WILBUR ELIASON, JR., CHESTERTOWN, MD.

OPEN PUBLICITY THE BEST GUARANTY OF MERIT.

When the maker of a medicine, sold through druggists for family use, takes his patients fully into his confidence by frankly and fearlessly publishing broadcast as well as on its bottle wrappers, a full list of all its ingredients *in plain English*, this action on his part is the best possible evidence that he is not afraid to have the search light of investigation turned full upon his formula and that it will bear the fullest scrutiny and the most thorough investigation. Dr. Pierce's Favorite Prescription for the cure of the weaknesses, periodical pains and functional derangements of the organs distinctly feminine, is the only medicine put up for sale through druggists for woman's special use, the maker of which is not afraid to take his patients into his full confidence by such open and honest publicity.

A glance at the published ingredients on each bottle wrapper, will show that it is made wholly from native, American, medicinal roots, that it contains no poisonous or habit-forming drugs, no narcotics and no alcohol—pure, triple-refined glycerine, of proper strength being used instead of the commonly employed alcohol, both for extracting and preserving the active medicinal properties found in the roots of the American forest plants employed. It is the only medicine for women's pecular diseases, sold by druggists, that does not contain a large percentage of alcohol, which is in the long run so harmful to woman's delicate, nervous system. Now, glycerine is perfectly harmless, and serves a valuable purpose by possessing intrinsic value all its own, and besides it enhances the curative effect of the other ingredients entering into the "Favorite Prescription."

Some of the ablest medical writers and teachers endorse these views and praise all the several ingredients of which "Favorite Prescription" is composed—recommending them for the cure of the very same diseases for which this world-famed medicine is advised. No other medicine for women has any such *professional* endorsement—worth more than any number of ordinary testimonials. If interested, send name and address to Dr. R. V. Pierce, Buffalo, N. Y., for his little book of extracts from the works of eminent medical writers and teachers, endorsing the several ingredients and telling just what Dr. Pierce's medicines are made of. It's *free* for the asking.

MALE DRESS REFORM

IT IS HOPELESSLY HAMPERED BY THE STIFF WHITE SHIRT.

The Way This Garment Interferes With Both Health and Comfort. Some of the Absurdities of the Present Masculine Style of Attire.

The necessity by which men feel coerced of proving to the world that they wear white shirts lies at the basis of all the difficulties of the dress problem.

Until the garment becomes extinct it is hopeless to attempt the reform of men's dress on the lines of health and comfort.

It will of course ultimately disappear, for it is but the mark of a stage in the evolution of dress, just as the vermiform appendix is a useless evolutionary remnant in the body. But the question is whether we ought to await the slow course of evolution or to use our common sense and abandon the ancient garment at once.

Why do we wear white shirts? Ages ago it was only the wealthy who could afford to clothe themselves in linen. The possession of linen underwear was then a mark of social position, and there was an obvious advantage in making public display of it.

We may put down three-fourths of the discomfort of the hot summer to the account of the starched shirt. It prevents the very process devised by nature to keep the body cool—the evaporation of sweat. In so far as it hinders this natural process in summer, the white shirt favors disease. But in winter it is a fruitful cause of illness.

In winter the mere wearing of a white shirt would no doubt leave a man no better and no worse if he were content to wear it for his own satisfaction. But the curious law of evolution comes in and compels him to wear it in such a way as to do himself physical injury.

Wherever evolution is at work it leaves vestiges—literally, footprints. Probably it is millions of years since the vermiform appendix became a useless organ, but it still survives. All evolutionary survivals appear to be harmful. The appendix is the seat of appendicitis. In the inner corner of the eye there is the remnant of a once useful third lid, which now only lodges dust and causes irritation.

The lord chancellor's wig was once a comfort in ancient drafty legislative chambers and now merely serves to make a sensible man look ridiculous and give him headaches.

People who drew up laws were long ago paid according to the number of words, but the multiplicity of words now only causes confusion. So the white shirt that was once a badge of wealth and culture, being no longer of value for that purpose, is only a cause of discomfort and disease.

It is necessary to cut a piece out of the vest and the coat, just over the most important organs of the body, in order to prove to our neighbors that we wear white shirts. Consequently in the winter time we expose the lungs and the air passages to the cold wind and the cold rain.

From the point of view of health nothing could be more stupid. Bronchitis is one of the most deadly of all diseases in this country. Bronchitis is simply inflammation of the bronchial tubes. This inflammation is excited by a chill, a chilling of that part of the body left exposed in order to show that we wear white shirts.

The white shirt, in fact, might appear in the tables of the registrar general as the cause of so many deaths, perhaps 100,000 a year.

And does it really improve a man's appearance? By virtue of the association of ideas it certainly does. Usually men who do not wear white shirts are not given to cleanliness. The man who wears a white shirt washes his face and hands and brushes his clothes; hence when we see a white front and white cuffs we experience that pleasant sensation produced by general neatness of the person and clothing. But that a few square inches of white clothing over the chest makes a man look better is an absurd conclusion.

The case for the white shirt has not a leg to stand upon. The garment is uncomfortable, unhealthy and unbecoming. And as it has lost the only useful function it ever possessed—that is, its symbolism of exceptional wealth—we ought to discard it altogether. The difficulties of this course are very great no doubt. What we want is an "antiwhite shirt society," which would agree to wear, from some prearranged date, a dress designed wholly with regard for comfort, health and beauty.—T. F. Manning in London Gossip.

Making Love Up a Tree.

Billing and cooing among the Fijians is a curious feature in their social customs. It is decidedly against the rule to do any courting within doors. The gardens or plantations are the spots held sacred to Cupid, and the generally approved trysting place of lovers is high up among the branches of a breadfruit tree. You may often walk around a plantation on a moonlight night and see couples perched forty feet from the ground in the breadfruit trees, one on each side of the trunk, a position which comes fairly within the limits of a Fijian maiden's ideas of modesty.

Lord Rosebery's Definition.

It is to Lord Rosebery that we are indebted for the most modern definition of memory. "What is memory?" said a friend one day to him. "Memory," replied his lordship, "is the feeling that steals over us when we listen to our friends' original stories."—London Bystander.

Friendship is a good deal like your credit. The less used the better it is.—Sloan Springs (Ark.) Herald and Democrat.

Thousands Have Kidney Trouble and Don't Know it.

How To Find Out.

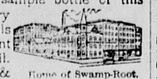

Fill a bottle or common glass with your water and let it stand twenty-four hours; a sediment or settling indicates an unhealthy condition of the kidneys; if it stains your linen it is evidence of kidney trouble: too frequent desire to pass it or pain in the back is also convincing proof that the kidneys and bladder are out of order.

What to Do.

There is comfort in the knowledge so often expressed, that Dr. Kilmer's Swamp-Root, the great kidney remedy fulfills every wish in curing rheumatism, pain in the back, kidneys, liver, bladder and every part of the urinary passage. It corrects inability to hold water and scalding pain in passing it, or bad effects following use of liquor, wine or beer, and overcomes that unpleasant necessity of being compelled to go often during the day, and to get up many times during the night. The mild and the extraordinary effect of Swamp-Root is soon realized. It stands the highest for its wonderful cures of the most distressing cases. If you need a medicine you should have the best. Sold by druggists in 50c. and $1. sizes.

You may have a sample bottle of this wonderful discovery and a book that tells more about it, both sent absolutely free by mail.

Home of Swamp-Root.

Address Dr. Kilmer & Co., Binghamton, N. Y. When writing mention reading this generous offer in this paper.

Don't make any mistake, but remember the name, Swamp Root, Dr. Kilmer's Swamp Root, and the address, Binghamton, N. Y. on every bottle.

D. BULL'S COUGH SYRUP

Is not a patent medicine but a doctor's prescription. The Rev. Dr. J. W. Bull first prepared it. It is perfectly safe, cures a cough or cold quickly. For croup, whooping-cough, bronchitis, grippe and throat and lung troubles it is the best. Price only 25c. It saves the doctor's fee and the druggist's prescription charge.

Free Sample if you mention this paper.
