FOUR SITES OFFERED FOR POSTOFFICE

Bids Opened Here Tuesday Morning

TWO NEW SITES LISTED

Bibbs Inn And Rockwell House Offered

Bids have been submitted on four sites for the proposed Chestertown postoffice or Federal building under a recent order of the Treasury Department advertising for new bids on locations for the building. The bids were opened at 9 A. M. Tuesday by Postmaster William B. Usilton.

They are:

THE VANNORT HOME PROPERTY, located on High street between the Voshell House and the Chestertown M. E. Church. Price $22,000.

THE ROCKWELL HOUSE, located on Cross street and Park Row. Price $15,000.

THE BIBBS INN PROPERTY, located on Spring avenue and Calvert streets. Price $12,000.

LOT NO. 7 WASHINGTON COLLEGE PROPERTY on Philosopher's Terract, next to the home of Lee Robinson. Price $5,000.

The Rockwell property, owned by J. Raymond, Harry G. and Frank V. Simpers, and the Bibbs Inn property, owned by Thomas W. Eliason, had been submitted as proposed locations for the new building previously. The Bibbs Inn site had been selected by the government at one time and plans made to begin work when a faulty title caused the property to be thrown back to its owner.

The Vannort property and the Philospher's Terrace sites are new ones. The Vannort property was offered by its owner, Mrs. James W. Chapman, Jr., and was the home for many years of the late Mr. and Mrs. Samuel Vannort, prominent and well-known Kent countians.

The Philospher's Terrace site is offered by its owner, Marion deK. Smith, Jr. It is located on the east side of Philospher's Terrace, or Cross street, extended, just south of the property of Lee Robinson.

A fifth location, that of the Chestertown park, just missed being offeerd when the Mayor and City Council in session Monday night at first voted 3-2 in favor of offering the land and then, on a second vote, reversed itself and voted 3-2 against the proposal.

Federal authorities will probably follow the usual procedure of investogating the sites offered in the bids and reach some decision after such a study of the locations.

PA. MILK 'CHEATING' DRIVE BEARS FRUIT

The State Milk Control Board's campaign in Pennsylvania against "cheating" of Pennsylvania dairy farmers by milk dealers is beginning to bear fruit. Two distributors who had been cited for hearings have begun mailing checks totaling $9,606 to 1,340 farmers, the board disclosed Friday. In one case 1,200 dairymen will share $3,987 in back payments for their milk. In the other, $5,618 will go to 140 producers.

During the severe electrical storm on Wednesday evening, fire caused by lightning, burned the barn and garage on the farm accupied by Julian Price and owned by George H. Padley, near Earleville. Mr. Price wishes to thank the Fire Company and all others who assisted in saving the buildings and other property.

SUMMER SCHEDULE

Baltimore-Tolchester Ferry

(Effective June 9th Daily and Sunday) Standard Time.

(Subject to change without notice)

LEAVE BALTIMORE, Pier 16 Light street *7.30, 8.45 a. m.. 2.15, *4.00 p. m.

LIQUID, TABLETS, SALVE, NOSE DROPS

Checks Colds, first day, Headaches or Neuralgia in 30 minutes, Malaria in 3 Days.

FINE LAXATIVE AND TONIC

Most Speedy Remedies Known.

Letters To The Editor

WHAT IS THE FOUNDATION OF CHRISTIAN SCIENCE?

Editor KENT NEWS,

Dear Sir:

The fact there are so many desirous of knowing what are the characteristic teachings of Christian Science, we believe, the writing of these brief "informa" articles.

Aside from claiming Mrs. Eddy received a divine revelation, and its teaching concerning the healing of diseases the evidences of which it denies, the one fundamental doctrine that makes Christian Science what it is, is its teaching about God. He is the only reality in all the universe, but He is not a person. "God is all," and this "all" being "Spirit," nothing material thas any existence. Says Mrs. Eddy: "God Is Principle, of the same impersonal character as the principle of mathematics." God, being "all in all," there is nothing else, no matter, evil, sin, disease or death.

Mrs. Eddy says this God, who is not a person, but a "Principle," is "Love, and pities woes with the love of a father for his child." How absurd to talk about a "Principle loving, of love having existence apart from a person who loves.

Where does Christian Science get the idea that the only Reality is impersonal Spirit? Mr. Roe has told you that Christian Science "is a religion based on the teachings of Christ Jesus," "who is the Truth, and has taught us the truth about God." Christian Science teachers repeatedly assert that Jesus Christ said "God's Spirit," and refer to John 4: 24. Many good people, ignorant of the Scriptures, fall for this, one of many of Mrs. Eddy's dishonest perversions of Scripture.

As a matter of fact Jesus Christ never said "God is Spirit," but in the very passage quoted by Christian Scientists in proof that God is not a Person. Jesus most emphatically asserts that He is. What Jesus really said is this: "God is A Spirit, and they that worship HIM, must worship HIM in spirit and in truth." Can we worship a Principle like mathematics?" Further this "HIM" Jesus says is His "Father," who sent Him into the world.

Although God is mentioned hundreds of times in the Bible, not once, by the wildest stretch of the imagination of any sane mind can it be made to appear that He is anything else but a Person, designated as "He," "His," "Who" and "I," with activities and attributes impossible of existence apart from a person. "God created," "God made," "God spake," "God commanded," "God loveth the righteous," "God is angry with the wicked," "God is a rewarder," and many hundred of such similar assertions concerning the personality of God.

The teaching that "God is all, and all is God," is pantheism. Christian Science is neither "Christian," nor "Science." Every doctrine taught by Christianity that distinguishes it from every other religion, it denies. Scientists repudiate it. It is not a "New Revelation," or a revelation" of any sort but a jumble of Oriental philosophies thousands of years old, and especially of the panthistic views of Spinoza, who lived 300 years ago. Hunt up your encyclopedias, and read upon Pantheism.

J. L. ELDERDICE,
Oxford, Md.

Editor of the KENT NEWS:

I like to read your Recall Notes. Can you find any one who can recall the shower of stars in the year 1868 or 1869 in the month of December. They came down just like snow flakes early in the morning.

Can they remember when Josiah Smith lived on the lot just above the college. He put his boy on a horse to graze and the bay had a rope around the horse's neck and around his body. The boy went to sleep and falling off scared the horse and he ran away and killed the boy. Can you recall when the free school spring was running. It was good water. I have had many a drink out of it and a lot more of old time things.

When a colored man dreamed that a man name Titter buried money in a vacant lot up town and when he was digging for it his wife would sit by and read the bible. He got down four or five feet and some white boy threw a shovel full of live coals of fire down the hole. That broke up the digger, and a lot more of funny things.

J. E. C. BIDDLE,
810 W. 7th St., Wilmington, Del.

U. S. Marines Are Evacuating Hayti

DEVIL DOGS LEAVING REPUBLIC AFTER 19 YEARS

After nineteen years of occupation, the U. S. Marines are evacuating the 130-year-old Republic of Hayti, and expect to complete the withdrawal not later than August 15th.

The Haytians, according to reports, are showing but very little interest in the withdrawal of the Marines, which are returning to the States on the U. S. S. Bridge, U. S. S. Argonne and the Army Transport Chateau Thierry.

The "Leathernecks" mission was one of peace, but they saw plenty of action, from time to time, in the jungles and mountains.

When the "Sea Soldiers" first landed, sanitation yas unknown,and education was only for the ruling classes, while, today, schoolhouses are in abundance, roads are in good condition, public health is accepted by the natives as a necessity, and the financial structure has been well stabilized.

Columbus discovered the island in 1492, and the racial stock comes from Negro slaves introduced by the Spanish in 1512.

Hayti occupies 10,200 square miles of the 29,000 square-mile-island shared with the Republic of Santo Domingo. Saddle Mountain reaches a height of 8,700 feet above sea level, and Cuba is 50 miles west. About 80 per cent of its 2,500,000 population live in country districts with the capital, Port au Prince, of 100,000 population, as center of activity.

Hayti has had twenty-four Presidents; seventeen were driven from office, two were assissinated and eleven have served less than a year each.

One of the first acts of the "Leathernecks" was to establish a native constabulary, the Garde d' Hayti, which will now have the task of preserving peace.

QUEEN ANNE'S BUSINESS MAN BUYS KENT COUNTY FARM

George L. Rex, of Catt's Corner, near Worton, Md., sold his home farm of 84½ acres to Wm. E.Butler, of Queen Anne's county. The farm is improved with frame dwelling, with seven rooms, good porches, concrete cellar, with telephone and electricity, big lawn, fine old shade trees, with ample outbuildings, all painted and in good condition. Kent county cordially welcomes Mr. Butler to her shores, wishing him success and happiness in his pretty home. Mr. Rex, likewise hails from Loudoun county Virginia. The banner county of the old Dominion, where he returns. The property was listed July 30 and sold August 4th by Treherne Associates Realty, 105 Court street, second door from postiffice, Chestertown, Md.

The public sale of Elwin Ford will take place on the "Carrington Farm" near Still Pond, on Tuesday, August 14th, beginning at 10.30 o'clock a. m.

NOTES ON SPORT

The Betterton Beach Club will hold another of their popular swimming meets today, but one of the chief performers will be noticeably absent. S. Scott Beck, Jr., the backstroke champion hereabouts, is doing the beach at Ocean City and will not be present for the festivities.

According to Jimmie Kirby, the Kennedyville key-hole peeper, his team was merely dilly-dallying with West Qent, when the two teams met at Tolchester on Tuesday. Playing eleven innings with the score 2-2, Jimmie stated that it was all by way of gibing the Farmers enough for the money they didn't pay. Kennedyville, after the thing had gone on long enough, proceeded to win, 3 to 2.

This report, of course, is highly partisan, but what can you expect?

Some good missionary work for the Chester River Regatta was done at St. Michael's by Bill Collins and his crew. He has promises of some speed boats and a few sailors for the local meet on August 17 and 18.

hTere is also the news that Dover, Del., will send about ten out-boards here for the regatta.

The open sailing event, for boats under eighteen and a half feet, will provide lots of competition. Eben F. Perkins has been jibeing his rowboat all over the river in preparation for the event, and Dorsey Hines will enter what he claims [illegible] speedy craft. However, Bucky W[illegible] son is going right ahead with [illegible] preliminary work, and says little [illegible] but hopes to be up there with th[illegible] winners. Bucky's craft was buil[illegible] gy his father, handles nicely and [illegible] skims right along.

Down at "Lanchester"—Nichols Marsh—today there is being held the annual Horsemanship Show of the Quaker Neck Riding Club. W. R. Hubbard, Esq., is judging the affair, which is for children under eighteen years of age. A program of ten events will amuse the spectators will take advantage of the free gate and be present.
