### Philadelphia Press' Figures.

The Philodelphia *Prsss* of a recent date had the following table which shows the standing of the two parties as regards the political outlook. From this it will be seen that the Republicans have a sure chance of winning in the Presidential race.

| SURE REPUBLICAN. | | SURE DEMOCRATIC | |
|---|---|---|---|
| California | 9 | Arkansas | 8 |
| Idaho | 3 | Alabama | 11 |
| Illinois | 24 | Florida | 4 |
| Iowa | 13 | Georgia | 13 |
| Kansas | 10 | Kentucky | 13 |
| Maine | 6 | Louisana | 8 |
| Mossachusette | 15 | Maryland | 8 |
| Michigan | 10 | Michigan | 4 |
| Minnisotta | 9 | Mississippi | 9 |
| Montana | 3 | Missouri | 17 |
| Nebraska | 8 | New Jersey | 10 |
| New Hamsphcre | 4 | North Carolina | 10 |
| North Dakoto | 3 | South Carolina | 9 |
| Ohio | 23 | Tennesee | 12 |
| Oregen | 4 | Texas | 15 |
| Pennsytvania | 32 | Virginia | 12 |
| Rhode Island | 4 | | |
| South Dakota | 4 | Total | 164 |
| Vermont | 4 | DOUBTFUL STATES. | |
| Washington | 4 | Connecticut | 6 |
| Wiiconsin | 12 | Colorado | 4 |
| Wyoming | 3 | Delaware | 3 |
| | | Nevada | 3 |
| Total | 207 | New York | 36 |
| | | Indiana | 15 |
| | | West Virginia | 6 |
| | | Total | 73 |

The *Press* in commenting on these figures has the following: "The Republicans will need sixteen votes under that calculation. Connecticut, West Virginia and Colorado would furnish them. New York would do it alone, and allow the loss of one or two Western States. Indiana and any one of the doubtful States would do it. There are various combinations that might make up the dificiency. If it be said that some of the States put down for the Republicans are doubtful the same thing can be as truly said of the Democratic columns. But the Democrats need fifty-nine votes to elect their candidates in the Electoral College. New York and Indiana would not do it. They must needs carry at least four of the States put in the doubtful column, including New York and Indiana. It is clear that they have a goed deal to accomplish if they elect Cleveland.

FOR SALE OR RENT—A very desirable eight room dwelling on Main St. Apply to A. R. Wright, Denton, Md.

### Delaware Dashes.

—The Delaware State Building at the Chicago Exposition was dedicated Saturday. The dedicatory programme was under the direction of Rev. T. E. Terry, pastor of St. Pauls' M. E. Church, Wilmington.

—Five Hungarians have left Dobbinsville for the old country after a stay of a year. It is believed that they saved $25 a month of wages of $38 a month. They returned to enlist in the Hungarian army, and thus retain their citizenship in that country.

—E. B. Emory's yearling chestnut filly Happy Rose, by Happy Russell, won the yearling stake of $115, at Pimilico, Baltimore last week, trotting the mile in 3.06¼.

—When all other remedies for scrofula fail, Ayer's Sarsaparalia, if persistent used, effects a cure. Being a powerful alterative, it cleanses the blood of all impurities, destroys the germs of scrofula, and imparts new life and vigor to every fibre of the body.

—The public accountants, experts, as they are called, are still at work at the books of the National Bank of Smyrna, and will not likely get through before the last of the week. Thus far nothing material has been found to relieve the shortage.

—Postmaster Wm. A. Price, of Delaware City, has placed one thousand baskets of green tomatoes under glass, where they will be ripened and shipped to Wilmington and Philadelphia markets, where they are readily disposed of at good prices at Thanksgiving and later on. Mr. Price is one of the most successful truckers in the country. He now has five hundred bushels of good white potatoes on which he expects to realize $500.

Highest of all in Leavening Power.—Latest U. S. Gov't Report.

Royal Baking Powder

ABSOLUTELY PURE

The Georgetown Hosiery Company shipped a part of its machinery to Wilmington last week and will finally remove to that city about the first of November.

**Bucklen's Arnica Salve.**

The Best Salve in the world for Cuts, Bruises, Sores, Ulcers, Salt Rheum, Fever Sores, Tetter, Chapped Hands Chilblains; Corns, and all Skin Eruption and postively cures Piles, or no pay required. It is guaranteed to give perfect satisfaction, or money refunded. Price 25 cents per box. For sale by George & Redden.

### Maryland Dashes.

——Enos G. Hickey, of Sudlersville Md., and Jackson Thomas, of Wilmington, are under arrest for stealing livery man Anderson's horse and buggy, and Thomas accuses Hickey of selling the team at Fredericktown, Md.

——Assisted Railroad Agent T. C. Curry relieved Agent Henry Legelken, of Hartley, Del., last week, while the latter took unto himself a wife, a Miss Katie Bates, of Oxford Md. The wedding took place at the home of the bride Wednesday.

——He thoroughly believes in it.—Mr. A. J. Rutherford, Geneva Book Bindery, Geneva, N. Y., writes: "I received a severe knock on my head, cutting the scalp badly. I applied Salvation Oil, and few applications removed all pain. It is the best thing for cuts, burns, and bruises. I keep it both in my house and shop, and would not be without it."

——The Seventh Day Adventists, who have been laboring with the oystermen of Winchester, Queen Anne's county, during the past six months have met withmarked success They number fifty converts, forty-one of whom formed a line last Sunnay and marched to Winchester Creek where each one was subjected to an examination and then immersed.

——Mr. Samuel W. Megill runs a 400 acre farm at Mt. Harmon, down on the Sasrafras, in the lower end of Cecil county. Here he raises chestnuts, not of the minstrel variety, nor the indigenous little nuts of the woods, of which this year's crop is not up to the average, but great big toothsome Spanish chestnuts, of which he has already marketed about forty bushels and expects to market as many more within the current week. Mr. Megill ships these chestnuts to New York, Philadelphia and Baltimore, where they command ready sale at prices ranging from $8 to $10 per bushel. The mere labor of picking up these chestnuts from under the trees every day keeps two or three hands busy all through the season.

**The Marvelous Growth of a Great Store.**

From the first, Wanamaker's has been a store of surprises. The plan of business was an innovation, the scope of it a revelation, the success of it a marvel.

For sixteen years the great house has gone on widening its field, perfecting its methods—*improving*, IMPROVING.

The word this Fall in business circles is that Wanamaker's is outstripping even its own past. More attractive stocks than ever and such a flood of trade as has already overtopped the record of any other year *by more than a million of dollars.*

An air of thrift and progress pervade every part of the establishment. The great masses of merchandise—particularly of Dress Goods—are unprecedented in amount and variety.

This Fall changes greater than ever before have been made in the interior of the building.

Four boilers, aggregating 1000 horse-power, have been added to the steam systems making eleven boilers in all, requiring 26 tons of coal a day.

The power is required for 13 hydraulic elevators, using 1,000,000 gallons of water a day; for 100 miles of steampipes used to heat the building; for running 482 arc lights and 800 incandescent lights supplied by 16 dynamos—the largest private electric light plant in the country (besides these there are 4550 gas jets) and for the more than eleven miles of 2¼ inch pneumatic tubing reaching to 86 pay stations. in as many parts of the store.

A new entrance to the store has been made on Chestnut street near Juniper street. To the left of this is the largest mirror ever silvered in Philadelphia. The plate, which is wonderfully perfect was made in the western part of this State.

On the right of main Chestnut street entrance by great care labor and expense two large pieces of wall have been removed and a great square secured for exhibition and selling purpose.

One of the finest touches lately given to the business is in the Black Dress Goods section. Catching the thought from some of the beautiful household Furuiture, the counters and fixtures have been rebuilt of fine bird-eye maple the aisle floor has been laid in small tiles, and numerous comfortable chairs to match the new furniture have been provided for the use of visitors.

The new outfit for the Shoe store is said to be finest and most complete in America. Nearly 40,000 pairs of Shoes are regularly kept in the "forward" stock.

The Optical store has also been completely refurnished.

All about the building, and especially in Men's Furnishings, Chestnut street, crystal glass counters have been introduced which are at once show case and selling counter. Help alike to both buyer and seller.

This combination of counter and show case finds best expression in the space added to the Silk store, near the Girard window, west end of Transept

The fixtures to hold goods and counters from which to sell them are entirely made of the finest plate glass. And within and around them a fresh inspiration appears. The new Decorative Silks are in harmony with the cases.

One of tho charms at Wanamaker's is the freedom that every visitor feels Nobody is nagged or "looked into buying. Parcels are checked free of charge. There are resting and retiring rooms. Everybody is welceme.

LANE'S MEDICINE MOVES THE BOWELS EACH DAY.—In order to be healthy this is necessary.

Dr. Fenner's Flavoring extracts the best. All trippled goods and wartanted. Sold by George & Redden.

**How Dignitaries Were Brought.**

One of the most important and successful features in connection with the dedicatory exercises of the World's Fair grounds, and one which fully illustrates the wonderful progress which our country has made within the last half century, was the movement made by the Pennsylvania Railroad Company of the cabinet officers, the supreme court justices, and the diplomatic crops from Washington to this city and back. It required three special trains to perform this function, and Vice-president Frank Thomson, to whom the credit of the achievement is due, made requisition on the Pullman Palace Car Company for the finest equipment which those famous car builders could produce. The result was a triple section train such as has never before glided over the rails in any country. A crew of twenty five persons including stewards, cooks, waiters, porters, maids, electricians, and machinists, in addition to the usual quota of trainmen, was required to insure proper service. The outfit resembled in a somewhat lessened degree the personal equipment of an ocean greyhound, of which the trains were a duplication on land.

These trains were provided and tendered for the use of the distinguished guests of Chicago by Viee-President Thomson. They were run from Washington to Chicago as sections of the regular "Chicago Limited," of which they were duplicates, and they conformed to the regular schedule of that train. With the thorough organization of the Pennsylvania Railroad Company and its splendid system they came through the entire distance on the special schedule ttime arranged for them, without acciden or delay of any kind, and this in the face of an extraordinarily increased passenger traffic. The great line is in such excellent physical condition, so well protected by the safeguards of modern invention, and so perfectly managed by a crops of men who have been eduеated and trained under the eyes of its high officials, that a movement of this kind, extraordinary as it may appear to the public, was effected without interfering in any manner with the routine of everyday traffic.

Its safe to say that while no other country in the world would be able tomove the entire organization of its government a distance of one thousand miles, so there is no other railroad company which could grapple with such a problem and solve it with the ease to the persons interested and the credit to itself that has distinguished this achievement of the Pennsylvania Railroad. It reflects the utmost credit on Vice-President Thomson, who planned, and his sssociates, who executed the brilliant feat of railroad transportation, and holds out bright promises of equally successful work when the resources of this line will be drawn upon next year to furnish adepuate transportation facilities to the hosts who will visit the world's greatest fair.

M. J. YOUNG,

Will advertise personal property next week.

### Notice to Parents, Teachers, and Guardians.

*Office of the School Board.*
*Denton, Md., Oct. 25, 1892.*

Whereas, the County Commissioners have designated physicians to visit the schools for the purpose of executing the requirements of law as to the vaccinatton of pupils, namely, Dr. S. H. Thomas for the First district. Drs. Herr end Malone for the Second district, Drs. George and Hignutt for the Third district, Drs Noble and Duhadway for the Fourth district, Dr. Clark for the Fifth district and Dr. Saulsbury for the Sixth; And where as the law as to vaccination is mandatory and the admission of pupils is conditioned upon evidence of vaccination; now therefore, be it

Ordered, that teachers be instructed to render to the visiting physicians such assistance as may be in their power by furnishing the names upon a list of all the pupils and aid the physians as far as their knowledge goes as to the financial ability of all parents or guardians to pay a fee of fifty cents for each scholar and also as to the inability of others to pay the fee so that the vaccinating physicians may be enabled to render intelligent information to the board of County Commissioners. By order,

M. B. STEPHENS, Sec'y.

### What is the Electropoise? and What Will it Do?

The Electropoise has been in use for four years and is well known in some sections of the United States, but there are a great many sufferers that have never heard the name. Those that have heard of it and seen something of its wonderful power, are curious to know how on instrument so small and so simple can accomplish cures so great. Now, while the Electropois is very wonderful, it is not at all mysterious. Its operations fall in with what we know of science, and any one at all familiar with the simplest facts of Bialogy and Physics can understand.

**HOW IT OPERATES.**—The way in which the Electropoise accomplishes its cures in very simple and natural. It consists of a polarizer, which is connected by a woven wire cord with a small plate and garter. This polarizer is immersed in cold water, or put on ice. The plate at the other end of the cord is attached to the warm body of the patient, generally at the ankle. From the inherent nature of this polarizer it becomes negatively charged. By the well-known laws of induction, the plate, and with it the body of the patient, becomes positively charged. The body thereby becomes a centre of attraction for negative bodies. Oxygen is the most negative form of matter in nature. Hence the body, bathed in the atmosphere. drinks in the life-giving oxygen at every pore. Every process of life is thereby qickened. The temperature rises; the pulse throbs with a fuller beat; the skin tingles with new life; every organ acts with renewed vigor, and the effete poisonous products of the body are thrown off with ease.

That quickened change of matter which oxygen produces throughout the system, is accompanied by a largely increased genesis of **Nerve Force.** Organs half dead and stagnant are born again, and begin to perform their wonted functions. The heart, the lungs, the liver, the organs of the external senses, the organs of reproduction—all these throw off their derangement and weakness, and even the disordered intellect is oftimes re-enthroned. Where disease has not already made too great ravages, restoration to **perfect health is inevitable.** The Electropoise is generally used at night while the patient is asleep. but may be applied of course, at any time, and to several persons during the twenty-four hours. It will last a life-time, never wears out nor loses its strength, never needs mending nor recharging.

One in each family will render that family largely independent of doctors and druggists, and thus will save every year many times its small cost.

**NOT AN ELECTRICAL APPLIANCE.**—The Electropoise is not in any way akin to the numerous electrical appliances, such as belts. insoles, corsets shields, etc., palmed off upon the public. It has no method of generating a current. nor means of conducting one. It acts upon well known biological principles, and is heartily endorsed by many of the best physicians in this and other countries, and is daily used by them in their practice. It is pronounced by them the greatest discovery in the history of medicine, in that it does away with the use of medicines.

**DIRECTIONS FOR USING.**—Accompanying each instrument is a book of instructions fully explaining its uses. Its methods of cure is so simple and free from danger, that the uninitated and even children can use it with perfect ease and success.

Editorial in Boston Christain Witness and Advocate of Bible Holiness, September 3, 1891:

"A method of treatment of disease without the use of any medicines or drugs, which has been quietly extending itself over all parts of the United States during the past three years with very gratifyiug results.

We are slow to commend new discoveries of any kind for the reason that so many of them prove to be worthless. But we can commend the Electropoise as a safe and effective health restorer. We do not pretend to explain the philosophy of its workings, but. having realized its beneficial effects, we can speak of its results. About one year ago we recommended it to Bro. I. D. Ware, of Philadelphia, for his son, who was a great suffer from Sciatica. He had sought relief in various ways and found none. He was almost helpless and rapidiy declining. The use of the Electropoise restored him to perfect health, and now after nearly a year he is rejoicing as one who has found great spoil. We have seen testimonials of most remarkable cures. This notice of the Electropoise is without solitation, and entirely gratuitous. We do it for the good of the afflicted. We have no personal interest in it, and are not paid for what we say in its favor."

The following editorial in Central Methodist, Catlettsburg, Ky., was written by Zephaniah Meek, D. D., editor.

"Unless about ten thousand men, mainly professional men, lawyers, doctors, editors, preachers, and all other classes, including the writer, are very much mistaken, the Electropoise effects cures and gives relief where all other known remedies have failed Especially is it efficacious in the case of delicate women and feeble children. I have used one for the past two years, and find it invaluble as a curative agent."

Names of prominent people in all sections of the U. S. generally can be furnished on application. Our cures cover all parts of the United States and Europe. Over 50,000 people have been treated with the most gratifying results. In the large majority of cases the cures have been speedy, but our claims are modest, and in long-standing, chronic cases you cannot expect speedy cures. We positiuely refuse to sell the Electropoise in hopeless cases.

For book of testimonials or for any information, send stamp or call at

**Electropoise Treatment Co.**
**220 N. Charles St. Baltimore, Md.**

WILLIAM L. TUFF,

AUCTIONEER
