Dragging Down Pains

are a symptom of the most serious trouble which can attack a woman, viz: falling of the womb. With this, generally, comes irregular and painful periods, weakening drains, backache, headache, nervousness, dizziness, irritability, tired feeling, etc. The cure is

WINE OF Cardui

The Female Regulator

that wonderful, curative, vegetable extract, which exerts such a marvelous, strengthening influence, on all female organs. Cardui relieves pain and regulates the menses. It is a sure and permanent cure for all female complaints.

At all druggists and dealers in $1.00 bottles.

"I SUFFERED AWFUL PAIN

in my womb and ovaries," writes Mrs. Naomi Bake, of Webster Grove, Mo., "also in my right and left sides, and my menses were very painful and irregular. Since taking Cardui I feel like a new woman and do not suffer as I did. It is the best medicine I ever took."

Gold-Filled Teeth.—The jawbone of a sheep tipped with gold is to be presented to President Roosevelt. L. C. Dillman has just reached Vancouver from Port Wrangel and with him has the lower jawbone of a mountain sheep. The teeth are tipped with gold deposits from the Alaskan fields. On the molars there are heavy deposits of gold and copper precipitates. The metals are as highly polished as though a skilled dentist had done the job.

The sheep from which the bone was taken was killed in the foothills of Mount Wrangel, and the metal coating sent hundreds of miners prospecting up to the head of Nizini River, near the great Copper River. Claims were located there, one ledge carrying ore giving 60 per cent. copper and $20 gold per ton was found at the top. There is excitement over the strikes made, and the unique method by which they were located is the first of its kind.

A DAY'S DOINGS IN NEW YORK.

Somewhere lately I have seen some amazing figures about New York City, showing in part, according to my recollection, that there is a birth and a death there every few minutes. Do you think this is true? G. H. S.

A daily paper in New York published in September of last year an article showing that there is, on an average, a birth in that city every six minutes and a funeral every seven; that somebody commits suicide every ten hours, and somebody is murdered every two days; that a house is built every hour; that a fire breaks out every three-quaters of an hour; that four hundred and and seventy-four million gallons of water are used every day—and so on.

THE AUTOMATIC SHOT GUN.

FRANKFORD, PHILADELPHIA, PA.
January 15th, 1906.

MESSRS. EDITORS "KENT NEWS,"

Dear Sirs: In your issue of January 13th, I notice with much pleasure the space you give to the proceedings of the Maryland Game Protective Association. This protection should appeal to the heart of every free born American, and the power of the "Press," throughout the whole of this gracious land should be enlisted in this good cause. I write to ask along this line, that you through the medium of your interesting paper and otherwise, will call the attention to the pernicious effects that the *Automatic Shot Gun* is doing as a game destroyer. This automatic gun (not a pop gun) enables the market shooter to deliver six shots into a bunch of duck in less than as many seconds and is the most destructive weapon since the swivel gun, of unholy memory. I am most creditably informed that these guns called the "Browning" are in quite general use on the Chesapeake Flats.

I can only hope, in the interest of our almost exterminated game that you may see fit to act on this hint.

Trusting that you will help to *bar* this new and pernicious enemy to all game. I remain very truly yours,

J. C. S.

ST. MARY'S BEACON

The Retirement Of A Veteran Maryland Journalist.

The St. Mary's Beacon, Col. Francis V. King, editor, in its issue of January 11 says:

"Wednesday, Jan. 10, 1906, Thomas Frank Yates left Leonardtown to make his home with his daughter in Chestertown, Md. As a boy and man he has worked in the Beacon office since 1857—all but 50 years. When Mr Yates first began the printing business John F. King, the father of the writer, was the editor and publisher of the Beacon Mr. Yates continued in the office until the Civil War, when he crossed the Potomac, joined the Confederate Army and fought for the Lost Cause until the end came at Appomattox. For alleged seditious editorials the Beacon was forged to suspend publication in 1862, and John F. King, though advanced in age, also went to Richmond, was employed for a time in the Auditor's office there, and later saw active service in the Confederate Army. After the war was over both returned to St. Mary's and resumed work on the Beacon, then owned by John F. King and James S. Downs, Mr. Downs having bought an interest in Jan. 1859. At the death of Mr. Downs, in 1875, Mr. Yates bought his interest in the Beacon, and until 1881 it was published under the firm of King & Yates. In August, 1881, John F. King retired from the paper and was succeeded by his son, Francis V. King, present editor, and the firm name was chaned to Yates & King.

This is an epitome of Mr. Yates' life. The deeds of kindness he has done are numberless and are writ large on the hearts of the people of this community, for his was ever—

The pitying heart that felt for human woe:
The dauntless heart that fear'd no human pride;
The friend of man, to vice alone a foe;
For even his failings lean'd to virtue's side.

"To the writer Mr. Yates' departure from the county is a personal loss, for we have been comrades ever since I was born, and no one was ever blessed with a truer friend. In success and failure we have toiled together, and now at the parting of our ways I trust and hope that to my father's friend and mine the elements may be kind and make his spirits all of comfort.'"

THE stockholders of the Second National Bank Wednesday elected the following gentlemen as directors for the year: Jas. A. Pearce, Hope H. Barroll, H. W. Vickers, Garrett Foxwell, Adam F. Huey, W. W. Hubbard, D. T. Hurlock, T. B. Burding, W. B. Copper, and the board of directors at their meeting on Wednesday organized by electing Hon. Jas. A. Pearce, president and Mr. H. H. Barroll, vice president, and re-appointed the following officers: W. B. Copper, cashier; E. F. Perkins, teller; H. T. Deaver, book-keeper and Miss Palmer Carroll, assistant book-keeper. The board of directors declared the usual semi-annual dividend of three per cent. clear of taxes, and carried $2,676.5 to the undivided profit account.

ALL SICK WOMEN

SHOULD READ MRS. FOX'S LETTER

In All Parts of the United States Lydia E. Pinkham's Vegetable Compound Has Effected Similar Cures.

Many wonderful cures of female ills are continually coming to light which have been brought about by Lydia E. Pinkham's Vegetable Compound, and

Mrs. Fannie D. Fox

through the advice of Mrs. Pinkham, of Lynn, Mass., which is given to sick women absolutely free of charge.

The present Mrs. Pinkham has for twenty-five years made a study of the ills of her sex; she has consulted with and advised thousands of suffering women, who to-day owe not only their health but even life to her helpful advice.

Mrs. Fannie D. Fox, of 7 Chestnut Street, Bradford, Pa., writes:

Dear Mrs. Pinkham

"I suffered for a long time with female trouble, and finally was told by my physician that I had a tumor. I did not want to submit to an operation, so wrote you for advice. I received your letter and did as you told me, and to-day I am completely cured. My doctor says the tumor has disappeared, and I am once more a well woman. I believe Lydia E. Pinkham's Vegetable Compound is the best medicine in the world."

The testimonials which we are constantly publishing from grateful women establish beyond a doubt the power of Lydia E. Pinkham's Vegetable Compound to conquer female diseases.

Women suffering from any form of female weakness are invited to promptly communicate with Mrs. Pinkham, at Lynn, Mass. She asks nothing in return for her advice. It is absolutely free, and to thousands of women has proved to be more precious than gold.

HOW IS "STANDARD" TIME RECKONED?

What is the scheme of reckoning standard time in this country, and why is it used?

Massachusetts.

Standard time in the United States is reckoned in four belts, to avoid the great confusion attending on having each locality use its own sun-time. By dividing the country thus each belt uses the same time throughout—usually the sun time of the meridian running through its centre—and the traveler from one belt to another must change on crossing the border. The "eastern section" extends as far as an irregular line drawn from Detroit to Charleston. The "central section" lies between this line and one drawn from Bismark, South Dakota, to the mouth of the Rio Grande. The "mountain section" extends from this line to very nearly the western borders of Idaho, Utah and Arizona. The "Pacific section" covers the rest of the country to the Pacific coast. The time used in each successive belt, counting westward, is an hour earlier than that to the belt east of it.

PERMANENT meadows should have an annual dressing of 500 pounds per acre of a fertilizer containing eleven per cent. POTASH and ten per cent. available phosphoric acid.

This will gradually force out sour grasses and mosses from the meadows, and bring good grasses and clovers; thus increasing the quality as well as the quantity of the hay.

Our practical book, "Farmer's Guide," gives valuable facts for every sort of crop-raising. It is one of a number of books on successful fertilization which we send on request, free of any cost or obligation, to any farmer who will write us for them.
