REPUBLICANISM AT THE SOUTH.—The New York *Evening Post* publishes some extracts from the letter of one of the most prominent men in the Southern States, whose opportunities for information are unusually good, and whose statements can be regarded as entirely trustworthy. We quote from his letter:

"You will be surprised to learn that the Republican party is already a powerful organization in these States, and it is rapidly increasing in strength and numbers. Already the Union League in Alabama numbers over thirty thousand white voters, and it is equally strong in Georgia."

The writer continues:

"There never was such a marvellous change wrought in any people as has been accomplished since the passage of the late act of Congress. They are completely converted, and the everlasting "nigger" is courted here by prominent whites in a manner which it is mild to call disgusting. 'Sambo' with a vote has been transformed from an ignorant brute to an intelligent friend and fellow-citizen. The wisest and most successful measure ever passed by Congress is the Reconstruction act of last session."

THOSE of our readers who lack a growth of hair upon the face, or those whose hair is falling out, or have become bald, would do well to try "Dr. Sevigne's Restaurateur Capillaire." This preparation has been used by thousands in this country and Europe, with the most gratifying results. Testimonials of the most flattering character have been received from the most wealthy and influential citizens of the country, and will be sent free to any one, on application, by Messrs. Berger, Shutts & Co., Chemists, of Troy, N. Y., the only agents in America for the sale of the same. Read their advertisement in this paper.

PRISONERS AT THE TORTUGAS.—The records of the War Department show fifty persons are now confined at the Dry Tortugas, nine citizens and forty-one soldiers. The former are Mudd, Spangler, Arnold and O'Laughlin, the conspirators; notorious St. Leger Greenfel, sentenced to hard labor for life for conspiring to release prisoners of war; John P. Adair, a South Carolinian, sentenced to five years for robbery; John Walters, ten years for manslaughter, and Sam. Henry, three years for assault with intent to kill. Of the soldiers, eighteen were sentenced for desertion, seven for assault with intent to kill, and six for robbery.

OF the many Cosmetics and Toilet Articles now advertised, but few prove to be what they are represented. Messrs Berger, Shutts & Co, Chemists, of Troy, N. Y., are advertising extensively several articles that have proved themselves just as represented, for which they are acting as agents. We believe them to be perfectly trustworthy, and that parties using their preparations will find them fully up to the recommends given. See their advertisement in another column of this paper.

SPECIAL NOTICE COLUMN.

CONSUMPTION CURABLE BY DOCTOR SCHENCK'S MEDICINES.

TO CURE CONSUMPTION, the system must be prepared so that the lungs will heal. To accomplish this, the liver and stomach must first be cleansed and an appetite created for good wholesome food, which, by these medicines, will be digested properly, and good healthy blood made; thus building up the constitution. SCHENCK'S MANDRAKE PILLS cleanse the stomach of all bilious or mucous accumulations; and, by using the Sea Weed Tonic in connection, the appetite is restored.

SCHENCK'S PULMONIC SYRUP is nutricious as well as medicinal, and, by using the three remedies, all impurities are expelled from the system, and good, wholesome blood made, which will repel all disease. If patients will take these medicines according to directions, Consumption even frequently in its last stage yields readily to their action. Take the pills frequently, to cleanse the liver and stomach. It does not follow that because the bowels are not costive they are not required, for sometimes in diarrhœa they are necessary. The stomach must be kept healthy, and an appetite created to allow the Pulmonic Syrup to act on the respiratory organs properly and allay any irritation. Then all that is required to perform a permanent cure is, to prevent taking cold. Exercise about the rooms as much as possible, eat all the richest food—fat meat, game, and, in fact, anything the appetite craves; but be particular and masticate well. [2nd w. ea. mo.

☞ A YOUNG LADY returning to her country home, after a sojourn of a few months in the City, was hardly recognized by her friends. In place of a coarse, rustic, flushed face, she had a soft ruby complexion of almost marble smoothness, and instead of twenty-three she really appeared but eighteen. Upon inquiry as to the cause of so great a change, she plainly told them that she used the CIRCASSIAN BALM, and considered it an invaluable acquisition to any Lady's toilet. By its use any Lady or gentleman can improve their personal appearance an hundred fold. It is simple in its combination, as Nature herself is simple, yet unsurpassed in its efficacy in drawing impurities from, also healing, cleansing and beautifying the skin and complexion. By its direct action on the cuticle it draws from it all impurities, kindly healing the same, and leaving the surface as nature intended it should be, clear, soft, smooth and beautiful. BRANDRETH'S PILLS.

Our theory: Local disease, whether of the stomach and bowels, enlargement of the joints, rheumatic pains, cutaneous eruptions, even dyspeptic complaints, boils, or whatever form such local disease puts on, are so many "PROOFS" of a disordered state of the blood and bowels, which BRANDRETH'S PILLS correct and cure. GROVER & BAKER'S

Family Sewing Machines.

THESE Machines are superior to all others for family use, for the following reasons:

They sew with two threads direct from the spools, and require no rewinding.

They are more easily understood and used, and less liable to derangement, than any other machines

They are capable of executing perfectly, without change of adjustment, a much greater variety of work than other machines.

The stitch made by these machines is much more firm, elastic, and durable, especially upon articles that require to be washed and ironed, than any other stitch.

This stitch, owing to the manner in which the under thread is inwrought, is much the most plump and beautiful in use, and retains this plumpness and beauty, even upon articles frequently washed and ironed, until they are worn out.

The structure of the seam is such, that, tho' it be cut or broken at intervals of only a few stitches, it will neither open, run nor ravel, but remains firm and durable.

Unlike other machines, these fasten both ends of the seam by their own operation.

With these machines, while silk is used upon the right or face side of the seam, cotton may be used upon the other side, without lessening the strength or durability of the seam. This can be done on no other machine, and is a great saving upon all articles stitched or made up with silk.

These machines, in addition to their superior merits as instruments for sewing, execute the most beautiful and permanent embroidery and ornamental work.

The above points of superiority are fully established by the sworn testimony in the recent case before the United States Patent Office, and by letters from all parts of the country.

☞ REV. B. F. BENSON, agent in Denton, will furnish the above machines at Baltimore prices, and will teach those who buy of him to operate them, gratis.

LETTER FROM MRS. T. H. KEMP.

To Rev. B. F. Benson:—

After having fully tested the Grover & Baker Sewing Machine, purchased through your agency, I take pleasure in saying I am delighted with it My sewing is now an amusement, rather than labor. The work it required me a week to do by hand I now accomplish in two days with my machine. I am decidedly pleased with the beauty, elasticity, and durability of the stitch, as well as the convenience with which the machine may be adjusted to all kinds of family sewings. With the aid of two lessons from you, I learned to use the machine. My experience, and my judgment, incline me to say, you will confer a great favor on any family to whom you may sell. I never was better satisfied with the use of the same amount of money.

Yours truly,

Analysis of the Schuylkill Lime.

ST. JOHN'S COLLEGE, ANNAPOLIS, January 11, 1860.

P. T. TYSON, *Maryland State Geologist:*

DEAR SIR:—During our interview at Annapolis some months since, you expressed the opinion that the analysis of lime for publication in your reports should be taken of samples *as the cargo is delivered on the farm.* You will remember that I told you that I had such a sample taken last April while on a visit to my farm.—I annex the analysis, and think that it represents one of the best varieties of the "Schuylkill Lime of Pennsylvania." The sample was taken before it was slaked, and represents a great many lumps from different parts of a cargo of 2,000 or 3,000 bushels. These were powdered and fairly sampled—the balance of the sample being preserved in glass in our cabinet.

I paid 12 1-2 cents per bushel unslaked, and have since obtained 1,000 bushels from the same source. The sample taken from the second load was taken beneath the surface of the heap, and from several parts of the heap after it had been slaked for several weeks on my farm.

I am thus particular in giving you the circumstances under which this sample was taken—as you told me that it was your intention to procure samples representing the lime that the manufacturer sells to the farmer, "and not such as is sent for analysis."

The cargo was "*accidentally*" pretented at landing during my visit to my farm, and the captain assured me that it was from the quarries of W. B. RAMBO, near Norristown, Montgomery county, Pennsylvania.

The slaked lime referred to above was soluble in *dilute* acetic acid, except about six per cent. (6.22) and yielded 107. of pure carbonate of lime obtained by precipitating the *acid* solution with oxalic acid, and then heating the oxalate by the usual process.

Yours, respectfully,
