Facts About the 7-30's—The Advantages they Offer.

This is decidedly the most popular loan now in the market, and the eagerness with which it is taken shows that the people understand its merits. The New York *Examiner* speaks as follows of the advantages of these bonds:

THEIR ABSOLUTE SECURITY.—Nearly all active credits are now based on Government securities, and banks hold them as the very best and strongest investment they can make. If it were possible to contemplate the financial failure of the Government, no bank would be any safer. If money is loaned on individual notes or bond and mortgage, it will be payable in the same currency as the Government pays with, and no better. The Government never has failed to meet its engagements, and the national debt is a first mortgage upon the whole property of the country. While other stocks fluctuate from ten to fifty, or even a greater per cent., Government stocks are always comparatively firm. Their value is fixed and reliable, beyond all other securities; for while a thousand speculative bubbles rise and burst, as a rule they are never below par, and are often above.

ITS LIBERAL INTEREST.—The *general* rate of interest is six per cent., payable annually. *This* is seven and three-tenths, payable *semi-annually*. If you lend on mortgage, there must be a searching of titles, lawyers' fees, stamp duties and delays, and you will finally have returned to you only the same *kind* of money you would receive from the Government, and less of it. If you invest in this loan, you have no trouble. Any bank or banker will obtain it for you without charge. To each note or bond are affixed five coupons or *interest tickets*, due at the expiration of each successive half-year. The holder of a note has simply to cut off one of these coupons, present it at the nearest bank or Government agency, and receive his interest; the note itself need not be presented at all. Or a coupon thus payable will everywhere be equivalent, when due, to money. If you wish to borrow ninety cents on the dollar upon the notes, you have the highest security in the market to do it with. If you wish to sell, it will bring within a fraction of cost and interest at any moment. It will be very handy to have in the house.

IT IS CONVERTIBLE into a six per cent. gold-bearing bond. At the expiration of three years a holder of the notes of the 7-30 Loan has the option of accepting payment in full or funding his notes in a six per cent. gold interest bond, the principal payable in not less than five, nor more than twenty years from its date, as the Government may elect. These bonds are held at such a premium as to make this privilege now worth two or three per cent. per annum, and adds much to the interest. Notes of the same class, issued three years ago, are now selling at a rate that fully proves the correctness of this statement.

ITS EXEMPTION FROM STATE OR MUNICIPAL TAXATION.—But aside from all the advantages we have enumerated, a special Act of Congress *exempts all bonds and Treasury notes from local taxation*. On the average this exemption is worth about two per cent. per annum, according to the rate of taxation in various parts of the country.

IT IS A NATIONAL SAVINGS BANK.—While this loan presents great advantages to large capitalists, it offers special inducements to those who wish to make a safe and profitable investment of small savings. It is in every way the best Savings' Bank; for every institution of this kind must somehow invest its deposits profitably in order to pay interest and expenses. They will invest largely in this loan, as the best investment. But from the gross interest which they receive, they must depend largely for the expenses of the Bank.—Their usual rate of interest allowed to depositors is 5 per cent. upon sums over $500. The person who invests directly with the Government will receive almost 50 per cent. more. Thus the man who deposites $1000 in a private Savings bank receives 50 dollars a year interest; if he doposits the same sum in this National Savings' Bank he receives 73 dollars. For those who wish to find a safe, convenient, and profitable means of investing the surplus earnings which they have reserved for their old age or for the benefit of their children, there is nothing which presents so many advantages as this National loan.

THE HIGHEST MOTIVE.—The war is evidently drawing to a close, but while it lasts the Treasury must have money to meet its cost, and every motive that patriotism can inspire should induce the people to supply its wants without delay. The Government can buy cheaper for cash in hand than on credit. Let us see that its wants are promptly and liberally satisfied.

SIGNIFICANT CONFESSION.—The Mobile Advertiser and Register makes this remarkable confesson:

We do not attempt to disguise the fact that the Confederate cause is passing thro' its most dangerous crisis. Large numbers of the people—perhaps a majority—are heart-sick of the war, and willing to end it upon terms which would have been scouted as treasonable two years or even one year ago. Even the class of slaveholders having the deepest pecuniary stake in the struggle for independence, are willing and ready to make sacrifices which a short time ago would not have been tolerated. We have no doubt that the country, including the slave proprietors, large and small, would compromise to-day for peace and independence on the basis of a gradual and universal emancipation of the blacks. We may go further and say that large numbers would be willing to give up all their cherished thoughts of independence and exchange their institutions for naked peace upon the terms of reconstruction. This is a great change, a wonderful revolution of popular sentiment, resulting from four years of tremendous war.

LEGISLATING FOR THEIR OWN POCKETS.—Members of Congress get very indignant when it is mildly suggested that their actions in Congress is promotive of special interests of their own, either directly or indirectly, and fall to work abusing the newspapers generally, for the insinuations of some one outspoken censor. Yet, if we look at their legislation, we will see that they are not all of them above regarding their own interests. They have a bill now to raise money for the support of the Government by taxing every man who earns more than $600, a per centage of his income. Yet in that same bill there is a clause, the New York Tribune says, which exempts members of Congress from paying a tax on their $3,000 per annum and mileage.

If this is not a careful regard to their own interests, above that of the public's, which warrants the charge of money into their own pockets, then there is no force in facts. A poor man may be taxed on the amount necessary to feed and cloth his family, if it is above $600—and no family can be provided with the necessaries, to say nothing of the decencies of life, with that sum, at the present prices of food—but some of the members who impose these necessary taxes are mean enough to try and smuggle through a section excepting themselves. The fact of presenting such a proposition, if it really is in the bill as stated, confirms the charge that members profess to be so indignant at. The voting themselves large sums for mileage, more than the cost of travel, is bad enough, but exempting themselves from taxation, is an aristocratic pretension the public are not quite willing yet to allow.—*Philad. Led.*

ANOTHER RAILROAD.—The Columbia and Port Deposit Railroad Company are petitioning the Delaware Legislature for the privilege to enter the State and terminate at some point on the Delaware bay or river. It is understood that it will run from Port Deposit through the fertile regions of Cecil county, Md., and connect with the Smyrna and Bombay Hook Railroad at Smyrna, if the latter can obtain a charter, of which there is little doubt, as the bill has already passed the House with but one dissenting voice, and unless something unforeseen turns up, there is little doubt of its passage through the Senate.—*Smyrna (Del.) Times.*

COL. FISH PARDONED.—William S. Fish, late colonel of the First Connecticut Cavalry, and formerly provost marshal of Baltimore, who was sentenced last April to be cashiered, forfeit all pay and allowances, pay a fine of $5,000, and be imprisoned in the Albany penitentiary until the fine should be paid, has been pardoned by the President.—*Wash. Rep.*

A MILLION DOLLARS A MINUTE.—On Saturday, about three o'clock, the orders by telegraph from various parts of the country, and from Philadelphia, to Mr. Jay Cooke, for the new loan, in the space of a single minute exceeded one million dollars.—*Phil. Inq.*

BAUGH'S RAW-BONE PHOSPHATE,

UNSURPASSED FOR PRODUCING A

HEAVY GROWTH OF CORN, OATS, POTATOES,

AND ALL SPRING CROPS, AND PERMALENTLY ENRICHING THE SOIL.

IT CONTAINS the fertilizing properties of Guano, Bone, Stable Manure and Lime.

Producing in many cases larger crops by fifty per cent. than either of the above articles, when used separately.

It is a highly concentrated manure, being made from Bones containing all their original animal matter. No Burnt Bones are used.

It has been used by thousands of farmers in this State, with the highest satisfaction. It has proved a perfectly reliable substitute for "Peruvian Guano," being sufficiently quick in its action on the crops, and in all cases enriching the soil, and it is permanent in its effects.

It would be well for farmers to send in their orders early, either to the subscriber or to any of his agents, from whom circulars can be obtained, giving certificates.
