THE tax levy in Cecil county for the present year has been declared at $1.20 on the $100, and in Dorchester $1.30. The State tax to be added.

THE Republican program as outlined by Hon. S. A. Williams, a member of Republican National committee, is to enact the Haman oyster bill!

THE State Teachers Association was held at the Blue Mountain House this week and was largely attended. Those present from Kent report a fine time.

BY the will of Miss Sallie Longwell who died recently in Westminster Western Maryland College gets $5,000. The Protestant Episcopal and Presbyterian Churches receive about $75,000.

THE Western Maryland Railroad has settled with nearly all the families of the 26 men who were killed in the collision some weeks ago. The family of each person killed was paid $500 cash.

HENRY J. HANDY, the negro who murdered his wife, was hanged in the jailyard at Salisbury Friday morning shortly after 5 o'clock. This was the first hanging to take place in Wicomiso county.

THE Baltimore Sun is evidently growing as a new press to print 24,000 12-page papers an hour is to be installed at once. The Sun is a great newspaper and wields a wonderful influence in this State.

THE Equitable Assurance Co., investigation is proving that "graft" was a popular thing. In his testimony Senator Chauncey M. Depew said that he voted to loan the Depew Improvement Company $250,000 on property appraised at $150,000 and foreclosed for $50,000; that he has received $20,000 annually for 16 years for his advice to the society.

ONE of the greatest bank schemes of this country has been held up by the Government and is now in the hands of a receiver. It is the People's United States Bank of St. Louis of which E. G. Lewis, publisher of the Woman's Magazine, got more than $2,000,000 on questionable paper. Among the stock-holders there are six or ten in Kent while in the State they number 1900.

THE Cumberland Ministerial Association has recorded its opposition to the "marriage traffic" business. Resolutions were adopted expressing indignation at the practice of securing "graft" from couples coming here to be married. It was further resolved by all the ministers to refuse to perform the ceremony for any couple where they have suspicion of "graft" from railroad men, newspaper boys on trains and others. In order to assist the out-of-town couples in locating the clergymen a list of all ministers and their addresses will be placed in the clerk's office. We have yet to hear of "graft" in death certificates. Is it on the program, too?

PRESIDENT ROOSEVELT addressed the National Educational association in Ocean Grove last Friday. He said the success of rich men sets up a false standard and that the work of a teacher is the most characteristic work of the republic. "I do not," said he, "in the least underestimate the need of having material prosperity as the basis of our civilization, but I most earnestly insist that if our civilization does not build a lofty superstructure on this basis we can never rank among the really great peoples. A certain amount of money is of course, a necessary thing, as much for the nation as for the individual, and there are few movements in which I more thoroughly believe that in the movement to secure better remuneration for our teachers. But, after all, the service you render is incalculable, because of the very fact that by your lives you show that you believe ideals to be worth sacrifice and that you are splendidly eager to do nonremunerative work if this work is of good to your fellowmen."

EDWARD BRADY & Son, Baltimore, were awarded the contract for the new Sun building, which is to be erected at the southwest corner of Baltimore and Charles streets. The bid was $289,200. Three firms were asked to submit bids; between the highest and the lowest bids there was a difference of only $1,464, while between the two lowest there was just $56 in favor of Messrs. Brady & Son. The work of erecting the new building will start at once and it will be completed within a year. When finally finished it will be one of the handsomest and most imposing structures in the city, as well as one of the most modern, complete and attractive newspaper buildings in the country. Equipped with every facility for the production of a great newspaper, with its splendid location and spacious site, the new home of the Sun, it is believed, will be one of the architectural features of the city and a building which will be generally admired.

THE youth who has been enabled to enter the Naval Academy by the assistance of a mechanical stretching machine has introduced a new feature into prospective war. It may happen that in future the greatest naval victory may be due to the greatest stretching machine.

LOCAL NEWS.

THE contract for furnishing the Kent county almshouse with coal has been awarded to Thos D. France at $6 per ton.

A BLOCK of Chestertown bank stock was sold this week at over $40 per share!

THE Canning & Mercantile Co., of Still Pond, announce that they have sold their property in Still Pond consisting of storehouse, lot, electric light and mill plant, possession given August 1st. For the next two weeks they will sell their stock at a big reduction. The purchasers are Charles W. Hague, A. J. Hackett and Howard Turner, who will make a specialty of the feed and implement business. This is a hustling trio and are deserving of success.

THE Board of Directors of the Second National Bank have declared a semi-annual dividend of 3 per cent. and carried $2,877.00 to the undivided profit account. This bank now has a surplus of $25,000.00 and undivided profits of $5,000 00.

THE contest over the administration of the estate of the late Wilhelmina and Edna Hurlock has been discontinued and Mr. Frank H. Greenwood, of Chestertown, has been appointed administrator. He bonded at Dover for $60,000 and will bond in Chestertown for about $16,000.

AT a meeting of the Board of Directors of the Fruit Growers' National Bank of Smyrna, the usual semi-annual dividend of 4 per cent. was declared and in addition to this the Directors voted to carry $10,000 to the surplus fund out of the earnings of this bank. This now raises the surplus to $25,000, which is half the capital stock of the institution. When the fruit growers bank reorganized three years ago the surplus was only $10,000 and in this time they have earned enough to pay an annual dividend of 8 per cent., keep up the expenses of the institution and have carried over to the surplus $15,000.

THE KENNEDYVILLE W. C. T. U. held its regular monthly meeting July 7th, in the M. P. Church. With Mrs. Annie R. Redmile at the organ the meeting opened with a short song service and prayer by Rev. Mr. Jamison, of the Presbyterian church, scripture reading was given by Mrs. Othoson, reading of the minutes by the secretary, music by the choir. A very instructive paper was read by Mrs. Emma Shafer, "Economic Phase of the Liquor Traffic," Mrs. Jarrell read a selection, "Some Signs of the Time." A solo by Miss Mary Smith, "Saved by Grace." Rev. Mr. Jamison spoke briefly on the meaning of Independence day. Among other things he said that while we boast of our liberty we often forget that liberty had its birth in the church of God and this nation owes all to God and his church, and while we glory in our liberty we are all more or less slaves and there is a slavery worse than death. In this day every man should strive to be a better man than his father was else the world would stand still, and every young man of the times should determine to rid themselves of everything that binders, and be able to run the race of life as a strong man and not a slave. The meeting closed with doxology and benediction by Rev. Mr. Jamison.

CHESTERTOWN

WE, FOR THE 60TH SEASON PRESENT

...Our Fertilizers...

TO THE FARMERS AND PLANTERS OF KENT and adjoining counties. With pride we say that we are better equipped than ever, this year to give you your money's worth.

Many cannot understand why, after so many years doing business here, that Wilbur W. Hubbard's Fertilizers are more extensively used year after year. But the mystery is solved by a visit to our factory, which is always open for inspection to the public, and those who go down to our works marvel at the pains taken in manufacturing the goods.

First the bone is shoveled in the crusher with a scoop shovel and prepared for the Denmead mill, then it is dissolved, and after getting in good mechanical condition, if making a dissolved bone goods, so many pounds of bone is put in the mixer. The nitrate of soda, fish and high grade potash are added, the whole thoroughly mixed, passed through a phosphate mill and screened and thrown up in bulk, to remain until it is shipped, and then it is bagged in new treated acid proof bags and sent out in splendid shape. We are often asked, "why don't you run the goods when first mixed, right in the bags, and not go to the expense of treating the bags, as do other manufacturers?"

We are often asked if this is not a needless extreme, but we reply—it pays to make the best.

Whilst there is some loss by evaporation by bulking, an additional expense in rebagging and an expense to treat the bags, when we remember that a farmer appreciates a good goods, and in first class mechanical condition it pays to go to extremes as it is impossible to make a first class fertilizer otherwise, and by treating our customers right in their purchases, making the time of payment of the bill to suit them, we have gotten a personal hold upon our trade.

The Fertilizers for 1905 are the best we have ever put out. Each year has its experiences. We learned something in 1904—the users of Wilbur Hubbard's Fertilizers will get the benefit of it. A poor article may sell rapidly for a time if it is pushed energetically, but a record of steady gain over a period of 60 seasons among the same people, can only be achieved by a good, reliable article. You can only judge the future by the past. If you have used Wilbur Hubbard's Fertilizers in the past you may be assured they will give you satisfaction in the future. If you have not tried them, we ask you if a record of Thirty (30) successful years with the farmers of the Middle States is not a sufficient guarantee to justify you in using the goods.

Soliciting your patronage, and thanking all our friends for their substantial support in the past, we remain

Very truly yours,

Wilbur W. Hubbard,

Manufacturer of Standard Bone Fertilizers,

A Resolute, Positive Clearance of Summer Stocks While They Are Fresh and Fashionable

An Average Third to be Saved on Things Wanted for Present Wear and Use

In its immensity, in its scope, in its economy advantages, this Sale outclasses every merchandise event—even of our own planning and accomplishment—that has preceded it. And we feel very safe in saying that it will not be approached—much less equaled—by any sale of any kind anywhere until it is, perhaps, equaled by some future sale at this store

$182,500 worth of seasonable merchandise to go for $121,666—which means that an average third has been sliced from the prices of goods that have been selling freely in the regular way—goods that are all that they should be at every point. But please understand what "an average third" means—that while some things are at half price or less, others may not be reduced more than a fourth; that the average sum of the reductions amounts to a third.

It will pay anyone to make a special trip to Baltimore just to attend this sale. The dollars that can be saved will pay over and over for the cost of the trip and the time.

Our Mail Order Department is equipped to give prompt and accurate service. The McCall Bazar of Fashions will be mailed free every month on request. Samples of Silks, Dress Goods, Wash Fabrics and so on will be cheerfully sent if you will write for them.
