WISTAR'S BALSAM OF WILD CHERRY.

This remedy has long been cherished by the community for its remarkable efficacy in relieving, healing and curing the most obstinate, painful and long-standing cases of Cough, Cold Influenza, Sore Throat, Bronchitis, Whooping Cough, Croup, Asthma, Inflamation of the Lungs; while even Consumption itself has yielded to its magic influence when all other means have failed. Its whole history proves that the past has produced no remedy of equal value, as a cure for the numerous and dangerous pulmonary affections which prevail all over the land.

UNSOLICITED TESTIMONY.

From Andrew Archer, Esq., of Fairfield, Me.

"About eight years since my son, Henry A. Archer, now Postmaster at Fairfield, Somerset county, Me., was attacked with spitting of blood, cough, weakness of Lungs, and general debility, so much so that our family physician declared him to have a 'SEATED CONSUMPTION.' He was under medical treatment for a number of months, but received no benefit from it At length, from the solicitation of himself and others, I was induced to purchase one bottle of WISTAR'S BALSAM OF WILD CHERRY, which benefitted him so much I obtained another bottle, which in a short time restored him to his usual state of health. I think I can safely recommend this remedy to others in like condition, for it is I think, all it purports to be—THE GREAT LUNG REMEDY FOR THE TIMES! The above statement, gentlemen, is my voluntary offering to you in favor of your Balsam, and is at your disposal."

DR. SCHENCK'S PULMONIC SYRUP.

This great medicine cured Dr. J. H. Schenck the proprietor, of Pulmonary Consumption, when it had assumed its most formidable aspect, and when speedy death appeared to be inevitable His physician pronounced his case incurable, when he commenced the use of this simple but powerful remedy. His health was restored in a very short time, and no return of the disease has been apprehended, for all the symptoms quickly disappeared, and his present weight is more than two hundred pounds.

Since his recovery, he has devoted his attention exclusively to the cure of Consumption, and the diseases which are usually complicated with it, and the cures effected by his medicines have been very numerous and truly wonderful. Dr. Schenck makes professional visits to several of the larger cities weekly, where he has a large concourse of petients, and it is truly astonishing to see poor consumptives that have to be lifted out of their carriages, and in a few month healthy, robust persons. DR. SCHENCK'S PULMONIC SYRUP, SEAWEED TONIC, and MANDRAKE PILLS are generally all required in curing Consumption. Full directions accompany each, so that any one can take them without seeing Dr. Schenck, but when it is convenient it is best to see him. He gives advice free, but for a thorough examination with his Respirometer his fee is three dollors.

Please observe, when purchasing, that the two likenesses of the Doctor—one when in the last stage of Consumption, and the other as he now is, in perfect health—are on the Government stamp.

Sold by all Druggists and Dealers. Price $1.50 per bottle, or $7.50 the half dozen. Letters for advice should always be directed to Dr. Schenck's Principal Office, No. 15 North 6th Street, Philadelphia, Pa.

☞A YOUNG LADY returning to her country home, after a sojourn of a few months in the City, was hardly recognized by her friends. In place of a coarse, rustic, flushed face, she had a soft ruby complexion of almost marble smoothness, and instead of twenty-three she really appeared but eighteen. Upon inquiry as to the cause of so great a change, she plainly told them that she used the CIRCASSIAN BALM, and considered it an invaluable acquisition to any Lady's toilet. By its use any Lady or gentleman can improve their personal appearance an hundred fold. It is simple in its combination, as Nature herself is simple, yet unsurpassed in its efficacy in drawing impurities from, also healing, cleansing and beautifying the skin and complexion By its direct action on the cuticle it draws from it all impurities, kindly healing the same, and leaving the surface as nature intended it should be, clear, soft, smooth and beautiful. THE undersigned would say, most respectfully, to the community generally, that he keeps on hand an assortment of

Cloths, Cassimeres and Vestings,

to suit the seasons, at his tailoring establishment, No. 58 W. Fayette street, Baltimore Md. Past experience induces me to say that I can give you as good a fit, and as much for the money, as any in the trade. If you will take the trouble to compare prices, I am sure you will give me a trial. As respects a fit, no one need hesitate; none shall go away without entire satisfaction. I would rather lose the sale of a garment, than a customer should hold me in unfavorable remembrance every time he puts it on. This is no humbug. Those who know me well will subscribe to what I say. My first object is to promote my own interest; the second, yours. Come and realize the fact. Persons furnishing their own goods can have them made and trimmed in good style. GROVER & BAKER'S
Family Sewing Machines.

THESE Machines are superior to all others for family use, for the following reasons:

They sew with two threads direct from the spools, and require no rewinding.

They are more easily understood and used, and less liable to derangement, than any other machines

They are capable of executing perfectly, without change of adjustment, a much greater variety of work than other machines.

The stitch made by these machines is much more firm, elastic, and durable, especially upon articles that require to be washed and ironed, than any other stitch.

This stitch, owing to the manner in which the under thread is inwrought, is much the most plump and beautiful in use, and retains this plumpness and beauty, even upon articles frequently washed and ironed, until they are worn out.

The structure of the seam is such, that, tho' it be cut or broken at intervals of only a few stitches, it will neither open, run nor ravel, but remains firm and durable.

Unlike other machines, these fasten both ends of the seam by their own operation.

With these machines, while silk is used upon the right or face side of the seam, cotton may be used upon the other side, without lessening the strength or durability of the seam. This can be done on no other machine, and is a great saving upon all articles stitched or made up with silk.

These machines, in addition to their superior merits as instruments for sewing, execute the most beautiful and permanent embroidery and ornamental work.

The above points of superiority are fully established by the sworn testimony in the recent case before the United States Patent Office, and by letters from all parts of the country.

☞REV. B. F. BENSON, agent in Denton, will furnish the above machines at Baltimore prices, and will teach those who buy of him to operate them, gratis.

LETTER FROM MRS. T. H. KEMP.

To Rev. B. F. Benson:—

After having fully tested the Grover & Baker Sewing Machine, purchased through your agency, I take pleasure in saying I am delighted with it My sewing is now an amusement, rather than labor. The work it required men week to do by hand I now accomplish in two days with my machine. I am decidedly pleased with the beauty, elasticity, and durability of the stitch, as well as the convenience with which the machine may be adjusted to all kinds of family sewings. With the aid of two lessons from you, I learned to use the machine. My experience, and my judgment, incline me to say, you will confer a great favor on any family to whom you may sell. I never was better satisfied with the use of the same amount of money.

Yours truly,

Analysis of the Schuylkill Lime.

ST. JOHN'S COLLEGE, ANNAPOLIS, January 11, 1860.

P. T. TYSON, *Maryland State Geologist:*

DEAR SIR:—During our interview at Annapolis some months since, you expressed the opinion that the analysis of lime for publication in your reports should be taken of samples *as the cargo is delivered on the farm.* You will remember that I told you that I had such a sample taken last April while on a visit to my farm.—I annex the analysis, and think that it represents one of the best varieties of the "Schuylkill Lime of Pennsylvania." The sample was taken before it was slaked, and represents a great many lumps from different parts of a cargo of 2,000 or 3,000 bushels. These were powdered and fairly sampled—the balance of the sample being preserved in glass in our cabinet.

I paid 12 1-2 cents per bushel unslaked, and have since obtained 1,000 bushels from the same source. The sample taken from the second load was taken beneath the surface of the heap, and from several parts of the heap after it had been slaked for several weeks on my farm.

I am thus particular in giving you the circumstances under which this sample was taken—as you told me that it was your intention to procure samples representing the lime that the manufacturer sells to the farmer, "and not such as is sent for analysis."

The cargo was "*accidentally*" pretented at landing during my visit to my farm, and the captain assured me that it was from the quarries of W. B. RAMBO, near Norristown, Montgomery county, Pennsylvania.

The slaked lime referred to above was soluble in *dilute* acetic acid, except about six per cent. (6.22) and yielded 107. of pure carbonate of lime obtained by precipitating the *acid* solution with oxalic acid, and then heating the oxalate by the usual process.

Yours, respectfully,
