The Conference resolved to hold its next annual session on the second Wednesday in March next, at the West Baltimore Station.

THE KENT CO. (MD) RAILROAD.—Parties are now urging the Kent County Railroad Co. to bring their line to Elkton, and connect with the Phila. Wil. & Balt. R. R. at that point, instead of intersecting the Delaware road at or near Townsend. The route would be about ten miles longer. It is proposed to carry the road over what was formerly known as the Eastern Shore Railroad, much of which is already graded—from Elk on to Bohemia Mills The Elkton papers strongly urge it. They state that the Peninsular trade is fast being monopolized by Philadelphia and drawn away from Baltimore, and by the proposed route this section of the Eastern Shore would be placed twenty miles nearer the latter city. It is a Baltimore scheme, in all probability, but whether it has not been too long delayed is a question for time to settle. Philadelphia may be stirred up, and may offer greater inducements to the Company to continue the original route than Baltimore can give for this proposed new route; and perhaps the whole project may result in the early completion of the road.—*Smyrna Times.*

MASS MEETING AT DENTON.—A large mass meeting of the citizens of Caroline county, Maryland, irrespective of party, was held at Denton on Tuesday of last week. A. P. Sorden, Esq., presided, The following gentlemen were appointed a committee to report resolutions for the occasion—Dr. C. E. Tarr, P. W. Downes, G. M. Russum, J. W. Bryant and James B. Steele. This committee reported a preamble and resolutions cordially endorsing President Johnson's veto of the Freedmen's Bureau bill and his restoration policy, and also urging the repeal of the present registry law. The resolutions were unanimously adopted. The assemblage was then addressed by Wm. F. Causey, Esq., of Milford, Delaware. When he concluded, the throng in the court-house, where the meeting was held, became so great that it was found necessary to adjourn to the open air. Stirring speeches were then made by Col. Samuel Hambleton and J. Loyd Martin, Esq.

DISCOVERY OF A DANGEROUS COUNTERFEIT.—Among the most important discoveries recently made by the detectives of the Treasury Department in the counterfeiting of the national currency is that of the coupons of the ten-forty five hundred dollar bonds, one payment of which was due on the 1st inst. Persons who have invested in these bonds will be glad to learn that the counterfeit coupons have been detected, and that all the national banks and assistant treasurers have been thoroughly posted in regard to them. It is a most dangerous counterfeit, because heretofore unsuspected. It should also be understood that there are two genuine plates of the ten-forty coupons of the above denomination, both differing from each other in a slight degree.—*Nat. Intel.*

General Burnside has been nominated as the Republican candidate for Governor of Rhode Island.

THE FALL IN PRICE OF DRY GOODS.—The New York Post of Tuesday evening says:

Prices of goods of all descriptions are falling. The decline was great yesterday, though some kinds of merchandise were held by owners with considerable firmness. So much effort to make sales has rarely been put forth, and the disposition was everywhere manifest to close transactions and to "realize." The concession in dress goods is large—it extends to prints and all fine fabrics; on standards and woollens it is lightest. The fall in one month, on the basis of some of the prices of goods sold at auction yesterday, is reported to be fully one hundred per cent, but this is, of course, no criterion whatever of the market. The average decline may not exceed twenty or twenty-five per cent. in that line.

There is a very general feeling of insecurity in business circles, amounting almost to a panic in some quarters, and this adds to the depression. Nobody questions the policy of selling, but the public, and particularly the men in business, do not readily buy.

PRICE OF COAL.—There is at present quite a stagnation in the coal trade, and prices have again receded. Coal by the corgo, at this place, can now be had at $3 to $3 75 per ton. The wages of miners have, of course, gone down in proportion. Ninety cents per car is now paid for mining in the Shamokin region, instead of two dollars paid about a year since. By the week, $8 to $10, instead of $18 to $20. It is said the miners in Schuylkill and in the Lackawanna region are preparing to strike for higher Wages as soon as the season is fairly opened. Perhaps the present would be the best time for individuals or families to lay in a supply.—*Sunbury (Pa.) Amer.*

THE CHOLERA IN FRANCE.—The United States consul at La Rochelle, France, under date of February 20, informs the Department of State that the cholera appears to be moving along the western coast of France. After appearing at Caen and Brest it has followed the seaports, and is now actually at the Sables de Ouloune, within the consular district of La Rochelle. The consul says that the winds are cold, and blow incessantly from the northeast, as in 1832, accompanied by rain. From present appearances it will sweep down the coast via La Rochelle Bordeaux into Spain. The consul recommends rigid quarantine measures from those ports.

The Wisconsin Senate has struck out the word "white" from the qualifications of voters, by a vote of 17 to 11.
