Local Intelligence.

The Orphans Court of Caroline county will sit on Tuesday, July 30th, 1867.

The County Levy.

From Mr. William H. Charles, Clerk to Board of County Commissioners, we learn that the county levy, this year, will be about 85 or 90 cents on the hundred dollars.

Camp Meeting.

We are requested to announce that the colored people will hold a camp meeting in Mr. John Reid's woods, in the First Election District, commencing on Friday, August 16th.

Base Ball.

A match game of Base Ball was played between the Presto club, of Federalsburg, and the Star club of Seaford, on Saturday afternoon last, resulting in a very signal victory in favor of the latter. The score stood 44 to 17. We have been unable to obtain the complete score.

Thunder Storm.

The most severe thunder storm of the season passed over this place on Monday last. The wind blew very violently, tearing off limbs of trees, and in some instances breaking the trees themselves down. It was accompanied with hail, but we have heard of no damage done by it.

A WONDER FOR THE WORKSHOP.—Every Mechanic should have ready at hand a box of *Grace's Celebrated Salve*, as it is a remedy for accidents, such as Cuts, Bruises, Contused Wounds, Burns, Scalds, Poisoned Skin, and Eruptions, caused by operations in the factory, dye-house, or printing office. Only 25 cents a box.

Road Supervisors.

The following road supervisors have bonded:

1st District—Wm. C. Satterfield.

2d District—G. W. Spurry, Saulsbury Hobbs.

3d District—Jehu Blades.

4th District—Jno. Collins, Rich'd. H. Wright.

There are still wanting three in the 1st District, one or two in the 2d, and one in the 4th. The bond of $500 deters many men from being aspirants for the office of road supervisor. We don't think there ought to be any trouble to get officers in this district, for the Democrats have all got the office mania. It may be that they are all after "fatter" office.

Camp Meeting Notice.

By Divine permission, there will be a camp meeting at Concord, to commence Saturday, August 17th.

The following is a committee to let out the pound and breadstand: T. Nuttle, A. Y. Collins and R. H. Lockerman.

The committee on boarding tents are Wm. Stevens and William Andrew.

There will be a meeting on the ground on the 10th of August to clear up the ground and put down the seats. Come early in the morning.

JOHN HOUGH, Pastor.
Wm. Stevens, Secretary. [2t]

Why Don't You Stop It?

A few weeks since, a certain gentleman, a resident of this town, of the Democratic persuasion, refused to any longer take our paper, for political reasons, we imagine. Ever since that time he has been borrowing from one of our juvenile patrons.—Now, we think this is a small business for any man to engage in, and especially for one occupying the position he does—an officer under Tom Swann—and, we presume, considers himself "*some*." too, (for all Democrats do that, even if they have not an ounce of brains.) If he is unable to pay for the paper, and would like to have it, and will make known that fact to us, then he shall have it *gratis*. This would be a thousand times more honorable than to borrow from a young man who, from a small salary, patronizes his home paper. For the sake of your own honor, stop this spunging.

There are several noble sons of Democracy that we know of in this town who practice this same thing, some of them men of considerable means, too. We hope to see and hear no more of this annoyance to our subscribers, for it is a low, grovelling business, let who will indulge in it.

The Boonsborough Picnic.

The picnic held at the old camp ground by the sabbath and public schools of Boonville on the 18th was a delightful entertainment, the weather being pleasantly cool for the season, the atmosphere bracing, enabled every one to enter with a zest into the enjoyment of the occasion. An observer would seldom witness so many bright and cheerful smiles, mingled with such hearty greetings, as on this occasion. The exercises for the afternoon consisted of addresses by Rev. Mr. Allison and Wm. S. Ridgely, Esq., and vocal music by the schools, all of which was highly creditable to the performers and gratifying to the audience. And last, though not least, was the abundant supply of refreshments—enough for each, enough for all, and a little more. We have never seen such perfect good behavior on any similar occasion.

About 7 o'clock in the evening the school exhibition commenced at the M. E. Church, in Boonville, and here, "like the other exercises," perfect good order prevailed. The stage for the performers was ample for the accommodation of all engaged in the exercises, and neatly festooned, but no curtain or strings to be pulled at the close of each piece and opening of the next. No hunting around for performers; every one was in the right place at the proper time. The pieces were well selected and well performed and highly creditable to the children and to the schools to which they belong; and no less to the teacher, who has charge of the Boonville school, "Miss Kate N. Jump." One of the most interesting pieces was spoken by a little boy, too young to go to school, but not too young to express his Union sentiments in very strong terms, He said, suiting the action to the word, "I am Union from my head to my heels," and putting his hand on his head said, "no copper there." At the close of his speech he said, "some day he would be big enough to go to school and learn to read and write—learn to be a useful man. We hope so, but think the prospect not very flattering under the proposed constitution of Maryland.

☞A YOUNG LADY returning to her country home, after a sojourn of a few months in the City, was hardly recognized by her friends. In place of a coarse, rustic, flushed face, she had a soft ruby complexion of almost marble smoothness, and instead of twenty-three she really appeared but eighteen. Upon inquiry as to the cause of so great a change, she plainly told them that she used the CIRCASSIAN BALM, and considered it an invaluable acquisition to any Lady's toilet. By its use any Lady or gentleman can improve their personal appearance an hundred fold. It is simple in its combination, as Nature herself is simple, yet unsurpassed in its efficacy in drawing impurities from, also healing, cleansing and beautifying the skin and complexion. By its direct action on the cuticle it draws from it all impurities, kindly healing the same, and leaving the surface as nature intended it should be, clear, soft, smooth and beautiful. A DISTINGUISHED JURIST WRITES TO A FRIEND AS FOLLOWS:

I have tried the Peruvian Syrup, and the result fully sustains your prediction It has made a new man of me; infused into my system new vigor and energy; I am no longer tremulous and debilitated, as when you last saw me, but stronger, heartier, and with larger capacity for labor, mental and physical, than at any time during the last five years.

Thousands have been changed by the use of this remedy from weak, sickly, suffering creatures, to strong, healthy and happy men and women; and invalids cannot reasonably hesitate to give it a trial.

A CARD FROM THE

American Watch Company

OF

WALTHAM, MASS.

This Company beg leave to inform the public that they commenced operations in 1850, and their factory now covers four acres of ground, and has cost more than a million dollars, and employs over 700 operatives. They produce over 75,000 Watches a year, and make and sell not less than one-half of all the watches sold in the United States.

The difference between their manufacture and the European, is briefly this: European Watches are made almost entirely by hand, and the result is of necessity a lack of that uniformity, which is indispensable to correct time-keeping. Both the eye and the hand of the most skillful operative must vary. But it is a fact that, except watches of the higher grades, European watches are the product of the cheapest labor of Switzerland, and the result is the worthless Ancres, Lepines and so called Patent Levers—which soon cost more in attempted repairs, than their original price. Common workmen, boys and women, buy the rough separate parts of these watches from various factories, polish and put them together, and take them to the nearest watch merchant, who stamps and engraves them with any name or brand that may be ordered.

How American Watches Are Made.

The American Waltham Watch is made by no such uncertain process—and by no such incompetent workmen. All the company's operations, from the reception of the raw material to the completion of the Watch, are carried on under one roof, and under one skillful and competent direction. But the great distinguishing feature of their watches, is the fact that their several parts are all made by the finest, the most perfect and delicate machinery ever brought to the aid of human industry. Every one of the more than a hundred parts of every watch is made by a machine—that infallibly reproduces every succeeding part with the most unvarying accuracy. It was only necessary to make one perfect watch of any particular style and then to adjust the hundred machines necessary to reproduce every part of that watch, and it follows that every succeeding watch must be like it.

The Company respectfully submit their watches *on their merits* only. They claim to make

A Better Article for the Money

by their improved mechanical processes than can be made under the old-fashioned handicraft system. They manufacture watches of every grade, from a good, low-priced and substantial article, in solid silver hunting cases, to the finest chronometer; and also ladies' watches in plain gold or the finest enameled and jeweled cases: but the indispensible requisite of all their watches is that they shall be GOOD TIME-KEEPERS. It should be remembered that except their single lowest grade named "Home Watch Company, Boston," ALL WATCHES made by them

ARE FULLY WARRANTED

by a special certificate, and this warrantee is good at all times against the Company or its agents. ROBBINS & APPLETON,
