KENT NEWS.

CHESTER TOWN, Md.

SATURDAY MORNING, JUNE 21, 1856.

AMERICAN NOMINATIONS.

FOR PRESIDENT,

MILLARD FILLMORE,

OF NEW YORK.

FOR VICE PRESIDENT,

Andrew Jackson Donelson,

OF TENNESSEE.

PRESIDENTIAL ELECTORS.

Eastern Shore.—Col. JAMES WALLACE, Of Dorchester County.

Western Shore.—Hon. J. DIXON ROMAN, of Washington County.

1st. Cong. Dist.—Dr. R. GOLDSBOROUGH, of Queen Ann's County.

2nd. Cong. Dist.—EDWIN H. WEBSTER of Harford County,

3rd Cong. Dist.—CORNELIUS L. L. LEARY, of Baltimore City.

4th Cong. Dist.—(Not yet chosen.)

5th Cong. Dist.—Dr. THOMAS SIM, of Frederick County.

6th Cong. Dist.—Hon. AUG. R. SOLLERS, of Calvert County.

The Town.—The Commissioners will inspect the town on Monday next.

More Candidates.—The seceders from the American National Council have nominated N. P. Banks, of Mass., for the Presidency and Gov. Johnson, of Pa., for the Vice Presidency.

The seceders from the seceders have nominated Commodore Stockton, of N. J. and Kenneth Raynor of North Carolina.

Col. Fremont, of Cal., and Wm L. Dayton, of N. J. have been nominated for the Presidency and Vice Presidency by the Black Republicans.

Dreadful Shipwreck—*Seventy-two Lives Lost!*—Advices from Halifax state that the ship Pallas, Capt. Spillane, from Cork to Quebec, with 120 passengers, sighted coast of Cape Breton on the morning of the 30th of May. In the afternoon it was discovered that the compasses varied from one another, and the course of the vessel was then shaped between Cape North and St. Paul's. At 10 P. M. she struck on the breakers on St. Paul's and bilged, the sea washing over her. The passengers became panic-stricken, and rushed it to the boats, which sank almost immediately. Seventy-two persons were thus drowned. In the morning the Superintendent of the Island sent off boats and rescued the remaining passengers.—A vessel had left Sydney to convey them to Quebec. The ship is a total loss.

Fillmore in the South. The opposition journals of the South notice Mr. Fillmore's letter of acceptance in terms of the warmest admiration. The Augusta (Geo) Sentinel, says of it:

"Every lover of his country will receive this announcement with unalloyed satisfaction. The past services of Mr. Fillmore are the best guarantee for his faithfulness, and efficiency in the future. Millard Fillmore, the true patriot and statesman, is now the hope of every American citizen."

The Kingston (Tenn.) Gazette, a Democratic paper, speaks of Mr. Fillmore as follows:

"With reference to Mr. Fillmore as a man, it is undoubtedly the best nomination the party could have made. While he occupied the Presidential chair, he threw off all sectionalism and administered the Government in accordance with the spirit and provisions of the Constitution, dealing out equal handed justice to the North and to the South. He exhibited his nationality by a warm and manly support of the compromise measures. This was his duty and for doing it he deserves an approving conscience and the reward of duty well done"

Bolters Humbug. The Philadelphia Times says in the bogus Convention of political tricksters at New York, who profess to be able to sell out the American party to the highest bidder, ex-Mayor Conrad on Saturday took the floor to advocate the nomination of Wm. F. Johnston for the Presidency. He said among other extravagances, "that William F. Johnston was recognized in Pennsylvania as one who arrayed against James Buchanan, would carry every county open to common sense. They could carry Pennsylvania for William F. Johnston," &c. Now, we undertake to say that this is all "sound and fury, signifying nothing."—Governor Johnston broke down the Whig party in this State, as did Mayor Conrad the American party in Philadelphia.

Instead of being able to carry the State Wm. F. Johnston's nomination for the Presidency, we do not believe, would command 10,000 votes, his nomination for the Vice-Presidency would be a dead weight to any ticket to which he was attached. We protest against these wholesale assertions and this system of mutual laudations that seems to be so much in vogue among the Bolters of New York.

Acceptance of Mr. Fillmore.

Paris, May 21st, 1846.

Gentlemen—I have the honor to acknowledge the receipt of your letter informing me that the National Convention of the American party which had just closed its session at Philadelphia had unanimously presented my name for the Presidency of the United States, and associated with it that of Andrew Jackson Donelson for the Vice Presidency. This unexpected communication met me at Venice on my return from Italy, and the duplicate mailed thirteen days later, was received on my arrival in this city last evening. This must account for my apparent neglect in giving a more prompt reply.

You will pardon me for saying that when my administration closed in 1853, I considered my political life as a public man at an end, and thenceforth I was only anxious to discharge my duty as a private citizen. Hence I have taken no active part in politics. But I have by no means been an indifferent spectator of passing events, nor have I hesitated to express my opinion on all political subjects when asked, nor to give my vote and private influence for those men and measures I thought best calculated to promote the prosperity and glory of our common country. Beyond this I deemed it improper for me to interfere. But this unsolicited and unexpected nomination has imposed upon me a new duty, from which I cannot shrink; and therefore, approving as I do, of the general objects of the party which has honored me with its confidence I cheerfully accept its nomination without waiting to enquire of its prospects of success or defeat. It is sufficient for me to know that by so doing I yield to the wishes of a large portion of my fellow-citizens in every part of the Union who, like myself, are sincerely anxious to see the administration of our government restored to that original simplicity and purity which marked the first years of its existence; and if possible to quiet that alarming sectional agitation, which, while it delights the monarchists of Europe, causes every true friend of our own country to mourn.

Having the experience of past service in the administration of the government, I may be permitted to refer to that as the exponent of the future, and to say, should the choice of the Convention be sanctioned by the people, I shall, with the same scrupulous regard for the rights of every section of the Union, which then influenced my conduct endeavor to perform every duty confided by the Constitution and laws to the Executive.

As the proceedings of this Convention have marked a new era in the history of the country, by bringing a new political organization into the approaching Presidential canvass, I take the occasion to reaffirm my full confidence in the patriotic purposes of that organization, which I regard as springing out of a public necessity forced upon the country, to a large extent by unfortunate sectional divisions, and the dangerous tendency of those divisions towards disunion. It alone, in my opinion, of all the political agencies now existing, is possessed of the power to silence this violent and disastrous agitation, and to restore harmony by its own example of moderation and forbearance. It has a claim, therefore, in my judgment upon every earnest friend of the integrity of the Union.

So estimating this party, both in its present position and future destiny, I freely adopt its great leading principles as announced in the recent declaration of the National Council at Philadelphia, a copy of which you were so kind as to enclose me, holding them to be just and liberal to every true interest of the country, and wisely adapted to the establishment and support of an enlightened, safe, and effective American policy, in full accord with the ideas and hopes of the fathers of our Republic.

I expect shortly to sail for America, and with the blessings of Divine Providence, hope soon to tread my native soil. My opportunity of comparing my own country and the condition of its people with those of Europe has only served to increase my admiration and love for our own blessed land of liberty, and I shall return to it without even a desire ever to cross the Atlantic again.

I beg of you, gentlemen, to accept my thanks for the very flattering manner in which you have been pleased to communicate the results of the action of that enlightened and patriotic body of men who composed the late Convention, and to be assured that I am, with profound respect and esteem, your friend and fellow citizen,

MILLARD FILLMORE.

WOOL WANTED!

PRICE & FOWLER will pay the highestt market price for wool in exchange for goods or Kersey. The Kersey can be seen at any time at their store. June 21, 1856.

The Cincinnati Platform.—The Sag Nichts have adopted a platform which no two men in different sections of the country of common intelligence will endorse as a whole, yet it is sent before the people with all the sanctity which the recommendation "unanimously adopted" can attach to it. The resolutions were reported by Benjamin F. Hallett, of Massachussetts, whose record on the subject of slavery, places him in the mire of Abolitionism to a depth which Seward and Sumner have yet to reach. The first resolution is that great "gull trap" that the "Democracy place their trust in the patriotism and discriminating justice of the American people," when it is notorious that every act of their lives belie any such profession, as their recent wholesale abuse of a large portion of the American people abundantly testifies.

It then goes on to lay down anew all those rotten planks which are quadrennially nailed to the platform, and which are repeatedly torn up. Then comes a section on religious intolerance and foreign born citizenship, which deprecates a crusade against either, the thunder of which was taken from the late American platform. After which follows the resolutions on slavery, endorsing the doctrine of non-intervention so ably carried out by Mr. Fillmore when President—and closes with a reference to our foreign policy, which repudiates Pierce and Marcy diplomacy; and a resolution which has an awful squinting towards building a railroad to the Pacific by the general government.—*Memphis Whig.*

Fillmore will not be Defeated.—Millard Fillmore never has been defeated in anything he undertook, and we will express our firm belief that he never will be. Every step that he has made in life, from infancy to manhood, has been upward and so it will be until he reaches the highest point to which an American citizen can aspire,—the Chief Magistracy of a country which he has so faithfully served.—Why should Fillmore have been so thoroughly tested and not found wanting if it were not that he might become the great peace maker of our native land, and cause the North and the South, the East and the West, the free-soiler and the slave owner to unite cordially in sustaining the glorious fabric of American union and freedom.—*Cincinnati Times.*

A. BARKER'S

DOUBLE ACTING

FORCE AND LIFT PUMP

IS acknowledged to be the most simple in construction, efficient in operation, less liable to get out of order, and more durable than any pump yet invented.

The World's Fair, London, gave Mr. Barker the complimentary medal, and the Pennsylvania State fair, on two occasions, awarded the pump the first premium.

In cases of fire, the Barker Fire Engine Pump has proved itself invaluable On several occasions persons, by having this pump on their premises, have saved their property from the devouring flames.

The Scientific American, of August 14th. 1852, says: "In our humble judgment Barker's Double acting pump is one of the best improvements which has been made in a great many years, and, in saying this, we express the opinion of many who have used the pump and are now using it. The pump was patented last February, and the claims were broad strong and reliable."

SOUTHERN AGENCY FOR

McCORMICK'S Reaping & Mowing Machine.

HAVING now the entire control for this section, of this celebrated Machine, I take the opportunity of informing the agricultural community that the most *extensive arrangements* are making to give all an opportunity of procuring one of these long and *thoroughly tried Machines.*

We would caution purchasers to be careful how they are persuaded into taking hold of so important a matter as an *untried Reaping Machine,* while the reputation of McCormick's is so well established throughout the world.

The perfection of a Reaping Machine being obtained only by actual observation of its action in cutting grain, and that period of time being very brief, viz., the Harvest it is obvious that it would require almost a life-time to obtain that object. This has happily been obtained by Mr. McCormick, and he now puts forth a Machine that may be termed perfect.

Notwithstanding the *gross* fabrication of piratical parties—who are indeed making my Machines under an assumed name, with injurious alterations, the following is the Official List of awards to Reaping and Mowing Machines at Paris:

No. 1. Grand Gold Medal of Honor. C. H. McCormick, Chicago, Ill.

No. 2 Medal of Honor, Gold. No Reaper in this list.

No 3 First Class Silver Medal. J. H Manny, Ilinois.

No 4 Second Class Silver Medal, J. S Wright Chicago, for Atkin's Self-Raker.

See Scientific American of Dec. 15th, 1855 for correctness of above list of awards.

I quote from the Official Report as follows:—"In agriculture, the Sole Grand Medal of Honor was awarded to C. H. McCormick of Chicago, Ilinois, United States of America, inventor of the reaping Machine that has operated the best at every trial, and is the type after which all the other Reapers have been made, with different modifications that have not changed the principle of the discovery."

The following article also appeared in the Scientific American of January 12th 1856.—"La Presse, the most extensively circulated newspaper in France, has devoted no less than four columns to a historical sketch and minute description of McCormick's Reaping Machine, with an account of the extraordinary results obtained in the recent trials before the international jury; and it bestows great praise on American inventions generally."

☞ Above I have given a fair and candid statement of the results of the grand French Exhibition of *all* Nations, and in addition to the Scientific American can refer to the leading papers generally of the Union, for the truth of these statements.

It was *Jerome,* (and *not Prince* Napoleon, the President of the French Exhibition) that bought Manny's Machine, while the *Emperor* bought mine, there being but one of mine to be had.

That the public may be on their guard at all times in giving credit to statements of various makers (in some shape or other) of these machines I respectfully ask a comparison of the *above facts* with the *gross misrepresentations* of the manufacturers of the Manny Machine, as contained in the publications that have appeared from them; the article which they pretend to quote from *Le Constitutionale,* being a counterfeit, and never having appeared in that paper. I would also call attention to the fact that the *comments* (!) only, of the editors or proprietor (but not the *awards of the French Exhibition,*) have appeared in the Prairie Farmer owned and conducted by J. S. Wright, maker of "Atkins' Self-Raker."

☞ A *full* supply of *all* the various parts *on hand* and can be supplied at *shortest notice.* To insure being supplied order early.

Price of combined Machine $155.

☞ I take occasion to say—observing numbers of trials advertised and talked of in different parts of the country, the result of which will not give the farmers an opportunuit to decide *in season as to their merits*—would remark with view of settling the matter, any Farmer *wanting* a Machine can judge of McCormicks, to be tried on his *own place* and at *my risk.*

WOOLEN MANUFACTORY.

THE subscribers again respectfully inform their friends and the public that they are now manufacturing, on a larger scale than usual, every variety of their *well known CASSIMERES,* embracing beautiful fine Wave and other Cassimeres, equal to any manufactured in this country, together with all kinds heretofore manufactured by them. Posssessing the advantages of a superior water power, the latest improvements in machinery, and the personal attention of those brought up in the best manufactories in England enables them to offer a better and cheaper article than can be obtained elsewhere. Also, Flannels in variety, Stocking Yarn, Roll Carding, &c., &c.

☞ Always wanted, in exchange for Goods, WOOL, for which the highest market price will be allowed.
