BALTIMORE'S BEST STORE.

Hochschild, Kohn & Co.

Howard and Lexington Streets.

We prepay Freight Charges to All Points Within 125 Miles of Baltimore on all Purchases Amounting to $5.00 or More.

NEW AUTUMN GOODS Are Here In Abundance

Summer is over—straw hats, thin dresses and low shoes have had their day—it's been a glorious summer.

It's to be a glorious autumn, to—to be partly made so for a great many people by the beautiful hats and suits and shoes and so on they'll get at this store.

We've never had such great stocks, nor such diversified stocks. And while we have always been leaders, our leadership has never been quite so pronounced as now.

Prices are moderate—lower than merchandise of equal quality can be bought for anywhere.

Our Mail Order Department is equipped to give prompt and accurate service The McCall Bazaar of Fashions will be mailed free every month on request. Samples of Silks, Dress Goods, Wash Fabrics and so on will be cheerfully sent if you will write for them.

Hochschild, Kohn & Co
Howard and Lexington Sts., BALTIMORE

Some of the Best Crops of Wheat

GROWN IN THE STATE WERE FROM

WILBUR W. HUBBARD'S

STANDARD BONE FERTILIZERS

Last year we made for Dr Isaac Barber, the ex-Congressman, and Mr. G. M. Wingard, the machinist, of Easton, a lot of Fertilizer that ontained 1400 pounds of Dissolved Animal Bone, 400 pounds of Bone Tanking 200 pounds of Muriate of Potash; total 2000 pounds. Dr. Barber we have not have not heard from, but the following is what Mr. Wingard has to say:

EASTON, MD., Aug. 1, 1906.
WILBUR W. HUBBARD, ESQ., Chestertown, Md.—Dear Sir: That goods you made for me last fall certainly gave satisfaction. In the spring our wheat looked like other people's. We feared that we would only have half a crop, although as I told you when I got you to make this goods for us I believed in a good goods and use less per acre, and only used 200 pounds on 100 acres, and threshed a few days ago from 66 acres 27 bushels per acre; from 40 acres 29½ bushels; from four acres 40 bushels per acre; and it was nice wheat. And I therefore believe it paid me better to use 10 tons of that goods than it would 20 tons of a cheap fertilizer, and my clover is splendid and about a foot high.

Respectfully,
G. M. WINGARD,
Machinist, Easton, Md.

Mr. Vincent Lee says: I used Wilbur Hubbard's fertilizer last year alongside a goods costing $3 50 more per ton and marked the place, and when the wheat was examined by people who came to see it Hubbard's was generally acknowledged to be as good or better.

Mr. Wm. Clark, on H. H. Barroll's farm, near St Paul's Church, says that Hubbard's fertilizer certainly did splendidly for him this time, and that part of it threshed out 24 bushels per acre.

Mr. E. D. Reed, who owns a threshing rig, under date of July 29th, certifies that Wilbur Hubbard's fertilizers for the last three years have yielded 3 to 5 bushels more per acre than others used in competition and that the farmers are appreciating their value.

Mr. H. H. Klinefelter says: I have used 90 to 100 tons of Hubbard's goods per year for ten years, and I expect to continue to use them.

Mr. John T. Jones, of Barclay, Md., says: I sold and used 40 tons of Hubbard's in 1903, 60 tons in 1904, 165 tons in 1905, and will need over 200 tons to supply my trade this fall.

Mr. Cad. L. Phillips, of Laurel, Del., says: I have sold and used Hubbard's fertilizers for 20 consecutive years, and this year it will take me 150 to 200 tons.

Mr. John H. Evans, of Queen Anne's, uses 75 to 100 tons of our goods per annum, and says this year by actual test Hubbard's was the best, and expects to use it again.

Mr. J. B. Hossinger says Hubbard's fertilizers give him satisfaction, and that is why he places his order for 28 tons this year.

FALL STYLES FOR LADIES

Short Coats—Dress and Utility Skirts—Plaids—Varied Materials and Colors—Millinery.

The best authorities agree in offering suits with coats of a length extending little below the waist line, rather than the half-length that was prophesied for this season. These come in a great variety of rather freaky but decidedly smart styles. The French jacket with pleated lower part is very much in evidence. Sleeves are full length in the more severe tailored styles but one sees any number of cape effects and three-quarter sleeves among the new models. Buttons, both of the suit material and of metal, bone, ivory or leather are used to a great extent as a garniture and braids and gimps of all sorts are very largely worn.

SKIRTS FOR DRESS AND UTILITY.

While skirts of function gowns continue to be long all round on many of the smartest models, suits have practical flaring short skirts clearing the ground from two to four inches. These are most often cut after a semi-circular somewhat pleated model that gives the becoming flare of the circular skirt without its tendency to sag. The dressy effect of the best skirts depend rather on their general cut and design rather than the use of applied trimmings if we except buttons and occasional touches of braid.

THE RAGE FOR PLAIDS.

Plaids of many sorts promise to be the rage, if they are sufficiently endorsed by fashionable women, for all styles are more or less on trial at this season. Certainly these patterns are most attractively displayed at all the best shops, and in most varied and fascinating combination. The regular Tartans are for the most part confined to ribbons for hat trimmings and to waist materials for school girls and misses. The sombre or shaded plaids are better adapted to older wearers. Many of these styles in robes for suits have matching materials for waists in taffeta or other weaves.

VARIED MATERIALS AND COLORS

It would seem that browns and greens are to lead in favor for street costumes this season, and there is a decided movement in favor of using serges of the best quality. Cheviots especially in stripes and small overplaids are among the prettiest materials used for smart specimens of suits for utility purposes, and are particularly well adapted for school girls and other young women. Touches of brilliant contrasting colors, in yellows that verge toward the orange tones, and the newest reds that run from terra cottas, to mahoganys are especially good with the more sombre tints used for the whole costume. Blues of a decided navy and contrasting Hydrangea shades are preferred this Fall and will make some of the most fashionable serge suits.

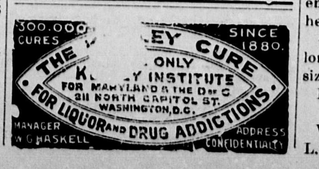

ILLUSTRATION.

Thanks are due the McCall Co., makers and designers of fashion for handsome illustration accompanying this article.

HATS.

The question of hats still remain to be settled, some contending that the very small hat will lead, others that all styles will be worn, which seems the most probable conjecture. Felts are very prominent, not more so however than plain velvet, and uncurled ostrich feathers either with long willow like flumes, or the shorter ones in bunches that suggest the domestic feather duster, and will soon be as ubiqnitous as were peacock feathers in the Spring, and probably go out of style as completely, and in as short a time. All sorts of fancy buckles and ornaments are used with ribbon trimmings on the new hats, and dahlias especially in mahogany shades are the newest thing in flowers. Cherries and grapes combined with tulle are seen on some of the most chic head-gear, and shapes are more decided in their outlines than has been the case for some time.

VERONA CLARKE.

Habit-forming Medicines.

Whatever may be the fact as to many of the so-called patent medicines containing injurious ingredients as broadly published in some journals of more or less influence, this publicity has certainly been of great benefit in arousing needed attention to this subject. It has, in a considerable measure, resulted in the most intelligent people avoiding such foods and medicines as may be fairly suspected of containing the injurious ingredients complained of. Recognizing this fact some time ago, Dr. Pierce, of Buffalo, N. Y., "took time by the forelock," as it were, and published broadcast all the ingredients of which his popular medicines are composed. Thus he has completely forestalled all harping critics and all opposition that might otherwise be urged against his medicines, because they are now OF KNOWN COMPOSITION. Furthermore, from the formula printed on every bottle wrapper, it will be seen that these medicines contain no alcohol or other habit-forming drugs. Neither do they contain any narcotics or injurious agents, their ingredients being purely vegetable, extracted from the roots of medicinal plants found growing in the depths of our American forests and of well recognized curative virtues.

Instead of alcohol, which even in small portions long continued, as in obstinate cases of diseases, becomes highly objectionable from its tendency to produce a craving for stimulants, Dr. Pierce employs chemically pure, triple-refined glycerine, which of itself is a valuable remedy in many cases of chronic diseases, being a superior demulcent, antiseptic, antiferment and supporting nutritive. It enhances the curative action of the Golden Seal root, Stone root, Black Cherrybark and Bloodroot, contained in "Golden Medical Discovery," in all bronchial, throat and lung affections attended with severe coughs. As will be seen from the writings of the eminent Drs. Grover Coe, of New York; Bartholow, of Jefferson Medical College, Phila.; Scudder, of Cincinnati; Ellingwood, of Chicago; Hale, of Chicago, and others, who stand as leaders in their several schools of practice, the foregoing agents are *the very best* ingredients that Dr. Pierce could have chosen to make up his famous "Discovery" for the cure of not only bronchial, throat and lung affections, but also of chronic catarrh in all its various forms wherever located.

Registrars of Voters.

Supervisors Notice of Appointment and Qualification.

The Supervisors of Election for Kent county hereby give notice that the following have been duly appointed and qualified as Registrars of Voters for the respective Election Districts and Precincts of Kent county:

1st District, 1st Precinct—George R. Moffett, Dem.; Joseph Mallalieu, Rep.
1st District, 2nd Precinct—W. A. Hyland, Dem.; Theodore Dempsey, Rep.
2nd District, 1st Precinct—Fletcher Melvin Dem; Harvey D. McCleary, Rep.
2nd District, 2nd Precinct—Edward Pennington, Jr., Dem.; Geo. W. Atwell, Rep.
3rd District—Thomas J. Willis, Dem.; Jos. W. Atwell, Rep.
4th District, 1st Precinct—Edgar P. Beck, Dem.; W. S. Carroll, Rep.
4th District, 2nd Precinct—Wm. F. Malin, Dem.; Wm. J. Sappington, Rep.

INSURANCE

CHESTERTOWN, MD.

To The Best Paid Man.

It's sound sense that we tell you.

Your work costs less dollars and is best every time you use the L. & M. Paint.

You do more painting with one gallon of L. & M. than with two gallons of any other paint and the L. & M. Zinc hardens the L. & M. White Lead and makes the L. & M. Paint wear like iron.

4 gallons L. & M. mixed with 3 gallons Linseed Oil will paint a moderate sized house.

L. & M. costs only $1.20 per gallon.

A. T. Terrell, Riverhead, N. Y., Writes, "16 years ago painted with L. & M. Only now requires repainting.
