FOLEY'S HONEY AND TAR
for children: safe, sure. No opiates

PAINFUL PERIODS

Suggestions How to Find Relief from Such Suffering.

While no woman is entirely free from periodical suffering, it does not seem to be the plan of nature that women should suffer so severely. Menstruation is a severe strain on a woman's vitality. If it is painful or irregular something is wrong which should be set right or it will lead to a serious derangement of the whole female organism.

More than fifty thousand women have testified in grateful letters to Mrs. Pinkham that Lydia E. Pinkham's Vegetable Compound overcomes painful and irregular menstruation.

It provides a safe and sure way of escape from distressing and dangerous weaknesses and diseases.

The two following letters tell so convincingly what Lydia E. Pinkham's Vegetable Compound will do for women, they cannot fail to bring hope to thousands of sufferers.

Miss Nellie Holmes of 540 N. Davision Street, Buffalo, N. Y., writes:

Dear Mrs. Pinkham:—

"Your medicine is indeed an ideal medicine for women. I suffered misery for years with painful periods, headaches, and bearing-down pains. I consulted two different physicians but failed to get any relief. A friend from the East advised me to try Lydia E. Pinkham's Vegetable Compound. I did so, and no longer suffer as I did before. My periods are natural; every ache and pain is gone, and my general health is much improved. I advise all women who suffer to take Lydia E. Pinkham's Vegetable Compound."

Mrs. Tillie Hart, of Larimore, N. D., writes:

Dear Mrs. Pinkham:—

"I might have have been spared many months of suffering and pain had I only known of the efficacy of Lydia E. Pinkham's Vegetable Compound sooner; for I have tried so many remedies without help.

"I dreaded the approach of my menstrual period every month, as it meant so much pain and suffering for me, but after I had used the Compound two months I became regular and natural and am now perfectly well and free from pain at my monthly periods. I am very grateful for what Lydia E. Pinkham's Vegetable Compound has done for me."

Such testimony should be accepted by all women as convincing evidence that Lydia E. Pinkham's Vegetable Compound stands without a peer as a remedy for all the distressing ills of women.

The success of Lydia E. Pinkham's Vegetable Compound rests upon the well-earned gratitude of American women.

When women are troubled with irregular, suppressed or painful menstruation, leucorrhœa, displacement or ulceration of the womb, that bearing-down feeling, inflammation of the ovaries, backache, bloating, (or flatulency), general debility, indigestion and nervous prostration, or are beset with such symptoms as dizziness, faintness, lassitude, excitability, irritability, nervousness, sleeplessness, melancholy, they should remember there is one tried and true remedy. Lydia E. Pinkham's Vegetable Compound at once removes such troubles. Refuse to buy any other medicine, for you need the best.

Don't hesitate to write to Mrs. Pinkham if there is anything about your sickness you do not understand. She will treat you with kindness and her advice is free. No woman ever regretted writing her and she has helped thousands. Address Lynn, Mass.

Ask Mrs. Pinkham's Advice—A Woman Best Understands a Woman's Ills.

GEO. W. SMITH. HARRY GRAHAM.

We Are After You

PATENT AND PROPRIETARY MEDICINES.

A REPLY TO MR. BOK.

I am not a maker of patent medicines nor have I any interest in the sale of them. I am simply a user, like the rest of you.

Patent medicines are friends of my youth, and friends of my family. They have helped me when I needed help; and if they need help now I feel like defending them. It is only fair reciprocity.

The fact is that the term "patent medicines," as applied to advertised remedies, is a misnomer. Very few of the remedies advertised to the laity are patented. The real patent medicines are advertised to physicans alone. They are brought into use almost solely through physicians prescriptions.

The most valuable products used by modern physicians are patented.

The largest pharmaceutical houses are not those which make remedies advertised in the newspapers. They make the remedies which are advertised to physicians alone, and they control those remedies absolutely by a patent or trademark. If the medical profession ceased to use these patented remedies, half the prescriptions which are written would need to be altered.

The mere fact therefore that a man controls a remedy, either by a patent or trademark, does not argue against it. It is rather evidence that the man has something which he considers worth controlling.

If the man, in addition, spends large sums in advertising, whether to physicians or to the laity, it forms to me further evidence of value. Nothing is more certain than the fact that a worthless arcticle cannot be advertised profitably.

Those who know advertising know that the cost of selling a bottle or package to a new user is several times the profit made on it. The only hope of profit comes through continued use; and, without merit, continued use cannot be expected. When a man has made a success in advertising a medicine, it is to me the best evidence possible that he has something good.

Then there is the question of alcohol which Mr. Bok seems to consider such a perilous one. All the fluid extracts and tinctures used in medicine must employ alcohol as a solvent and preservative. Prohibit a physican from using alcohol in his prescripton and you would make the practice of medicine impossible.

If a physician must use alcohol in certain prescriptions, shall we complain that a ready made medicine employs it for the same purpose?

If we are going to avoid the use of alcohol we must banish the extracts and essences used in our kitchen.

Fluid extracts, whether they are medicinal or culinary, cannot be made or preserved without alcohol.

The abuse of alcohol is another matter, but the cost alone is enough to prevent abuse. Alcohol costs about $2.60 per gallon. It is too expensive for any medicine maker to use more than he needs of it. And he cannot hope that people are going to take the medicine because of the alcohol, when good whiskey can be purchased for one-fifth as much.

An elderly druggist told me a few days ago that he had personally examined more than 100,000 physicians' prescriptions, and, by actual count, 70 per cent of them contained an opiate. Yet analysis shows not a trace of opiate in the largest sellers among the proprietary remedies.

There are thousands of physicians whose interests are opposed to proprietary remedies. They are ready to denounce a ready-made remedy at the slightest evidence of harm from it. Yet how seldom we hear of any harm from proprietaries.

It is the lack of poison, rather than its presence, which forms the real objection to proprietaries. It is by using a poison which the medicine maker avoids that the physician often secures a greater effect. The maker of a remedy has too much at stake to use anything which will result in occasional harm. And this caution leads him often to omit ingredients which he knows to be valuable.

Proprietary remedies are used not alone by the poor who cannot afford to call a physician. They are employed by those to whom expense is of no importance. And in ordinary ailments, when a physican is called, he prescribes a ready made remedy. Proprietary remedies are at some time taken by all of us. They are found in nearly every home.

And I know of no business where fraud has less chance of success than in medicine. A worthless remedy is very quickly found out. A sick person will not long continue a remedy which does not help. The lack of merit in a food may remain long undiscovered but if a medicine lacks virtue the fact is at once apparent.

A DEFENDER.

Just try "Pepsimint," the new granular, effervescent remedy for Indigestion, Dyspepsia, Headaches, Mental Exhaustion Stomach Disorders; Guaranteed harmless. Pleasant to take, 10 and 25c.
