OYSTERS! OYSTERS!!

THE 'RISING SUN" SALOON

JUST OPENED!

THE undersigned has opened an *OYSTER HOUSE* in Chestertown, on Fish street, (running up from the Bridge,) in the rear of the Court House; where he has fitted up a Saloon in City Style, and will serve up Oyster in the best manner. As for my cooking, it is useless, to mention, as all who have eaten any oysters served up by my father or myself, know that they "can't be beat." All I ask is to give me a trial. As I have been at considerable expense in fitting up my Saloon I hope to receive a liberal patronage. Don't forget in the rear of the Court House. The public's ob't serv't,

WILLIAM PERKINS.

Chestertown, Oct 1856. tf.

GOODS!

ADAPTED EXCLUSIVELY TO MEN'S WEAR!

☞ One Door below the Post Office. ☜

FINE CLOTHING,
CLOTHS,
CASSIMERES,
VESTINGS,
TRIMMINGS,
and FURNISING GOODS.

James Arthur,

HAS just returned from Philadelphia with a large and carefully selected assortment of

CLOTHING,

Cloths, Cassimeres, Vestings, Trimmings, and Furnishing Goods, to which he invites the attention of his customers, and the public generally.

A long experience in the *Trade,* and dealing exclusively in Mens Wear, enables him confidently to say, that purchasers will find it greatly to their advantage to call as above, before making any selections elsewhere; as all goods will be sold at the very lowest prices, for cash, or on a short credit to punctual customers.

Goods cut and made up in the most fashionable styles. [Oct. 18, 1856.]

A. BARKER'S

DOUBLE ACTING

FORCE AND LIFT PUMP

IS acknowledged to be the most simple in construction, efficient in operation, less liable to get out of order, and more durable than any pump yet invented.

The World's Fair, London, gave Mr. Barker the complimentary medal, and the Pennsylvania State fair, on two occasions, awarded the pump the first premium.

In cases of fire, the Barker Fire Engine Pump has proved itself invaluable On several occasions persons, by having this pump on their premises, have saved their property from the devouring flames.

The Scientific American, of August 14th, 1852, says: "In our humble judgment Barker's Double acting pump is one of the best improvements which has been made in a great many years, and, in saying this, we express the opinion of many who have used the pump and are now using it. The pump was patented last February, and the claims were broad strong and reliable."

References to the following gentlemen: Samuel Baker, Richard S. Thomas, John McDaniel.

You can see these pumps work at any of the places we have a number engaged to put in.

The undersigned have bought the patent right for Kent county; any gentleman wishing a pump put in can drop a note to

BENJAMIN ELLIOTT,
Chester Town, Kent county, Md.,
or to THOMAS RASIN,
Still Pond, M

May 24, 1856.

ATTENTION FARMERS!

Guano excelled by 'De Burg.

The great advantage De Burgs Super Phosphate has over Guano, is attributed to the large amont of fertilizing matter, Phosphates and Ammonia, which it contains.

It is a settled point with all chemist and scientific farmers that Peruvian Guano only supplies about one half of the phosphates that is required to grow wheat rye, oats, corn, vegetables, &c., and that is the reason that land becomes exhausted and impoverished by its continued application. Whereas De Burgs Super Phosphate supplies more than is required, by the crops, and is quite as effective in it action of inducing early maturity as guano, much more durable and fertilizing to the soil, and less volatile.

It is adapted for all crops and all soils, as a proof, we have testimonials from Maland to Georgia, and from *every county in this State,* from every variety of soil, and from gentlemen well known as intelligent farmers—some of whom have tried it for two years on fall and spring crops with pleasing results, in every instance. We name Hon. J. A. Pearce, G. W. T. Perkins, L. M. Strong, J. Uric, W. W. Stephens, Wm. Emory, T. D. C. Ruth, Esqs., and many others.

Francis Cann, Esq. says: "I never had so fine a field of corn as I have at present. The corn and potatoes grown by "De Burg" were much superior in quality and quantity to those grown by No. 1, Peruvian Guano, at the same rate per acre. I think it the best fertilizer I ever tried and cheaper than guano."

Josiah Ringgold, Kent co. says: "I applied De Burg and Peruvian Guano separately, each at the rate of 200 lbs. per acre, on same quality of land in corn, oats and vegetables, and I think where DeBurg was used that my crops were much the best."

Wm. T. Skirven, Esq., Kent co., says: "There was a manifest difference in the growth of the corn where I applied "De Burg" over that which was guanoed.—My wheat sown with "De Burg" looks better than my guanoed wheat."

☞ Every lot we receive is inspected and analyzed by the Chemist to the Md Agricultural Society, who draws samples himself from entire cargo, and rejects all that does not come up to the fixed standard, thereby guaranteeing to the farmer a uniformity not to be found in any gu anoor other manure.

The best proof of the value of this fertilizer as entertained by the agricultural community is the greatly increased demand for it, which is beyond precedent n any other manure. In consequence of which many imitations have been put upon the market. Farmers should be particular and buy none but "De Burgs Supher Phosphate" and to secure the genuine article, order it direct from us.

Price $43 per 2000 pounds, in 8 bbls.

J. J. & F. TURNER,
42 Pratt st. Balt.

☞ Send and get analysis and testimonials.

Feb. 23, 1856—tf

KRAUSERS PORTABLE CIDER MILL.

THESE superior Cider Mills can still be furnished, of improved construction and finish. Their grinding apparatus is peculiar and gives them an advantage over all other mills. By the action of two reciprocating pistons the apples are forced up against the teeth of a rapidly revolving cylander and retained till ground to a fine pulp, which of course yields more juice when subjected to pressure than if the pomace was course. The screw press has been greatly improved and strengthened since last year and the whole frame is tightened by strong joint bolts. It is adapted to either hand or horse power and can be worked by hand to the extent of six to eight barrels in a day.
