Capt. Thos. W. Kendall Killed.

Capt. Thomas W. Kendall, of Centreville Landing, fell from the third story window of his home Sunday morning and was instantly killed. He was in the sitting room talking to his wife and her sister. After leaving them he went to the third story, presumably for the purpose of seeing if his vessel was on its way to the landing, and in opening the window lost his balance and fell. In 15 minutes after the captain had left his wife Mrs. G. W. Hobbs, of Baltimore, who is visiting her sister, Mrs. Kendall, went out in the yard and found Mr. Kendall lying on the ground with his neck broken. He was 82 years of age and leaves a widow and four children, Amos T. Kendall, of Centreville; Omar C. Kendall, of Pittsburg; Mrs. John C. Graham and Mrs. Charles Graham, both of Wilmington, Del.

Captain Kendall was born in Kent county March 24, 1824, and was a son of Horace Kendall, a native of Kent. He obtained his education in the schools of Kent county, which he attended until he was 16 years of age, and then he went to sea, enlisting in the United States Navy. For two years he was in the service during the Mexican war, and was on the schooner Flirt. On his return home he became connected with the bay trade, and was the owner of a schooner which sails between Baltimore and points on the Eastern Shore.

For many years Capt. Kendall was engaged in the grain transportation business with the late Captain Ozman, of Centreville, under the firm name of Ozman & Kendall. They made regular shipments of grain from the Chester and Corsica rivers to Baltimore.

The deceased is survived by three brothers and three sisters, namely: Joseph C., Aso and Arthur Kendall, all Kent county; Mrs. H. H. Gresham, Mrs. Mary Urie, of Baltimore, and Mrs. W. D. Shinn, of Wilmington, Del.

Hicks' Weather Forcasts for July

"A reactionary storm period is central on the 10th, 11th and 12th. The crisis of this period will fall on and touching Thursday, 12th. On this date the moon crosses the celestial equator, coming northward. This fact will add to the probabilities of very high temperature, low barometer and thunder storms on and next to the 12th. The Venus period extends up to about the 25th, so that the extremes from summer heat to sudden cool liable to characterize the storms and weather changes at all July storm periods up to that time.

"A regular storm period covers the 15th to the 19th, central on the 17th. Notwithstanding anybody can safely predict it will be warm in July, we predict that it will be warmer at some times than others, and that this period—the 15th to 19th—will lead up to one of July's warmest periods. More thunder storms and local cloudbursts are probable about the 17th to 19th. A Venus revulsion to very cool might be normally expected immediately after these thunderstorms on the 21st. This fact calls for prolonged high temperature, low barometer and threatening, if not stormy, conditions, over the 21st and into the next storm period.

"A reactionary storm period is central on the 22d and 23rd, in which storms and seismic disturbances will be reported from wide extremes of the globe. Change to rising barometer and some cooler will follow these reactionary disturbances for two or three days—say from the 23rd to 25th progressively from west to east.

"A regular storm period runs from the 26th to the 30th, being central on the 28th. All who have properly studied our theory and forecasts have satisfied themselves of the fact that high temperatures and tendency to electrical storms are common on and touching dates when the moon is passing over the celestial equator. Hence as early as the 26th the last storm period in July will show decided indications of approaching summer storms. During Friday, 27th, to Monday, 30th, high temperature, low barometer and threatening thunder gusts will pass eastwardly over most parts of the country."

INFORMATION was received by friends in Chestertown, last week, of the death of Mrs. Sarah M. Willis, widow of the late John K. Willis, formerly of Chestertown. Mrs. Willis died Tuesday at the home of her daughter, Mrs. D. D. Matteson, in Brockton, Mass., with whom she had made her home for the past 10 years. The deceased was 73 years of age and leaves two daughters and one son, viz., Mrs. Mollie Matteson, Mrs. Ruth Johnson and Frank E. Willis.

Help! Help! I'm Falling

Thus cried the hair. And a kind neighbor came to the rescue with a bottle of Ayer's Hair Vigor. The hair was saved! This was because Ayer's Hair Vigor is a regular hair medicine. Falling hair is caused by a germ, and this medicine completely destroys these germs. Then the healthy scalp gives rich, healthy hair.
