NOTICE.

To all Whom it may Concern.

I DESIRE TAX-PAYERS to understand that Taxes are due on the *first day of July,* and not, as many seem to think, on the first of January. I also desire to collect all the taxes in my District *before the first of January next,* so that I may be prepared to pay promptly all levies when demanded. It cannot be expected that I should wait with tax-payers until the first of January, as at that time all levies upon me are due.

This notice is deemed sufficient to show the necessity of prompt payment, and parties need not flatter themselves with long indulgence, as I am determined to collect the taxes within a reasonable time, and will resort to the law in every case where it may be necessary.

I can be found at the Court House, Chestertown, every day.

Teeth Extracted Without Pain!

NITROUS OXIDE.

I DESIRE to call the attention of those suffering from bad teeth, (as there is nothing more calculated to undermine the constitution than decayed teeth,) that the time has come, and now is, when they can have their teeth taken out without pain, and that in Chestertown. When I first introduced this powerful esthetic, I was called upon to vouch for its innocency, and the happy effect it was said to produce.—That I could not then do except upon the authority of other responsible parties. But, as I now have practical knowledge in its operation, it gives me great pleasure to say, I feel no hesitancy in vouching for it, surpassing as it does my expectation in its happy effect.

THE PEPPER CURE FOR DELIRIUM TREMENS.—The greatest difficulty in the treatment of this too frequent and distressing disease, familiarly known under the name of *mania-a-potu,* is to procure sleep, which is the indispensable condition for recovery. We shall not on this occasion, discuss the relative merits of ardent spirits, opium, digitalis and chloroform, each of which has its advocates. Our object is to call attention to a remedy easily obtained, and of the precise dose of which and its general effects on the system we need not have any apprehensions, if baffled in our attempts at cure by its agency. We refer now to capsicum or red pepper. In a case of delirium tremens treated by Dr. Lyons, and recorded in a Dublin medical journal, a sixty-grain dose made into a large pill, was taken without any difficulty. The immediate and sensible effects were a burning sensation in the mouth and throat, and a sense of diffused warmth through the stomach and bowels for a brief period subsequently. In less than an hour after the pill was taken, the patient fell into a quiet sleep, and after two or three hours, awoke perfectly calm, conscious, and convalescent. The results obtained by Dr. Lyons, in the use of this condiment, are fully borne out by the experience acquired, on a far larger scale of observation, in the West Indies and in the Melville Hospital, Dublin. In the records of this hospital not less than from seventy to eighty cases are reported to have been successfully treated by the use of this drug in single or repeated doses, ranging from 20 grains upwards. No disorder of the stomach, or other unpleasant symptom, has been at any time noticed. For general employment, the use of capsicum offers many advantages over either opium or digitalis, which are contra-indicated by enfeebled action of the heart.—*Philadelphia Ledger.*

AMERICAN GOLD AND SILVER.—The gold and silver products of the United States for the year 1866 have been estimated at from eighty-two to one hundred and six millions. California produced twenty-five millions; Montana, eighteen millions; Nevada, sixteen millions; Idaho, seventeen millions; Oregon, eight millions; Colorado, seventeen millions; other sources, five millions.

The Lincoln Monument Fund has reached $70,000. It is invested in Government securities, and the interest is being added to the principal.

EX-GOVERNOR LETCHER ON SOUTHERN AFFAIRS.—*A Plea for Peace.*—Ex-Governor Letcher, of Virginia, delivered an address at Lexington, Va., on the occasion of the reinauguration of the Statue of Washington, at the Virginia Military Institute, in the course of which he said:

The Southern people regard the question at issue as settled; and forever settled. They accept the result, and are prepared to abide by it in good faith.—They pledge an honor that is untarnished, and when brave men and honest men give such a pledge, who can doubt their sincerity, and who can hesitate to believe that their pledge will be redeemed to the letter?

No Government can endure which does not rest upon the affections of its people. A wise, just, tolerant, upright administration of public affairs will win back the affections of the South and entwine them around the pillars that uphold the Union as the "clasping ivy" encircles the majestic oak. Kindness begets kindness—confidence inspires confidence—charity and tolerance generates love and affection.—Let all these ennobling virtues be cultivated and encouraged. If the scenes of the last four years cannot be forgotton by either side, let them be, at least, forgiven, and passed by in solemn, dignified silence. Let each side cease to remind the other of the disagreeable incidents that occurred during that sad but eventful period.

Let us then be of good cheer. Let no one be disheartened or discouraged. We must all do our duty in a faithful, independent and manly way, and then we may reasonably anticipate a bright and happy future for ourselves, our posterity and our country.

It should be the policy of all to inculcate a spirit of concord, and so act each to the other as to advance the common interest of all. We should do everything in our power to secure the prosperity of the nation, augment its wealth, develop its boundless mineral and other resources, arouse up its dormant energies, multiply its channels of intercommunication, encourage agricultural, mechanical and manufacturing industry. This is due to ourselves as well as those who are to come after us, and who look to us for the adoption of a policy that will place them before the world in the most advantageous position. Let us deal candidly, fairly, honestly, justly and charitably one with another, and then, kneeling around the altar of a common country, let a united prayer ascend to Heaven "God bless America."

CONGRESS AND ITS PAY.—The New York Tribune says: Congress did a very unwise, selfish, cowardly, unprincipled act, in increasing its own pay at the close of the late session. We say unwise; because there are not five men in the two Houses who would have dared, when candidates for their present positions, to declare that if elected, they would seek and vote to raise their own pay from $3,000 to $6,000 each per Congress. It was selfish; for the members must have known, that in so acting and voting, they were embarrassing and damaging the public cause which, they profess to have at heart, in their greedy lust of private gain. It was unprincipled; for functionaries entrusted with power over their own recompense should therein set an example of moderation, in order that they may be in position to resist sternly and efficiently the rapacity of other would-be leeches on the body politic. It was cowardly; for they did not venture to enact this increase of pay in a distinct bill, and let the yeas and nays be taken and recorded thereon, but sneaked it into the tail end of an appropriation bill, and juggled it through by the machinery of conference committee, after the House had voted it down by one-hundred and twenty-five to three. It was a very mean performance, and we hope to see it repealed at the next Session.

VERY TRUE.—"The strictest observance of constitutional forms is our only source of safety. There is nothing which the people of all parties should so pertinaciously insist on; nothing which all lovers of liberty should so jealously demand. If those of one side tolerate, for their own purposes, violations of the Constitution and the laws, they will have to see them violated in the interests of their opponents. We shall presently come to the sad pass where, as in Mexico, the party in power will claim the right to do what it pleases, regardless of Constitution and laws; and where our liberties will fall a prize to the first ambitious and unscrupulous leader who chooses to snatch them and to offer a wearied nation peace and order in exchange for freedom."—*N. TOBACCO has utterly ruined thousands of boys. It tends to softening and weakening of the bones, and it greatly injures the brain, the spinal marrow, and the whole nervous fluid. A boy who smokes early and frequently, or in any way uses large quantities of tobacco, is never known to make a man of much energy, and generally lacks muscular and physical as well as mental power. We would particularly warn boys who want to be anything in the world to shun tobacco as a most baneful poison. It injures the teeth. It produces an unhealthy state of the throat and lungs, hurts the stomach, and blasts the brain and nerve.
