FRED. G. USILTON. WM. B. USILTON, JR

WM. B. USILTON'S SONS, PUBLISHERS.

SATURDAY, - - - JULY 21, 1906

THE Bent Town Pard says Chestertown is rolling in the lap of luxury. Correct. And there's scores of summer boarders who declare it to be the Paradise of Maryland.

HON. THOMAS. A. SMITH, the Democratic nominee for Congress, is deserving of the hearty support of the people of this district. His firm stand with his party on all matters of moment to the Country, his fidelity to his public duties of every character, and his earnest labors for those measures of concern to this district entitle him to the vote of every citizen.

ONE of the most important moves ever made in the canned goods industry will follow the action taken Wednesday by the Canned Goods Exchange, of Baltimore, which decided to abolish the use of coloring matter in canned tomatoes, and to disregard the various state pure food laws and live up to the requirements of the federal law only. The reason for this sweeping action was explained by the president, who said that heretofore the various state laws, with their wide discrepancies, have been a source of much annoyance and financial loss to packers.

OF all the impudent Trusts, the Armor Plate Trust is the worst. Two of its officers visited Washington last week and brazenly informed the Navy Department that unless the Armor Trust was given a large share of the contracts for armor plate, the plants would be shut down, and that the government would be unable to secure the armor plate for the battleships now under construction. The Trusts don't mind holding Uncle Sam by the throat, and they generally get what they demand.

THERE is no reason why this campaign should not be an Anti-bribery one. Jackson was defeated notwithstanding all his wealth so that he should be willing to try another test. Many great public wrongs are being run to cover, and Marylanders could address themselves to no more creditable task than this one. Half a hundred sterling, stalwart men, from each party, in each of the counties in this congressional district, if fully agreed upon this good policy, and fully assured of public support, as they undoubtedly would be, could imperiously forbid the use of money at the polls in all the counties of this district, and their mandate, which is already the mandate of the law of the State, would not be disregarded.

ALFRED BEIT, the South African diamond king, railway magnate and associate of Jameson and Cecil Rhodes, and one of the richest men in the world, died in his bachelor apartments at London on Monday, at the age of fifty-three years. His fortune is estimated at a billion dollars, amassed by cornering the diamond markets of the world. One of Chestertown's sensible citizens, who cannot count his wealth by hundreds, says he knows he has been happier than than this Croesus and that he would not exchange places today with Rockefeller. Good health and friends are worth more than all the diamonds in the world.

"TEN YEARS AGO when Roosevelt and his party were saying that there were no evils save those of imagination, Bryan was pointing to the evils Roosevelt now sees, and urging the remedies Roosevelt now urges. The only difference between Bryan and Roosevelt on many questions is that the evils had ten years in which to grow and fatten and entrench themselves before the brightest and most courageous Republican could see what Bryan had already seen long before. The wisest statesman in a land is he who first sees a threatening evil and a proper remedy therefor. "When the light of a new truth is dawning on the world its earliest rays are always shed upon the loftiest minds."—S. S. Field.

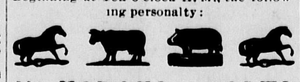

THE Baltimore Sun wants Gov. Warfield renominated. The Wicomico News aptly asks if the Sun will support him if he is renominated.

Public Sale

IMPORTANT

Supervisors' Notice

OFFICE OF BOARD OF ELECTION SUPERVISORS, CHESTERTOWN, MD., July 17th, 1906.

All Registrars of Voters and Judges of Election for Kent county who have been duly appointed and have not yet qualified, are hereby notified to appear before the Supervisors of Elections, at their office in the Court House at Chestertown, next

Tuesday, July 24th, 1906,

at 2 o'clock p. m. to be qualified.

☛It is urgent that those who have not qualified give heed to this notice, otherwise the supervisors may be required to resort to measure to compel the compliance with the law. By order—

G. H. CANNAN, President.
JAS. T. DECOURSE,
Supervisors of Elections for Kent County.
EDWARD ROBINSON, CLERK.

If we can't make that watch of yours go

You may just as well give it to the baby to play with. Its days of service are surely ended—and it is a question with you now of buying a new one.

You ought to come here for a new watch for the same reason that prompts you to bring us your repairing jobs—because we are in a position to give you the highest grade of satisfaction.

As we said, we can get all the service out of a watch that there is in it, down to the last tick, if you will let us look at it occasionally.

And as for new Watches—well, just take a few minutes some day to look over what we have. That's all we ask.

Bring us all your Repair Jobs, no matter how small or how difficult. It will be done promptly and to your satisfaction.

We keep all repair work in a fire proof safe, and you do not run any risk in leaving your Watches and Jewelry with us.

CHESTERTOWN, - MARYLAND

HUBBARD'S FERTILIZERS

The following was taken from the Smyna (Del.) Call of Saturday, July 14, 1906:

The farmers of this section easily lead the Peninsula in the yield of wheat obtained, and despite the unfavorable weather conditions which have prevailed just as the grain was ripening and have continued since harvest, the grain thus far threshed has turned out hard and solid, as well as plump and healthy looking.

A Call representative was an interested spectator of the threshing operations on the big Latham farms, near Clayton, Saturday morning, and if the conditions in which the golden grain poured out of the machine there is a fair criterion, then the quality of the wheat grown in this neighborhood is indeed gilt edged.

It was an exhilarating sight, this threshing bee. No less than twelve double teams of horses and mules were lined up in continuous procession "bringing in the sheaves" to the machine, where a corps of band cutters and a feeder pushed them into the insatiable maw that very quickly separated grain from chaff, and sent the latter scurrying toward an ever growing stack, while the grain poured out at the side, clean, plump and yellow as gold, at the rate of a heaping half bushel every thirty seconds. A bushel per minute, without check or falter, was the record.

Luther Latham, as he had a right to to be, was more than pleased with the yield, he said, while Edward, his son, who has just returned from a Philadelphia hospital with his broken leg still in splints, but improving, and who has again assumed the superintendency of the big farms, remarked: "It exceeds our expectations." About 1500 bushels was the yield here, and the average yield from one field was 30 bushels per acre.

Wilbur W. Hubbard's phosphate was the fertilizer used here, as it was on all the following list of farms, and George H. Cole, the selling agent, is as proud over the result as a boy with a new pair of red top boots.

Here is the list:

Mr. James F. David says he has been living on the farm where he now resides for twenty years, and that from W. W. Hubbard's Victor Brand Fertilizer he threshed this year 30 bushels to the acre of wheat that was the finest he ever saw—rich, amber color, and overran in weight—600 of which when sold gained 22¾ bushels; and that at the mill four bushels struck measure weighed 248 lbs. The finest stuobre he had seen in all his experience, and that he is going to use it exclusively this fall.

George R. Darrah, near Iron Bridge, hasn't threshed yet, but is certain of a 50 bushel per acre yield.

Walter Ginn, on the William M. Bell farm, near Iron Bridge, got nearly 1500 bushels, the biggest yield he has had for years.

R. N. Walton, near Delaneys, says he has secured the biggest yield he has received for many years.

Charles E. Christopher has averaged 25 bushels to the acre.

Edward Darrow, on the Gilbert Wilds farm, got 26 bushels and a peck per acre.

Benjamin R. Severson states that he used Wilbur W. Hubbard's phosphate side by side with a higher priced fertilizer, and the Hubbard gave him the best returns.

Meta N. Walls, west of Kenton, secured 25 bushels to the acre.

James H. Jones, near the Iron Bridge, reports an unusually large yield.

Wm. H. Staats, Smyrna, Del., says: I made a square test of phosphates this season, with this result: From 14 acres, upon which I used Wilbur W. Hubbard's phosphate, I received an average of full 2 bushels to the acre; from 15½ acres, upon which I used the Tyger phosphates, I received an average of full 2 bushels to the acre; from 15½ acres, upon which I used the Tyger phosphates, I received was at 19 bushels per acre. I therefore place my order for phosphate with W. W. Hubbard now for all.

To Our Patrons
— IN THE —
Grain AND Boating Business

We very much regret to announce the death of Mr. M. M. Rasin, the President and Manager of the Company, but beg to state there will be no change in the method of our doing business.

Mr. Andrew W. Woodall will be the President in the future. Mr. Parks Rasin will be agent at Buck Neck Wharf and will continue the business of his father, which he is well qualified to undertake, having been associated with him for several years past. He understands and is conversant with the business and is deserving of your patronage, which we solicit for him and ourselves.
