Always liberal to Churches.

Every church will be given a liberal quantity of L. & M. paint. Call for it.

4 gallons Longman & Martinez L. & M. Paint mixed with three gallons linseed oil, will paint a house.

W. B. Barr, Charleston, W. Va. writes, "Painted Frankenburg block with L. & M. stands out as though varnished."

Wears and covers like gold.

Don't pay $1.50 a gallon for linseed oil, which you do in ready-for-use paint.

Buy oil fresh from the barrel at 60 cents per gallon and mix with Longman & Martinez L. & M. Paint.

It makes paint cost about $1.20 per gallon. Sold by Smith & Graham, Chestertown; F. H. Harper & Son, Still Pond; J. W. Ivens, Worton.

The Mammoth and the Mosquito

What has come to pass in thousands of years seems hardly credible. Primitive man, a weakling in comparison to modern man, was able to conquer the huge monsters of thousands of years ago, such as the *Mammoth*, and to-day they are dead forever; yet the mosquito and fly have never been conquered. It is now time for the scientist to devise methods for killing the mosquito and fly, so that they will go to join the mammoth and the monster lizards. The mosquitoes and flies are dangerous enemies of man because they spread contagion. The mosquito often carries the germ of malaria with his bite. The house-fly spreads germs of disease over our food. These bacterial germs, ever hunting for the weak spot, find a place in our blood, and then we suffer from grip, catarrh, consumption, or malaria.

Dr. R. V. Pierce, chief consulting physician to the Invalids' Hotel and Surgical Institute, at Buffalo, N. Y., says: "There would be no grip epidemics, the germs of consumption, or malaria would find no place in the human economy, if the blood were pure, if the lungs, heart and other organs were fed on good blood. Poisons should not be allowed to accumulate in the body; to be safe it is best to take a gentle laxative at least once a week." Such a vegetable laxative as Dr. Pierce's Pleasant Pellets contains nothing which could harm the system.

For putting the blood in order, and as a tissue-builder and tonic for those weakened by coughs, colds, catarrh, grip, nothing will build one up quicker than Dr. Pierce's Golden Medical Discovery. This is a medicine made entirely of roots and herbs, without the use of alcohol.

Dr. Pierce's Medical Adviser is sent *free* on receipt of stamps to pay expense of mailing *only*. Send 21 one-cent stamps for paper covered, or 31 stamps for cloth binding, to Dr. R. V. Pierce, Buffalo, N. Y

ROAD 5,000 YEARS OLD.

Scenes Along One of the Most Ancient Highways in the World.

The road from Homs to Hama runs almost due north, a straight white line cutting across the green fields. It is one of the oldest routes in the world. Caravans have been passing along it for at least 5,000 years, just as we saw them—long strings of slow moving camels with their bright colored bags of wheat.

One could almost imagine that Pharaoh was again calling down the corn of Hamath to fill his granaries against the seven years of famine. But even here the old things are passing. Just beyond the long line of camels was a longer line of fellah women, their dirty blue robes kilted above their knees, carrying upon their shoulders baskets of earth and stone for the roadbed of the new French railway.

The carriage road is French, too, and a very good road it is. Some men were repairing it with a most ingenious roller. It was a great round stone, drawn by two oxen and having its axle prolonged by a twenty foot pole, at the end of which a barelegged Arab was fastened to balance the whole affair. If the stone had toppled over the picture of the Arab dangling at the top of the slender flagstaff would have been worth watching.

All along the ride we were reminded of the past. It is a fertile soil, but the very wheatfields are different from ours. Only a few yards in width, they are often of tremendous length. I hesitate to commit myself to figures, but it is certain that the thin, green fields would stretch away in the distance until lost over some little elevation. At one place the road was cut through a hill honeycombed with rock tombs which the haj said were Jewish.

Every now and then we passed a tell, or great hemispherical mound, built up of the rubbish of a dozen ruined towns, for even as late as Roman times this was a well cultivated and populous country. There is now no lumber available for building purposes, and in a number of villages the houses are all built with conical roofs of stone. Where the rock happens to be of a reddish tinge the houses remind one of nothing so much as a collection of Indian wigwams. Where the stone is white, as at Tell et Biseh, it glitters and sparkles like a fairy city cut out of loaf sugar.—Scribner's Magazine.

POINTED PARAGRAPHS.

Do you always keep an appointment or just claim to?

A woman always thinks her dressmaker keeps half the goods.

Nine-tenths of the things people quarrel over do not make any difference one way or the other.

When the doctor says to you, "Old man, I'm sorry, but you can't live an hour," how will you take it?

A boy is old enough to be welcome in the neighbor girl's parlor long before his sister thinks he is old enough to sit in the parlor at home.

Had the old fashioned children acted like the present generation there would have been no children. Their parents would have beaten them to death.

Every one has his vanity card to play. The preacher gets a man into the fold by telling him of the "great influence" he has upon others.—Atchison Globe.

A Fish's Appetite.

A singular instance of tenacity in the digestion of fish is reported from Sheffield, England. The fish, which was a ling four feet long, had what appeared to be an abnormally hard liver. But the cutting up process revealed something far stranger. The supposed hard liver turned out to be nothing else but a piece of stout netting, over two yards long and fourteen inches wide, which had been pressed into the form of a football. How this great mass of indigestible material came to be swallowed by the creature is a mystery, and the suggestion that the fish caught in the toils of a fisherman's net solved the problem of how to escape by devouring his prison walls is not considered scientifically practicable.

Lovers' Hearts.

How old is the emblem of a lover's heart? In the days before metals were used weapons made of stone were formed by prehistoric men. Among the most notable of such ancient weapons are a number of beautifully chipped arrowheads which have been taken to be the work of fairies and have therefore been used as charms from very remote times. In Scotland they are called "elf bolts," and they are so shaped that when the central projection is broken off the semblance of a lover's heart remains.—London Answers.

Keeping Cider.

Where cider is used from the cask, to prevent spoiling in the partly empty cask pour upon the cider a quart of some tasteless oil, such as olive or peanut oil. The oil will form a thin film on the surface of the cider and prevent access of the acetic and putrefactive ferments always present in the air.—Southern Farm Magazine.

No Choice in the Matter.

"And what did Jane say about me?"

"Well, I'd just as soon tell you. Jane said she thought you were strictly honest."

"That's nice of Jane."

"Yes. She said you didn't know enough to be anything else."—Cleveland Plain Dealer.

The Way to Dress.

"Now, then," said Mrs. Polk after dinner, "how shall I dress for the theater this evening?"

"In time to see part of the first act, dear," replied her husband mildly.—Exchange.

DO YOU GET UP WITH A LAME BACK?

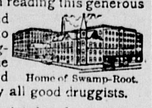

Kidney Trouble Makes You Miserable.

Almost everybody who reads the newspapers is sure to know of the wonderful cures made by Dr. Kilmer's Swamp-Root, the great kidney, liver and bladder remedy.

It is the great medical triumph of the nineteenth century; discovered after years of scientific research by Dr. Kilmer, the eminent kidney and bladder specialist, and is wonderfully successful in promptly curing lame back, kidney, bladder, uric acid troubles and Bright's Disease, which is the worst form of kidney trouble.

Dr. Kilmer's **Swamp-Root** is not recommended for everything but if you have kidney, liver or bladder trouble it will be found just the remedy you need. It has been tested in so many ways, in hospital work, in private practice, among the helpless too poor to purchase relief and has proved so successful in every case that a special arrangement has been made by which all readers of this paper who have not already tried it, may have a sample bottle sent free by mail, also a book telling more about Swamp-Root and how to find out if you have kidney or bladder trouble. When writing mention reading this generous offer in this paper and send your address to Dr. Kilmer & Co., Binghamton, N. Y. The regular fifty cent and dollar sizes are sold by all good druggists.

Home of Swamp-Root.

Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.
