## Washington College,

CHESTERTOWN, MD.

The One Hundred and Twenty-fourth Session Begins September 20, 1905.

The college offers three courses of study—CLASSICAL, LATIN-SCIENTIFIC, SCIENTIFIC—each leading to the degree of Bachelor of Arts.

The elective system enables each student to select the studies suited to his particular needs. Two Sub-freshman classes are maintained for the benefit of those who desire a thorough preparation for college.

The Normal Department is recognized by the State as a part of the system of public education. A diploma entitles the holder to teach in any county of the State without examination.

Students are provided with good board and comfortable, well furnished quarters. The buildings are equipped with every modern convenience—steam heat, electric lights, baths.

Here students may pursue their work in a highly moral community, amid beautiful and healthful surroundings, under careful supervision of health and habits, at very low rates.

# THE TURN OF LIFE

## A Time When Women Are Susceptible to Many Dread Diseases—Intelligent Women Prepare for It. Two Relate their Experience.

The "change of life" is the most critical period of a woman's existence, and the anxiety felt by women as it draws near is not without reason.

Every woman who neglects the care of her health at this time invites disease and pain.

When her system is in a deranged condition, or she is predisposed to apoplexy, or congestion of any organ, the tendency is at this period likely to become active—and with a host of nervous irritations, make life a burden. At this time, also, cancers and tumors are more liable to form and begin their destructive work.

Such warning symptoms as sense of suffocation, hot flashes, headaches backaches, dread of impending evil, timidity, sounds in the ears, palpitation of the heart, sparks before the eyes, irregularities, constipation, variable appetite, weakness and inquietude, and dizziness, are promptly heeded by intelligent women who are approaching the period in life when woman's great change may be expected.

These symptoms are all just so many calls from nature for help. The nerves are crying out for assistance and the cry should be heeded in time.

Lydia E. Pinkham's Vegetable Compound was prepared to meet the needs of woman's system at this trying period of her life. It invigorates and strengthens the female organism and builds up the weakened nervous system. It has carried thousands of women safely through this crisis.

For special advice regarding this important period women are invited to write to Mrs. Pinkham at Lynn, Mass., and it will be furnished absolutely free of charge.

Read what Lydia E. Pinkham's Compound did for Mrs. Hyland and Mrs. Hinkle:

Dear Mrs. Pinkham:—

"I had been suffering with falling of the womb for years and was passing through the Change of Life. My womb was badly swollen; my stomach was sore; I had dizzy spells, sick headaches, and was very nervous.

"I wrote you for advice and commenced treatment with Lydia E. Pinkham's Vegetable Compound as you directed, and I am happy to say that all those distressing symptoms left me and I have passed safely through the Change of Life, a well woman. I am recommending your medicine to all my friends."—Mrs. Annie E. G. Hyland, Chestertown, Md.

### Another Woman's Case.

"During change of life words cannot express what I suffered. My physician said I had a cancerous condition of the womb. One day I read some of the testimonials of women who had been cured by Lydia E. Pinkham's Vegetable Compound, and I decided to try it and to write you for advice. Your medicine made me a well woman, and all my bad symptoms soon disappeared.

"I advise every woman at this period of life to take your medicine and write you for advice."—Mrs. Lizzie Hinkle, Salem, Ind.

What Lydia E. Pinkham's Vegetable Compound did for Mrs. Hyland and Mrs. Hinkle it will do for any woman at this time of life.

It has conquered pain, restored health, and prolonged life in cases that utterly baffled physicians.

## WILL FIGHT FOR HIS LIFE

**Counsel For John M. Simpers Will Carry His Case to the Court of Appeals.**

In less than three weeks, the time granted counsel for John M. Simpers, the condemned murderer of the late Hon. Albert Constable, of Elkton, in which to file their bill of exceptions noted during the progress of the trial before the Circuit Court for Cecil county, last March, will expire. In speaking of the case yesterday John S. Strahorn, Esq., the surviving counsel for Simpers, stated that there was no doubt but that the case would be carried to the Court of Appeals, unless the unexpected happened. While the trial was in progress last March, Simpers' counsel left nothing undone that would tend to help his case, and many exceptions were noted—the principal one being "that it was unlawful to try a person for a crime while he was serving time and was a prisoner of the State." In June last, Chief Judge McSherry of the Court of Appeals, rendered an opinion in a similar case, that of Roland B. Rigor, against the State of Maryland, writ of error to the Criminal Court of Baltimore City. In this case the plaintiff in error had been tried and convicted by the Criminal Court of Baltimore City for an assault upon a guard while he was already serving a sentence for a previous offense, consisting of robbery and murderous assault upon the conductor of a Lake Roland car.

The Court of Appeals ruled adversely upon all the claims made by Rigor, the strongest of which was that the court possessed no right to bring him before it on a writ of habeas corpus while he was undergoing imprisonment for another crime.

Judge McSherry said, in his opinion, that the penitentiary is not a place of sanctuary, and that a convicted criminal ought not to enjoy immunities greater than those of other persons. The delay in bringing a criminal to trial under the contrary rule would be an inducement to crime and oppsed to public policy.

THE new illustrated catalogue of Goldey College is an unusually interesting book of 64 pages, and should be read by every young man and young woman who is looking forward to a business career. It gives full information about the commercial and shorthand courses, contains interesting letters from students and their parents, and is in every respect a most interesting and valuable book for persons who want to get a practical business education.

## MENTAL PROPS.

**Various Things That Give Us Confidence In Ourselves.**

We each have the need of our mental "prop." One woman tells me that when she wishes to give decided orders to her cook she always puts on her hat and gloves, then, as she floats into the kitchen surrounded by a cloud of dignity and courage, she feels equal to the occasion.

Good and well fitting clothes are props to us all and bring about a certain confidence in ourselves, a sort of mental pat you on the back, which says, "Brace up, old boy; the shell is perfect; let's hear from the kernel."

To the little school miss on the day of the entertainment what a prop is the bristling blue sash.

The doctor depends much upon his gloves. He can be busy with them when vital or difficult questions are asked. They are a sort of moral safety valve.

For the bashful boy who is deprived in the hall of hat and gloves before entering the room filled with people it some good fairy would only hand him a book to occupy his hands so he need only look after his feet what a prop it would be to him!

A clergyman's prop lies in well fitting vestments.

As for the writer of this article—I can speak with the authority of most intimate acquaintance—she must have her hair arranged in the way she affects it and her shoes on to cope with life's emergencies. She finds the waggish old world rather a jolly place and loves to watch frail humanity leaning gently upon their "mental props," while they are happily quite unconscious of her scrutiny.—Jeannette Young in Critic.

**Icon Subjects.**

Icons may represent anything from the figure of a saint to a historical scene, such as a martyrdom. Often they take the form of a diptych or a triptych or a polyptych cradled with angular or diminutive figures of saints or miniature scenes from the life of the Virgin or some other Biblical personage. From the number of scenes contained in these objects the peasants came to call them "churches," for there were not more pictorial representations within the church itself. Such icons may be of brass or of carved boxwood, being sometimes ornamented with enamels.

**Durability of Ivory.**

The durability of ivory is proved by the fact that billiard balls, which for the sake of curiosity have been made of well preserved mammoth ivory undoubtedly many thousand years old, were played with for several months by experienced players without its being noticed that the balls were not made of fresh ivory. Mammoth ivory is, as a rule, not as tough as fresh ivory.

**Source of Discontent.**

"Then you don't believe in higher education for women?"

"Certainly not. I think it's a shame to even teach 'em how to read. If a woman couldn't read the barber's advertisements she wouldn't be so unhappy over the hors d'oeuvres she can't afford to buy."—Catholic Standard and Times.

**The Sweetest Words.**

A magazine writer wants to know what are the four sweetest words in the English language. Some would say, "Here, take this money."—Somerville Journal.
