THE
HANNAH MORE ACADEMY.
WILMINGTON, DELAWARE.

PRINCIPALS:—MISSES C. and T. and A. H. GRIMSHAW, M. D.

Resident French Teacher:—Prof. V. VALUE.

NO Institution in the country offers superior advantages. The inhabitants of the Eastern Shore of Maryland, will find Wilmington easy of access either by way of the Philada. and Baltimore or Delaware Rail Roads. The Academy situated on elevated land in salubrious portion of the city affords a pleasant and invigorating retreat for young persons, who are enervated in the low-lands of Delaware or Maryland. The Building is commodious and was built by the Principals expressly for school purposes.—The school room is spacious, the apartments for recitation are large, all well ventilated. Large furnaces, hot, cold, and shower baths, condure to the comfort and health of the pupils. The physical development of young Ladies is promoted by daily walks in the open air and by frequent exercise in the bowling alley and play house attached to the Institution.

TERMS:—$80, $00, $100 per session of five months, for Board and tuition in French and English. (Sept.27,'56.—1m.)

Drills! Drills!!
KUHNS & HAINES' IMPROVED
GRAIN DRILL.

THE subscribers would respectfully call the attention of the Farmers of Kent county, to the above justly celebrated Machine. It has been thoroughly tested, and wherever introduced has met with the most flattering success, and fast superceding all others. The followin qualities *combined* establish its superiority, an renders it the most desirable Machine for th farmer.

The application of the cupped wheel feeders in combination with the slides, secures more *certainty* and *equality* in sowing the grain. It will sow equally well, wheat, oats and all kinds of small grain with the same hopper and fixtures, requiring but a moment to change it to sowing any kind of grain and any desired quantity per acre, which is done by a single screw at one end of the hopper.

It is of light draft—exceedingly simple in its construction, and not liable to get out of repair.

All that want Drills of the subscriber the present season will please send in their orders without delay. Every Drill warranted to work well. M. J. HAINES,
Delaware City, Del.

CAUTION.—Beware of all imitations of the Cupped Wheel Feeders as there was some counterfeit machines put out last Fall; they proved a complete failure Refuse all professing to be the Kuhns & Haines' Machine, and made at Delaware City, unless made by the subscriber and having his name upon them.

☞ All orders left with the Editor of the Kent News, will be punctually attended to.
Aug. 2, 2m. M. J. HAINES.

FINE CLOTHING,
CLOTHS,
CASSIMERES,
VESTINGS,
TRIMMINGS,
and FURNISING GOODS.

James Arthur,

HAS just returned from Philadelphia with a large and carefully selected assortment of

CLOTHING,

Cloths, Cassimeres, Vestings, Trimmings, and Furnishing Goods, to which he invites the attention of his customers, and the public generally.

A long experience in the *Trade*, and dealing exclusively in Mens Wear, enables him confidently to say, that purchasers will find it greatly to their advantage to call as above, before making any selections elsewhere; as all goods will be sold at the very lowest prices, for cash, or on a short credit to punctual customers.

Goods cut and made up in the most fashionable styles. [Oct. 18, 1856.]

A. BARKER'S
DOUBLE ACTING
FORCE AND LIFT PUMP

IS acknowledged to be the most simple in construction, efficient in operation, less liable to get out of order, and more durable than any pump yet invented.

The World's Fair, London, gave Mr. Barker the complimentary medal, and the Pennsylvania State fair, on two occasions, awarded the pump the first premium.

In cases of fire, the Barker Fire Engine Pump has proved itself invaluable On several occasions persons, by having this pump on their premises, have saved their property from the devouring flames.

The Scientific American, of August 14th. 1852, says: "In our humble judgment Barker's Double acting pump is one of the best improvements which has been made in a great many years, and, in saying this, we express the opinion of many who have used the pump and are now using it. The pump was patented last February, and the claims were broad strong and reliable."

References to the following gentlemen: Samuel Baker, Richard S. Thomas. John McDaniel.

You can see these pumps work at any of the places we have a number engaged to put in.

The undersigned have bought the patent right for Kent county; any gentleman wishing a pump put in can drop a note to

BENJAMIN ELLIOTT,
Chester Town, Kent county, Md.,
or to THOMAS RASIN,
Still Pond, Md

" " White Haven, Princess Anne, and Salisbury,	$2,00

☞ Meals extra.

WM. J. BRYSON, Agent.

May 24, 1856.

ATTENTION FARMERS!
Guano excelled by 'De Burg.

The great advantage De Burgs Super Phosphate has over Guano, is attributed to the large amont of fertilizing matter, Phosphates and Ammonia, which it contains.

It is a settled point with all chemist and scientific farmers that Peruvian Guano only supplies about one half of the phosphates that is required to grow wheat rye, oats, corn, vegetables, &c., and that is the reason that land becomes exhausted and impoverished by its continued application. Whereas De Burgs Super Phosphate supplies more than is required, by the crops, and is quite as effective in it action of inducing early maturity as guano, much more durable and fertilizing to the soil and less volatile.

It is adapted for all crops and all soils, as a proof, we have testimonials from Maland to Georgia, and from *every county in this State*, from every variety of soil, and from gentlemen well known as intelligent farmers—some of whom have tried it for two years on fall and spring crops with pleasing results, in every instance. We name Hon. J. A. Pearce, G. W. T. Perkins, L. M. Strong, J. Urie, W. W. Stephens, Wm. Emory, T. D. C. Ruth, Esqs., and many others.

Francis Cann, Esq. says: "I never had so fine a field of corn as I have at present. The corn and potatoes grown by "De Burg" were much superior in quality and quantity to those grown by No. 1, Peruvian Guano, at the same rate per acre. I think it the best fertilizer I ever tried and cheaper than guano."

Josiah Ringgold, Kent co. says: "I applied De Burg and Peruvian Guano separately, each at the rate of 200 lbs. per acre, on same quality of land in corn, oats and vegetables, and I think where DeBurg was used that my crops were much the best."

Wm. T. Skirven, Esq., Kent co., says: "There was a manifest difference in the growth of the corn where I applied "De Burg" over that which was guanoed.—My wheat sown with "De Burg" looks better than my guanoed wheat."

☞ Every lot we receive is inspected and analyzed by the Chemist to the Md Agricultural Society, who draws samples himself from entire cargo, and rejects all that does not come up to the fixed standard, thereby guaranteeing to the farmer a uniformity not to be found in any guanoor other manure.

The best proof of the value of this fertilizer as entertained by the agricultural community is the greatly increased demand for it, which is beyond precedent in any other manure. In consequence of which many imitations have been put upon the market. Farmers should be particular and buy none but "De Burgs Supher Phosphate" and to secure the genuine article, order it direct from us.

Price $43 per 2000 pounds, in 8 bbls.

J. J. & F. TURNER,
42 Pratt st. Balt.

☞ Send and get analysis and testimonials.

Feb. 23, 1856—tf

KRAUSERS PORTABLE CIDER MILL.

THESE superior Cider Mills can still be furnished, of improved construction and finish. Their grinding apparatus is peculiar and gives them an advantage over all other mills. By the action of two reciprocating pistons the apples are forced up against the teeth of a rapidly revolving cylander and retained till ground to a fine pulp, which of course yields more juice when subjected to pressure than if the pomace was coarse. The screw press has been greatly improved and strengthened since last year and the whole frame is tightened by strong joint bolts. It is adapted to either hand or horse power and can be worked by hand to the extent of six to eight barrels in a day.
