Movies

For Monday and Tuesday evenings another of Damon Runyon's stories comes to the screen of the New Lyceum Theatre. bringing with it Lee Tracy in the leading role. "The Lemon Drop Kid" is a Runyon yarn with the popular sports writer's favorite background—the race track.

With Lee Tracy in the title role, "Lemon Drop Kid" is the story of a race follower is a tip man and a petty crook and gambler and what befalls him when he runs away to a small town to hide from the police; and then falls in love with a country lass. Landing a job in a local department store, Tracy marries the lass, and a series of unfortunate adventures lead him back to his evil ways. A thrilling and realistic series of adventures will keep you interested to the very surprising end of this film.

For Wednesday and Thursday evenings Will Rogers will be the featured attraction on the screen of the New Lyceum Theatre. America's favorite humorist is appearing in his latest film, "Judge Priest" which is easily adjudged one of his best screen portrayals.

Filled with rich humor, "Judge Priest" bubbles along his merry way and capably fills the bench of a small county seat, while the court room over which he presides teems with characters which are a replica of those to be found in the court of any county seat in the land.

In this film Will Rogers is before the eyes of the audience nearly every minute of its length, and you will leave the theatre wishing that it could have been longer. In his inimitable way Rogers puts across amusing lines which have been written for him by Irving S. Cobb. With these two—Cobb and Rogers—one can't go wrong in recommending "Judge Priest" with the utmost gusto.

For Friday and Saturday there will be a double feature bill presented at the New Lyceum Theatre. "Gridiron Flash," a timely film of the fall pastime, is one of the attractions, and John Wayne in "The Man From Utah" is the other film. For all evenings, the usual interesting program of short subjects has geen arranged.

MOTOR OIL NEWS

A fortunate combination of circumstances for motorists last winter brought about the introduction of the "W" types of motor oils just before we experienced the coldest weather in many years.

"For several years," says Robert Weir, Jr., the local Branch Manager of Sun Oil Company, "both the automobile builder and the manufacturer of motor oils replied that in winter time the average motor oil should be made to overcome winter starting troubles.

"Up to that time, some oils when exposed to cold would thicken into a sticky, gummy mass in the crankcase and would become so stiff that at times it was utterly impossible for the starter to cut a path through the thick mass, thus making it impossible to start the car.

"After a great deal of research in which the Sun Oil Company played an important part, it was found that a motor oil could be so made that it would remain liquid at exceedingly low temperatures and thus eliminate the starting trouble previously caused by congealed oils.

"Of course at Sunoco headquarters we received many appreciative letters from the users of 10-W and 20-W Sunoco Mercury Made Motor Oil, and we are confident that during the coming winter the use of these new oils will become even more widespread. In fact, every automobile manufacturer, with the exception of Duesenberg and Lincoln (both big cars), is now recommending the use of 20-W or 10-W Motor Oil during winter months."

Made To Measure Clothes

The very foundation of good clothing appearance begins with perfect fit! This can only be accomplished by having the garments made just for YOU!

Clothes that are tailored to follow every line of your body—to fall in with every swing of your figure—to hang smoothly from the shoulders—to drape comfortably and luxuriously — are the perfect garments!

That is the kind of clothes we tailor! — and even more reasonable than you think!

So we invite you to see NOW—a complete Fall showing of the newest woolens, particularly in the smart tones of brown — all emphatically designed for the fine tailoring trade and priced so low they are a positive economy.

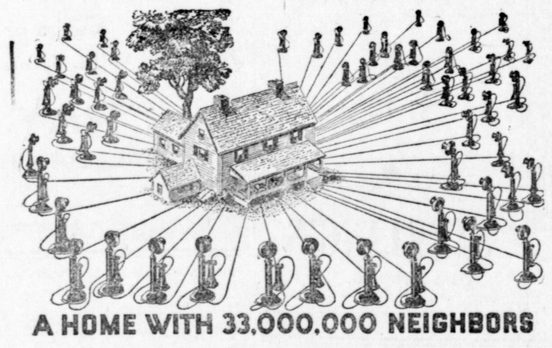

Come in today and do a little exploring for the good of your pocketbook—it will do you good, too!

A HOME WITH 33,000,000 NEIGHBORS

The farm home with a telephone has more neighbors than the city home *without* one.

The home without a telephone is, in a sense, cut off. It is without proper protection from fire or marauders—out of reach of its neighbors—lacking certain of the social advantages that all families deserve.
