *comments* (!) only, of the editors or proprietor (but not the *awards of the French Exhibition,*) have appeared in the Prairie Farmer owned and conducted by J. S. Wright, maker of "Atkins' Self-Raker."

☞ A *full* supply of *all* the various parts *on hand* and can be supplied at *shortest notice.* To insure being supplied order early.

Price of combined Machine $155.

☞ I take occasion to say—observing numbers of trials advertised and talked of in different parts of the country, the result of which will not give the farmers an opportunit to decide *in season as to their merits*—would remark with view of settling the matter, any Farmer *wanting* a Machine can judge of McCormicks, to be tried on his *own place* and at *my risk.*
